THESE ARTICLES WE WARRANT TO BE FIRST CLASS.

It will not be necessary to secure the subscribers at one time. For instance, if any one wants the Mill we offer for 80 new subcribers, he can send the names in any number he chooses, and we will allow him a whole year to finish his einb

To Our Patrons.

The "Maryland Farmer, as an Agricultural Journal and as medium for Advertisers is not surpassed by any Agricultural Journal in this country. Its circulation is double that of any other Agricultural Journal in Maryland, and for ten years was the only agricultural journal published in the State. Two years ago the subscription price was reduced to \$1.00 per year (In advance). This change was made as an experiment to see if we could increase the circulation so as to make it pay as well as at its former price which was \$1.50. Having tried the experiment two years, we are pleased to say that we find the old adage true, "the nimble six pence is better than the slow shilling, and we shall continue to publish the Farmer, at the low price o \$1.00 per year in advance. It is very gratifying to us to see the increased interest taken by our subscribers and advertisers in the circulation of our Journal, and it is in a great measure due to them that our circulation has recently so largely increased, and for which they will please accept our thanks, and we pledge ourselves to do all in our power to maintain the present high character of the Maryland Farmer, and to increase its usciul ness.

To every Subscriber we bid a hearty welcome to our Office, where we can have friendly chats, and where the Planter, Farmer, Gardner, Stock-raiser and all our rural friends can meet and interchange sentiments, form new acquaintance and cement old friendships.

The reading matter in the MARYLAND FARMER will never be lessened by advertisements, We feel called upon to make this statement, as the large increasing circulation of our paper naturally increases the amount of advertisements, therefore we wish to say most positively to our subscribers, that the reading matter in the FARMER will always contain not less than 32 full pages monthly, and often 36 to 38; and should our advertisements reach 100 pages, it will not lessen the reading matter, but likely to increase it. We feel indebted to our correspondents for their largely increased interest in the FARMER, and we are sincerely thankful for the promptness of our subscribers in renewing their subscription.

Special rates for cover pages. Transient advertisements payable in advance. Advertisements to secure inserties in the easting month should be sent in by the 20th of the month

Reasons Why Business Men and Farmers Should Patronize the Maryland Farmer.

1. Because it is the oldest and most popular Agricultural Paper in Maryland, and the cheapest Magazine published in the United States, making a volume of nearly 1,000 pages during the year, at the low price of \$1.00, post-paid.

2. Because it has the ablest class of practical and scientific correspondents of any Agricul-

tural paper in Maryland.

3. Because it admets no political discussions in its columns, is independent, opposed to class-'egislation and all schemes which would advance one interest to the detriment of another and uniformly adhering to the great principal of human justice to all, striving to help the progress of Agriculture, looking upon it as the great source from which all other employments of man must draw the means of prosperity.

4. Because the Proprietor and Editor of the Maryland Farmer has been engaged in the interest of Agriculture for more than forty years, thirty-seven of which have been spent in Baltimore, and during this long time has become personally acquainted with the most promagriculturists and inventors of agricultural machinery, and devotes his whole time in fostering

this great interest of the country.

- 5. Because, being devoted to all branches of Agriculture, Horticulture and Domestic Economy, its contents are valuable to its subscribers, and being necessarily kept as a means of reference, it presents to the Merchant, Farmer, Mechanic, and all others, the most valuable medium for advertising whatever each one has to offer for sale.
- 6. Because the MARYLAND FARMER has a large circulation and will be read by more Farmers, Planters, Merchants and Mechanics, and others interested in Agriculture than any other paper which circulates in the Middle or Southern States.

E. WHITMAN, Editor and Proprietor.

To The Farmers.

There is nothing more calculated to advance the spread of useful knowledge among men in any avocation than the general interchange of opinions and views of scientific and plain practical men engaged in the same pursuit.

Farmers, let us in the future have no lack of correspondence. Every man will be welcome to our columns to express his views on any subject relating to agriculture. Commence one with another, just as if in private talk, and let every man contribute his mite to swell the heap of agricultural riches, and the ball of progress will roll on until the clods of ignorance or mistaken predjudices are crushed, and good seeds in well cultivated ground will bear a rich harvest for the present and future generations. Great results have sprung from single experiments made by chance or by some obscure individual. We say to one and all let us hear from you about your Farming, Stock or Poultry, Bees, Dairy; your Orchards and Gardens, and what is your experience in such matters.

STREET, LEWIS CO., LANSING.

Complimentary Notices of the Press.

It will be seen that each of the following flattering notices are spontaneous, unsolicited tributes from editors of first class papers, published in different parts of the Union. They are not manufactured in our office and stereotyped for insertion in such journals as may choose to insert them as a favor This we know is the practice of some journals, and the same notice is seen in a dozen papers—being quasi editorials, but we do not like and therefore do not indulge in the practice.

The January number of the Maryland Farmer is received, and is well filled with matter of interest to farmers. Its London letters especially attract us, and are far more practical than such letters usually are.—Pocomoke City (Md.) Record and Gazette.

The Maryland Farmer, published by the veteran agriculturist, Ezra Whitman, is just out. Among the contents is an excellent article on "How to grow Sugar Beets," a subject which is attracting much attention in this country and France. There are also valuable papers on poultry, the dairy, forest culture, live stock hints, and others on current topics of interest to farmers. The ladies' department is especially interesting, and embraces chats on many important subjects.—Evening Bulletin, Baltimore.

The Maryland Farmer is rich in information for every tiller of the soil in this State. Agriculture, horticulture, live stock, the dairy and the poultry house are all ably treated by an efficient corps of writers. It is an excellent farm journal, and so very cheap, only \$1 per annum.—Somerset Herald.

The Maryland Farmer, is well suited to any latitude, and is adapted to the circumstances of tarmers all over the country. The various departments are edited with the usual ability which characterizes this useful journal.—The Gospel Banner, Maine.

The Maryland Farmer is upon our table. It is one of the best farm books in the country.

-- Montgomery Co. Sentinel.

The Maryland Farmer, comes well filled with choice and valuable matter for the farmer. As a journal to promote the interests of the agriculturalist in the State, the Maryland Farmer should be taken in every farmhouse in the State.—Havre Republican.

The Maryland Farmer, published by Ezra Whitman, No. 141 West Pratt street, Baltimore, Md., is one of the best and cheapest agricultural monthlies that comes to this office. It is the oldest Agricultural journal in this State.—Frederick Examiner.

We take pleasure in placing the Maryland Farmer on our list of exchanges, and we cheerfully recommend it to our readers as an excellent agricultural journal.—Ellicott City Times

The Maryland Farmer for August contains the usual variety of interesting matter. It is the oldest agricultural journal in Maryland and a publication that no one interested in agriculture, horticulture and rural economy should be without.—Evening News.

The Maryland Farmer for May (Baltimore: Ezra Whittman), has a timely and practical article on the work for the month, the most important in the calender, perhaps, for tillers of the soil. There is also an interesting article on the fertilizer trade of Baltimore, together with a variety of papers on agricultural topics.—Gazette, Baltimore.

The Maryland Farmer.—This is an old favorite agr-cultural periodical, and one which should have large circulation among our Farmers.—Worcester News.

The March number of the Maryland Farmer has been received, and contains thirty-three pages of interesting and instructive reading matter. Its paper on farm work for the month is full of good suggestions; the paper on State Aid to Agriculture is a sensible, well-written article, and contains many facts that would be well for our Legislature to consider at this time. This number alone is worth the subscription price of the magazine—\$1 per year.—Marlboro Gazette.

We are in receipt of that well-known and popular agricultural journal, the Maryland Farmer, for March. It is full of valuable information to the farmer, gardner, and the household.—Laurel Gleaner.

The Maryland Farmer has been received. It is filled with useful and instructive matter for farmers to read and study during the long winter nights—Centreville Record.

The Maryland Farmer.—It affords us pleasure to note the advent of any really good publication—one that will lead agriculture science and art to a step upward in this mighty age of progress. One of the most prominent of this class we are pleased to note is the Maryland Farmer. It stands as a useful helper to every tiller of the soil, whether an expert or amateur. The articles in each number are practically worth a whole year's subscription.—St. Mary's Beason.

PROPRIETORS.

This RESTAURANT is the oldest and most ex-

tensive in its accommodations of any in the city.

The BAR is filled with the finest of all kinds of LIQUORS. The TABLES are covered with the best substantial food the markets afford, besides, at the earliest moment they can be procured in the different seasons, every variety of delicacy that land and water furnish, in

BIRDS, GAME, FISH, FRUITS & VEGETABLES.

Prices moderate. The crowds, which lunch and dine daily, attest public approbation of the superior

management of the house.

It is a convenient place for travellers, who stop only a few hours or a day in the city, to get their meals. It is the popular resort of country gentlemen from the counties, particularly from Southern Maryland, being convenient to Railroads and Steamboats, and in the midst of the business portion of the city.

The Proprietors will be grateful for the continuance of the extensive patronage they now enjoy, and will do their best to give entire satisfaction to all visitors. ian-Iv.

STOVER WIND ENGINE CO., Freeport, Branch Factory, Kansas City, Mo.

LAND PLASTER

Was introduced into the United States by Benjamin Franklin, and first used by him in this country on his farm near Philadelphia. He divided a lot bordering on one of the principal thoroughfares leading from the city, into two sections, and the signs which he erected called the attention of the passers-by to the fact that "This part of the lot has been sown with Plaster of Paris," and "This part had not been sown." The effect of the plaster was remarkable, almost doubling the production of grass, and forthwith the demand for the new fertilizer became very great, and importations of it was the result.

Much might be written about its value to farmers, but they have

TESTED ITS MERITS

and they know, while other fertilizers have proved worthless,

PLASTER CONTINUES TO ENDURE THE TEST

and the steady increase in its sales is the best evidence of its growing popularity. It is doubtless the

Cheapest Fertilizer in Existence.

The analysis of this plaster is about 20 per cent. richer, in the essential element which makes the plaster of value for agricultural purposes, namely, Sulphate of Lime, than in plaster usually sold.

The New Sheep Dip

LITTLES CHEMICAL FLUID.

Non-poisonous, Non-corrosive Disinfectant, and Specific for Scab, Mange, Ticks, Lice, Fleas & all insect pests

Is now extensively used in all the great wool-grow-Is now extensively used in all the great wool-growing countries of the world, and is rapidly superceding all other pr parations. In Australia it is the recognized Dip and in New Zealand it is used in the Government Dipping Stations, and is highly recommended by the principal Sheep Inspectors. In the United States also, although only recently introduced, it is having a large sale, especially in California, and during the last twelve months many thousands gallons have been shipped to that State alone. It greatly increases the quantity and improves the quality of the wool.

increases the quantity and displaced the wool.

It is before all other Dips in the simplicity of its preparation. It mixes at once with cold water, and a single trial will prove that on coming in contact with the water the whole is changed into a milky white dip, which is distinctly not the case with any other material.

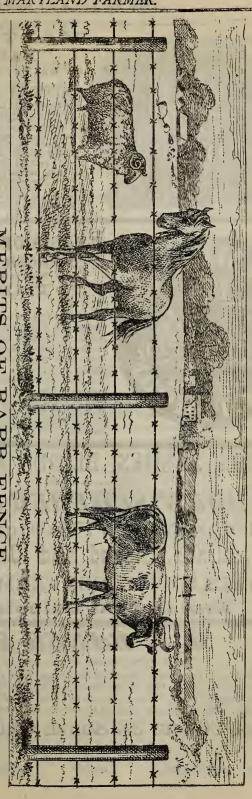

T. W. LAWFORD, Gen'l and Wholesale Agent, it No. 29t E. Chase Street, Baltimore, Md.

Powell's Tip Top Bone Fertilizer.

Only one Price---\$25.00 a ton Cash. No Commissions to Agents.

SPECIAL NOTICE.

The "Tip Top bone fertilizer, as will be seen by analysis, is very rich in plant food. We put it on the Market as being much cheaper and equally as good as many of the higher priced brands that are now sold. The analysis of this fertilizer is guaranteed, and is in the best mechanical condition for drilling. There is not one pound of earth or foreign matter used in making the compound. These facts, with the high chemical value and low price of the "Tip Top," will make it fill a demand made by a great many farmers for a cheap and efficient Fertilizer where they have not the time or means of manipulating chemicals successfully.

GIVE IT A TRIAL.

Kendall's Spavin

Kendall's

Spayin

Cure.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

FROM

Rev. P. N. Granger,

Presiding Elder of the St. Albans District.

St. Albans, Vt., January 20th. 1890.

Dr. B J. Kendall & Co., Gents:—In reply to your lelter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it cured a horse of lameness caused by a spavin. Last season my horse became very lame, and I turned him out for a few weeks, when he became better, but when I put him on the road, he grew worse, when I discovered that a ring-bone was forming. I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured him so that he is not lame, neither can the bunch be found. Respectfully yours, P.N.GRANGER.

Perseverance will tell!

B. J. Kendall & Co., Gents:—In justice to you and myself, I think I ought to let you know that I hove removed two bone spavins with Kendall's Spavin Cure, one very large one; do not know how long the spavins had been there. I have owned the horse eight months. It took me four months to get the large one off and two for the small one. I have used 10 bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great. Respectfully yours, CHAS. E. PARKER.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

BAKERSFIELD, VT., Dec. 23, 1879.

B. J. KENDALL & Co.: Gents.—I wish to add my testimony in favor of your invaluable liniment, "Keudall's Spavin Cure." In the spring of 1862 I stipped on the ice and sprained my right limb at the knee joint. I was very lame, and, at times, suffered the most excruciating pain. I wore a bandage on it for over a year, and tried most everything in my reach, but could find nothing that would give me permanent relief. When I overworked, it would pain me very much. In April, 1878, I began to think I should be a cripple for life, but, having some of "Kendall's Spavin Cure," thought I would try it. I used one-third of a bottle, and experienced relief at once. The pain left me and has not troubled me since. I feel very grateful to yon, and would recommend "Kendall's Spavin Cure" to all who suffer with sprains or rheumatism.

Yours truly,

MRS. J. BOUTELL.

Is sure in its effects, mild in its acts, as it does not blister, and yet it is penetrating and powerful to reach any deep seated pain or to remove any bony growth or any other enlargement, it used for several days, such as spavins, splints, curbs, callons, sprains swellings, any lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects. It is used full strength with perfect safety at all seasons of the year.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success, to our knowledge, for beast as well as man. Price \$1 per bottle, or six bottles for \$5. All Druggists have it or can get it for you,

or it will be sent to any address on receipt of price by the proprietors.

TO WHEAT GROWERS!

The undersigned PIONEER, in the manufacture of Fertilizers in this city and Originator in 1858 of the formulas and processes of manufacture of

"Excelsior" and "Ammoniated Phosphate"

so well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers as MANUFACTURED BY HIM, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the Farmer—combining all the stimulating qualities of Peruvian Guano, and the ever-durable fertilizing properties of Bones, in fine, dry powder, prepared expressly for drilling, it is the universal opinion of the Farmers of Maryland and Virginia, after over twenty years experience in the use of the Excelsior manufactured by me, in Growing Wheat, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for Manufacturing, I challenge competition with any Fertilizer sold in the United States in QUALITY,

MECHANICAL CONDITION and PRICE.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manufacture—as for the past twenty years,

UNIFORN QUALITY IS GUARANTEED.

Farmers to secure the ONLY GENUINE EXCELSIOR and PHOS-PHATE, prepared according to my original Formulas established in 1858, should see that every Bag is branded as above; with the ANALYSIS and MY NAME IN RED LETTERS.

J. Q. A. HOLLOWAY,

Originator and Manufacturer,

107 McElderry's Wharf, Baltimore, Md

To Cotton and Sugar Planters.

J. J. TURNER & CO., "EXCELSIOR."

1858

1880

Forming the most concentrated, universal and [durable] fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvain Guano, and the ever durable fertilizing properties of

Bones. In fine dry powder, prepared expressly for drilling.

After twenty-two Years' experience by the Planters of Maryland and Virginia in the use of "EX-CELSIOR." it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, full 100 per cent cheaper

Farmers should see that every bag is headed with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against conterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvain Guano for sale,

To Cotton and Sugar Planters!

J. J. TURNER & CO.,

BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analsysis and our name in red letters, which we hope will prove sufficient protection against conterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMEL FOR THE FUTURE.

THE AMERICAN Breeder and Planter.

(Published in the Interest of Agriculture.) FRANK G. RUFFIN, JR., EDITOR AND PROPRIETOR.

Subscription, \$1 per annum in advance,

No club rates. No commissions to advertising agents.

CARD TO SUBSCRIBERS AND ADVER-TISERS.

The American Breeder and Planter is published for the benefit of all whom it may concern, prominent among whom are Planters, Farmers, Graziers, Breeders, Feeders. Truckers. Gardeners, Country Merchants, Shippers, and Immigrants, a leading Agricultural Journal of 32 pages of reading matter. We intend to make it one of the leading journals of the country. To subscribers we say that our matter is collected from all parts of the United States and from Europe. Of stock we make a specialty Our trucking and gardening material is gathered directly from those engaged in these pursuits. We also give prices current, guaranteeing them to be as reliable as any printed. In short, we publish everything useful and entertaining to people living in the country, feeling that in so doing we supply a want.

To advertisers we offer a young, vigorous and live circulating medium, guaranteeing a circulation of from one to two thousand per month, going over a new field each month, contracting to lay our paper on the counters of every country merchant in the South within the next twelve months; and earnestly assuring our friends that our circulation by no means depends on our subscription list.

For terms for advertising, and other matters connected with the journal, address all communi eations to

Montgomery's Improved Rockaway Wheat Fan.

FOR 1880.

We call the attention of the trade to these justly celebrated FANS for the coming season. Farmers of Maryland, Virginia and Delaware will appreciate the Montgomery Fan this year more than ever before, after their experience last year with the inferior Western Fans, which were sold in these markets, most of which are already shaking to pieces. The Montgomery Improved Rockaway Wheat Fan will clean wheat so much better than any other Fan in the country, that farmers can realize from 2 to 5 cents per bushel more for wheat Cleaned with this Fan. It has received 16 Gold and Silver Medals, and 222 Premiums. Merchants hould not neglect to order early to secure these celebrated Fans.

Address all orders and inquiries to

E. WHITMAN, SONS & CO.

April 10th 1880.

TO OUR TRADE!

We take pleasure in presenting to you a list with prices, &c., of our

Baltimore Hay, Straw and Fodder Cutter,

and in doing so we feel sure that our efforts to give you, not only a first class Cutter, but a well made and handsomely finished Machine, will be appreciated. Our aim and efforts shall be to use none but the BEST MATERIAL, and employ none but the BEST WORKMEN. We shall not ende avor to give you the lowest priced Cutter, but

"THE BEST CUTTER"

made, and one that will sell itself on its merits. We ask of you only a sample order to convince you that our goods are all we claim for them; we know that manufacturers have too often lost their trade on a machine that was really good, by their efforts to compete with the cheap goods, thus necessitating their using cheap and inferior lumber, iron, steel, paint and varnish, in order to cheapen the cost of manufacturing their goods. Our motto is:

"THE BEST IS THE CHEAPEST."

Our Baltimore Cutters will held their own trade by the superiority of their finish.

PRICES.

The Six Inch Cutter, \$16.00; the Eight Inch Cutter, \$25.00; the Nine Inch Cutter, \$34.00 the Eleven Inch Cutter, \$38.00; the Thirteen Inch Cutter, \$50.00.

The Fifteen Inch Cutter, \$55.00.

—this size is arranged and can be used for cutting Hay, Straw, Corn, Stalk, or any kind of green iodder for ensilage, by either hand horse or stram power. For special prices, and discounts, address,

PENNSYLVANIA AGRICUITURAL WORKS,

A. B. FARQUHAR, Proprietor, YORK, PA,

STEAM ENGINES A SPECIALTY

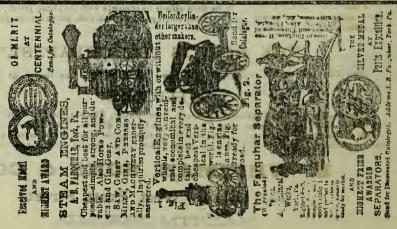

Above cut represents my Vertical Eggine, mounted. In use it stands on the base, and it is let up and down with perfect ease. Is adapted for Threshing, Ginhing, &c., and while it is in every respect a first-class article, it is the cheapest portable engine made. I make them with and without wheels, and of all sizes; six horses being the leading size.

HORIZONTAL BARS

From four to twenty horse power, adapted to all descriptions of work where power is required, and warranted equal to any made in America. The boilers are made of the best charceal iron, and I have never had one to give way. Send for Illustrated Catalogue.

Sept-ly ADDRESS A. B. FARQUHAR, York, Pa.

1859

TWENTY-SECOND YEAR.

1880

Edited by THOMAS MEEHAN, State Bo anist of Pennsylvania, and Fellow of many Learned Societies in America and Europe. He has now a world-wide reputation as an authority, and is much respected for his solid ability and worth wherever known. Our Magazine is at present the only strictly Horticultural periodical in the United States, east of the Rocky Mountains.

IT IS PUBLISHED

For the Amateur Cultivator, Botanist, Naturalist, and Lover of the Country.

For the Florist, Pomologist. Athoriculturist, Nurseryman, Seedsmin and Dealer. For the Landscape Gardener, Gentleman's Gardener, Market Gardener, Collector and Exhibitor of Flowers and Fruits.

IT IS

For the City, For the Country, For the Park, the Lawn, the Fields, the Woods. For the Conservators, For the Walk down the Lare, For the Poor Man's Wildow Shelf.

For the Terrace, For the Best Hours of Life, It is a Veteran in Years, but Young and Vigorous in Fresh Acqui itions to the Stores of Horticulture

The Monthly Contents are:

Flower Garden and Pleasure Ground Greenhouse and House Gardening. Fruit and Vegetable Gardening. New and Rare Plants and Flowers New and Rare Fruits and Vegetables Forestry, Botany, Horticultural Li erature. Personal Notes of the Editor and Best Original

Selections from Contemporary Authorities, Hints for the Month and Season, for the Amateur' Florist. Fruit Grower, etc.

Horticultural Societies.

Subscription price, per year, \$210. Two subscriptions for \$3.20. Five subscriptions for \$7.00. Anyone announcing a club of five or more, may send them, on that understanding, singly as they ome in, with \$1 40 each.

We refer to our contributor, Peter Henderson, and to all well known Horticulturists generally, as to the satisfactory claims of our Magazine.

Sample copies sent for 18c. postage stamps or money.
Remit by post-office order, draft, or registered letter, for your own security against loss.

WHITMAN'S YOUNG AMERICA CORN & COB MIL

CHAMPION OF THE WORLD.

Farmers, Stock Raisers, Dairymen and Poultry Breeders can save more Money with on these Mills than with any Implement or Machine on their Farm.

Whitman's Iron Beam Double Shevel Ploy

141 and 143 W. Pratt Stress

BALTIMORE, MD.

Cod Fenders, Goulters, &c.

A GREAT LABOR-SAVING INVENTION.

The above engraving represents the most sensible, efficient and really useful labor saving implement ever devised. It is truly the perfection of a Sawing Machine, and at once convinces the mechanical eye that it is a grand success. The operator sits in the saddle, with his feet upon the treadles and hands upon

the lever, in a perfectly easy and natural position

The saw is driven by motions of the body so easy and natural that they are not felt. It is no more than riding a horse. In addition to this, the entire weight of the operator is brought to bear to aid the Saw, thus giving it a double power. The principles of leverage employed in operation afford the most perfect application of power that can be devised. The force is applied just "where it will do the most good." Every "foot-pound" of power produces a "foot-pound" of good honest work.

DESCRIPTION.

Length of frame, 7½ feet; weight of Machine complete, 60 pounds; stroke of Saw, 3½ feet. Price, 25.00.

MILLINTONG'S TM 19-11-1

THE ONLY RAM MADE WITH HORIZONTAM WASTE VALVE. SIMPLE,

DURABLE.

POWERFUL.

Ine advantages of this over other Rams are: It can be regulated to make from 30 to 120 strokes per minute; it never gets out of air; it will work on any quantity of water; it always pumps a portion of the water passing into it; it cannot stop so long as the water runs on it; it works out all sticks, leaves, gravel, &c, without stopping; it gains four inches fall over any other ram by the peculiar construction of the waste valve. We refer by permission, to Hon. the peculiar construction of the waste valve. We refer by permission, to Hon. Simon Cameron and Col. James Duffy, of Marietta, Pa.; J. P. Lukens, M. D. Neport, Del., and Rev. J. H. Forrencc, Danville, Pa., J. D. Dylton, M. D., Polnyra, N. J.; E. S. Worrell, Esq., Chester, Pa.; Wm. Powell's Tip Top Bone Fertilizer.

Only one Price---\$30.00 a ton Cash. No Commissions to Agents.

SPECIAL NOTICE.

The "Tip Top bone fertilizer, as will be seen by analysis, is very rich in plant food. We put it on the Market as being much cheaper and equally as good as many of the higher priced brands that are now sold. The analysis of this fertilizer is guaranteed, and is in the best mechanical condition for drilling. There is not one pound of earth or forcign matter used in making the compound. These facts, with the high chemical value and low price of the "Tip Top," will make it fill a demand made by a great many farmers for a cheap and efficient Fertilizer where they have not the time or means of manipulating chemicals successfully.

GIVE IT A TRIAL.

A pamphlet giving full description of our goods and testimonials from leading farmers as to their qualities, mailed to any address on application to

LAND PLASTER

Was introduced into the United States by Benjamin Franklin, aud first used by him in this country on his farm near Philadelphia. He divided a lot bordering on one of the principal thoroughfares leading from the city, into two sections, and the signs which he erected called the attention of the passers by to the fact that "This part of the lot has been sown with Plaster of Paris," and "This part had not been sown." The effect of the plaster was remarkable, almost doubling the production of grass, and forthwith the demand for the new fertilizer became very great, and importations of it was the result.

Much might be written about its value to farmers, but they have

TESTED ITS MERITS

and they know, while other fertilizers have proved worthless,

PLASTER CONTINUES TO ENDURE THE TEST

and the steady increase in its sales is the best evidence of its growing popularity. It is doubtless the

Cheapest Fertilizer in Existence.

The analysis of this plaster is about 20 per cent, richer, in the essential element which makes the plaster of value for agricultural purposes, namely, Sulphate of Lime, than in plaster usually sold.

CELENETIC CEMENT.
This is next in strength to ENGPORTLAND, and is being extensively used by the U. S.
Gov. The Govt. test of tensile strength is 455 lbs. to
the sq. in., which is 321
lbs stronger than other American brands.

Kendall's

Spay

Kendall

Spavil

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects an does not blister. READ, PROOF BELOW.

FROM Rev. P. N. Granger,

Presiding Elder of the St. Albans District.

St. Albans, Vt., January 20th, 1880.

Dr. B. J. Kendall & Co., Gents:—In reply to your lelter I will say that my experience wit Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I procure a bottle of your agent, and with it cured a horse of lameness caused by a spavin. Last seaso my horse became very lame, and I turned him out for a few weeks, when he became bette but when I put him on the road, he grew worse, when I discovered that a ring-bone we forming. I procured a bottle of Kendall's Spavin Cure, and with less than a bottle cured his so that he is not lame, neither can the bunch be found. Respectfully yours, P.N.GRANGEI

erseverance will

Sloughton, --, March 16th, 1880. B. J. Kendall & Co., Gents: - In justice to you and myself, I think I ought to let you know

that I hove removed two BONE SPAVINS with Kendall's Spavin Cure, one very large one; d not know how long the spavins had been there. I have owned the horse eight months. took me four months to get the large one off and two for the small one. I have used 10 bot ties. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is wonderful medicine. It is a new thing here, but if it does for all what it has done for me, it sale will be very great. Respectfully yours,

CHAS. E. PARKER.

KENDALL'S SPAYIN CURE ON HUMAN FLESH,

BAKERSFIELD, VT., Dec. 23, 1879.

B. J. Kendall & Co.: Gents.—I wish to add my testimony in favor of your invaluable liniment, "Keudall's Spavin Cure." In the spring of 1862 I slipped on the ice and sprained my right limb at the knee joint. I was very lame, and, at times, suffered the most excruciating pain. I wore a bandage on it for over a year, and tried most everything in my reach but could find nothing that would give me permanent relief. When I overworked, it would pain me very much. In April, 1878, I began to think I should be a cripple for life, but, having some of "Kondall's Spavin Cure." thought I would try it. I used one-third of a bet having some of 'Kendall's Spavin Cure," thought I would try it. I used one-third of a bottle, and experienced relief at once. The pain left me and has not troubled me since. I feel very grateful to yon, and would recommend "Kendall's Spavia Cure" to all who suffer with Yours truly, MRS. J. BOUTELL. sprains or rheumatism.

Is sure in its effects, mild in its acts, as it does not blister, and yet it is penetrating and powerful to reach any deep seated pain or to remove any bony growth or any other enlargement, if used for several days, such as spavins, splints, curbs, callons, sprains swellings, any lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects. It is used full strength with perfect safety at all seasons of the year.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success, to our knowledge, for beast as well as man. Price \$1 per bottle, or six bottles for \$5. All Druggists have it or can get it for you.

or it will be sent to any address on receipt of price by the proprietors.

AND THE PARTY OF THE PROPERTY OF THE PROPERTY

TO WHEAT GROWERS!

The undersigned PIONEER, in the manufacture of Fertilizers in this city and Originator in 1858 of the formulas and processes of manufacture of

"Excelsior" and "Ammoniated Phosphate"

so well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers as MANUFACTURED BY HIM, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the Farmer—combining all the stimulating qualities of Peruvian Guano, and the ever-durable fertilizing properties of Bones, in fine, dry powder, prepared expressly for drilling, it is the universal opinion of the Farmers of Maryland and Virginia, after over twenty years experience in the use of the Excelsior manufactured by me, in Growing Wheat, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for Manufacturing, I challenge competition with any Fertilizer sold in the United States in QUALITY,

MECHANICAL CONDITION and PRICE.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manujacture—as for the past twenty years,

UNIFORN QUALITY IS GUARANTEED.

Farmers to secure the ONLY GENUINE EXCELSIOR and PHOS-PHATE, prepared according to my original Formulas established in 1858, should see that every Bag is branded as above, with the ANALYSIS and MYNAME IN RED LETTERS.

J. Q. A. HOLLOWAY,

Originator and Maunfacturer,

107 McElderry's Wharf, Baltimore, Md

To Cotton and Sugar Planters.

J. J. TURNER & CO., "EXCELSIOR,"

1858

1880

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvain Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

Bones. In fine dry powder, prepared expressly for drilling.

After twenty-two Years' experience by the Planters of Maryland and Virginia in the use of "EX-CELSIOR," it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, full 100 per cent cheaper

Farmers should see that every bag is headed with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against conterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvain Guano for sale,

To Cotton and Sugar Planters!

J. J. TURNER & CO.,

BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name, in red letters, which we tope will prove sufficient protection against conterfeit articles. ALL FURTHER, ABUSE OF OUR NAME BEING DISCLAIMEL FOR THE FUTURE.

THE AMERICAN Breeder and Planter.

(Published in the Interest of Agriculture.) FRANK G. RUFFIN, JR., EDITOR AND PROPRIETOR.

Subscription, \$1 per annum in advance. No club rates. No commissions to advertising agents.

CARD TO SUBSCRIBERS AND ADVER-TISERS.

The American Breeder and Planter is published for the benefit of all whom it may concern, prominent among whom are Planters, Farmers, Graziers Breeders, Feeders. Truckers. Gardeners, Country Merchants, Shippers, and Immigrants, a leading Agricultural Journal of 32 pages of reading matter We intend to make it one of the leading journals of the country. To subscribers we say that our matter is collected from all parts of the United States and from Europe. Of stock we make a specialty Our trucking and gardening material is gathered directly from those engaged in these pursuits. We also give prices current, guaranteeing them to be as reliable as any printed. In short, we publish everything useful and entertaining to people living in the country, feeling that in so doing we supply a want.

To advertisers we offer a young, vigorous and live circulating medium, guaranteeing a circulation of from one to two thousand per month, going over a new field each month, contracting to lay our paper on the counters of every country merchant in the South within the next twelve months; and earnestly assuring our friends that our circulation by no means depends on our subscription list.

For terms for advertising, and other matters connected with the journal, address all communi-

cations to

THE RESERVE OF THE PARTY OF THE

"A Merciful Man is Merciful to his Beast."

ONLY 25 CENTS.

650,000 ALREADY SOLD.

A TREATISE ON

THE HORSE

and His Diseases,

BY B. J. KENDALL, M. D.

FULL OF VALUABLE AND PRAC-TICAL INFORMATION,

AND CONTAINING

An Index of Diseases.

WHICH GIVES the Symptoms, cause and the Best Treatment of each. A table giving all the principal drugs used for the Horse, with the ordinary dose, effects, and antidote when a poison. A table with an engraving of the Horse's teeth at different ages, with rules for telling the age of the Horse. 65 engravings showing the important points in the structure of the Horse, also illustrating positions assumed by sick horses in different diseases. A valuable collection of receipts, many of which would cost a horse-owner three to five dollars each.

EVERY FARMER SHOULD OWN THIS 800K

Thousand who have seen it commend it, and many good horsemen have extolled it in the highest terms, even stating that they prefer it to books which cost \$5.00 to \$10.00.

BUY KENDALL'S TREATISE.

A book of 100 pages, in paper covers, giving you more practical information than is contained in some large volumes at far higher cost.

PERMANENTLY CURES KIDNEY DISEASES. LIVER COMPLAINTS. CONSTIPATION and PILES. Dr. R. H. Clark, South Hero, Vt., says, "In cases of Kioney Troubles it has acted like a charm. It has cured many very bad cases of Piles, and has never failed to act efficiently." Nelson Fairchild, of St. Albans, Vt., says, "It is of priceless value. After sixteen years of great suffering from Piles and Costiveness it compilitely cured me." C. S. Hogabon, of Berkshire says. "One package has done wonders for me in completely cur-ing a severe Liver and Kidney Complaint." IN EITHER LIQUID OR DRY FORM IT HAS WONDERFU POWER. Because it acts on the LIVER, BOWELS and KIDNEYS at the same time. Because it cleanses the system of the poisonous Lumors that develope in Kidney and Urinary Diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia Nervous Disorders and Female Complaints. It is put up in Dry Vegetable Form, in tin cans, one package of which makes six gr quarts of medicine. Also in Liquid Form, very Concentrated, for the convenience of those that cannot readily prepare it. It acts with equal efficiency in either form. GET IT AT THE DRUGGISTS. PRICE, \$1.00. WELLS, RICHARDSON & CO., Prop's, Will send the dry post-paid.) BURLINGTON, VT.

TO OUR TRADE!

We take pleasure in presenting to you a list with prices, &c., of our

Baltimore Hay, Straw and Fodder Cutter,

and in doing so we feel sure that our efforts to give you, not only a first class Cutter, but a well made and handsomely finished Machine, will be appreciated. Our aim and efforts shall be to use none but the BEST MATERIAL and employ none but the BEST WORKMEN. We shall not endeavor to give you the lowest priced Cutter, but

"THE BEST CUTTER"

made, and one that will sell itself on its merits. We ask of you only a sample order to convince you that our goods are all we claim for them; we know that manufacturers have too often lost their trade on a machine that was really good, by their efforts to compete with the cheap goods, thus necessitating their using cheap and inferior lumber, iron, steel, paint and varnish, in order to cheapen the cost of manufacturing their goods. Our motto is:

"THE BEST IS THE CHEAPEST."

Our Baltimore Cutters will hold their own trade by the superiority of their finish.

PRICES.

The Six Inch Cutter, \$16.00; the Eight Inch Cutter, \$25.00; the Nine Inch Cutter, \$34.00 the Eleven Inch Cutter, \$35.00; the Thirteen Inch Cutter, \$50.00. The Fifteen Inch Cutter, \$55.00—this size is arranged and can be used for cutting Hay, Straw, Corn, Stalk, or any kind of green rodder for ensilage, by either hand horse or stram power. For special prices, and discounts, address,

Whitman's Iron Beam Double Shovel Plow.

A GREAT LABOR-SAVING INVENTION.

The above engraving represents the most sensible, efficient and really useful labor-saving implement ever devised. It is truly the perfection of a Sawing Machine, and at once convinces the mechanical eye that it is a grand success. The operator sits in the saddle, with his feet upon the treadles and hands upon

the lever, in a perfectly easy and natural position

The saw is driven by motions of the body so easy and natural that they are not felt. It is no more than riding a horse. In addition to this, the entire weight of the operator is brought to bear to aid the Saw, thus giving it a double power. The principles of leverage employed in operation afford the most perfect application of power that can be devised. The force is applied just "where it will do the most good." Every "foot-pound" of power produces a "foot-pound" of good honest work.

DESCRIPTION.

Length of frame, $7\frac{1}{2}$ feet; weight of Machine complete, 60 pounds; stroke of Saw, $3\frac{1}{2}$ feet. Price, 25.00.

MILLINTONG'S NEW Porizontal Ram.

THE ONLY RAM MADE WITH
HORIZONTAM WASTE VALVE.
SIMPLE,

DURABLE,

POWERFUL.

The advantages of this over other Rams are: It can be regulated to make from 30 to 120 strokes per minute; it never gets out of air; it will work on any quantity of water, it always pumps a portion of the water passing into it; it cannot stop so long as the water runs on it; it works out all sticks, leaves, gravel, &c, without stopping; it gains four inches fall over any other ram by the peculiar construction of the waste valve. We refer by permission, to Hon. Simon Cameron and Col. James Duffy, of Marietta, Pa.; J. P. Lukens, M. D. Neport, Del., and Rev. J. H. Forrence, Danville, Pa., J. D. Dylton, M. D., Polnyra, N. J.; E. The Maryland Farmer.

The Curfew Tolls the Knell of Parting Day.

GRAY'S ELEGY.

The curfew tolls the knell of parting day,
The lowing herd winds slowly o'er the lea;

"Now fades the glimmering landscape on the sight."

The ploughman homeward plods his weary way.
And leaves the world to darkness and to me."

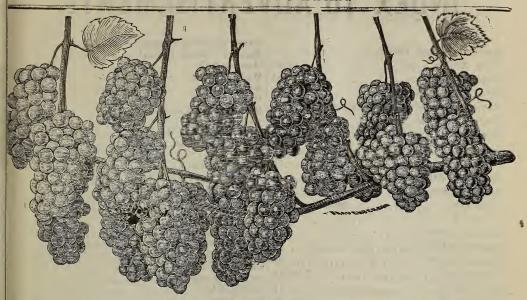

Give Me the Joys of a Peaceful Country Home.

Give me the joys of a peaceful country home, Where the pure pleasures of a rural life From the City's fevered brain afar remote, Where Summer reddens, and beams the So grandly crowned with sickle and golden sheat."

Any subscriber sending us \$1.50 before the first of February next, will receive the MARYLAND FARMER for 1881 and his choice of either one of the splendid engravings of which miniatur outs are here given: Stein-copied in black and two times in a high grade of that all. The very artistic tinting has produced the most perfect and pleasing twilight and swn effects. Size of sheet, 22X28 inches; printed and tinted surface, 17½ by 21½ inches; published at \$2 each.

These miniature wood cuts but faintly suggest the beauty and merit of the large copies,

Branch 20 inches. Weighing 7 ounds. Exhibited at meeting of m. Pom. Society Rochester, N. Y. eptember, 1879.

Powell's Tip Top Bone Fertilizer.

Only one Price---\$30.00 a ton Cash. No Commissions to Agents.

SPECIAL NOTICE.

The "Tip Top bone fertilizer, as will be seen by analysis, is very rich in plant food. We put it on the Market as being much cheaper and equally as good as many of the higher priced brands that are now sold. The analysis of this fertilizer is guaranteed, and is in the best mechanical condition for drilling. There is not one pound of earth or foreign matter used in making the compound. These facts, with the high chemical value and low price of the "Tip Top," will make it fill a demand made by a great many farmers for a cheap and efficient Fertilizer where they have not the time or means of manipulating chemicals successfully.

GIVE IT A TRIAL.

A pamphlet giving full description of our goods and testimonials from leading farmers as to their qualities, mailed to any address on application to

Hallett & Co Portland, Maine.

FOUR POINTED THE BEST AND THE CHEAPEST. STEEL BARB WIRE

It is the cheapest ence made; the most durable; is not affected by fire, wind or flood; does not cause snow drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive; it takes but little room; you can cultivate close can fence a good sized farm in a day; it is the greatest practical invention of the age, and has come to be the farm and railroad to it; weeds are easily kept out of it; requires but little labor to put it up; you can draw at one load enough to fence a farm; and

Sheep culture presents a striking example of the inefficiency of the fencing now in use. No branch of farming in profitable if sheep could be protected. But no fence heretofore tried, except this, will keep sheep in, and dogs and wolves out. It is easily seen, thus overcoming one of the main objects to plain fence wire. Its length is not effected by heat or cold. No branch of farming is more

The wire is put up on spools in lengths of about one hundred rods, weighing 100 to 110 lbs., so as to be easily handled. One found measures 15 feet in length; 352 lbs measures a mile. Send for Circulars and Special Prices. E. WHITMAN, SONS & CO., 141 & 143 W. Pratt Street, Baltimore, Md.

Aug-ly BALTIMORE, MD.

LAND PLASTER

Was introduced into the United States by Benjamin Franklin, aud first used by him in this country on his farm near Philadelphia. He divided a lot bordering on one of the principal thoroughfares leading from the city, into two sections, and the signs which he erected called the attention of the passers-by to the fact that "This part of the lot has been sown with Plaster of Paris," and "This part had not been sown." The effect of the plaster was remarkable, almost doubling the production of grass, and forthwith the demand for the new fertilizer became very great, and importations of it was the result.

Much might be written about its value to farmers, but they have

TESTED ITS MERITS

and they know, while other fertilizers have proved worthless,

PLASTER CONTINUES TO ENDURE THE TEST

and the steady increase in its sales is the best evidence of its growing popularity. It is doubtless the

Cheapest Fertilizer in Existence.

The analysis of this plaster is about 20 per cent. richer, in the essential element which makes the plaster of value for agricultural purposes, namely, Sulphate of Lime, than in plaster usually sold.

MANUFACTURERS AND MANIPULATORS OF

PHOSPHATES

We are now offering to the trade the following well-known brands of goods which we guarantee fully up to standard;

SLINGLUFF'S

DISSOLVED GROUND BONE,

Containing 3 per cent. of Ammonia.

SLINGLUFF'S

Dissolved South American Bone Ash.

Containing 40 to 44 per cent. Soluble Bone Phosphate.

SLINCLUFF'S DISSOLVED SOUTH CAROLINA PHOSPHATE.

Containing 28 to 32 per cent, Soluble Bone Phosphate.

To meet the demand for a high grale Fertilizer, we are offering SLING-LUFF'S NATIVE SUPER-PHOSPHATE—prepared entirely from Animal Bone—HIGHLY AMMONIATED.

Also, SLINGLUFF'S No. 1 AMMONIATED SUPER-PHOSPHATE. This we can confidently recommend as one of the best fertilizers sold in the market at a low price.

To Cotton and Sugar Planters.

J. J. TURNER & CO., "EXCELSIOR."

1858

1880

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvain Guano, and the ever durable fertilizing properties of

Bones. In fine dry powder, prepared expressly for drilling.

After twenty-two Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR," it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, full 100 per cent cheaper

Farmers should see that every bag is headed with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against conterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvain Guano for sale,

To Cotton and Sugar Planters!

J. J. TURNER & CO.,

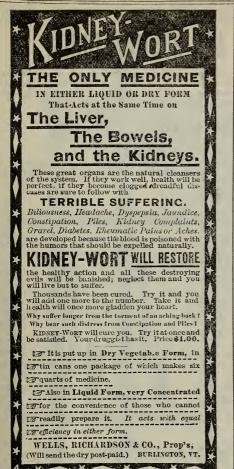

BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphares than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against conterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMEL FOR THE FUTURE.

MILLINTONG'S **NEW Horizontal Ram.**

THE ONLY RAM MADE WITH
HORIZONTAM WASTE VALVE.
SIMPLE.

DURABLE,

POWERFUL.

The advantages of this over other Rams are: It can be regulated to make from 30 to 120 strokes per minute; it never gets out of air; it will work on any quantity of water, it always pumps a portion of the water passing into it; it cannot stop so long as the water runs on it; it works out all sticks, leaves, gravel, &c, without stopping; it gains four inches fall over any other ram by the peculiar construction of the waste valve. We refer by permission, to Hon. Simon Cameron and Col. James Duffy, of Marietta, Pa.; J. P. Lukens, M. D. Neport, Del., and Rev. J. H. Forrence, Danville, Pa., J. D. Dylton, M. D., Polnyra, N. J.; E. S. Worrell, Esq., Chester, Pa.; Wm. Ress, Woodbine Station, York co., Pa., John Pmig, Jr.; Pmigsville, York co., Pa., Alexander Cooper Haddonfield, N. J., J. R. Parnelly, New York; Amos McCollister, Conestoga Centre, Lancaster Co., Pa., John Gohn, Wrightsville, Xork Co., Pa. and hundreds of others.

Send for estimates, and give full description of location, strength of spring,

fall and elevation.

Cooley Creamer.

The Acknowledged "STANDARD" Cream-Raising Apparatus of this Country and the Old World.

This Creamer and its Products have been Awarded more Gold and Silver Medals than all other apparatus combined.

Four Styles, Ten Sizes.

THE REGULAR—Cans removed to bench for skimming automatically.

THE JUNIOR. — Skims automatically without removing cans from creamer

THE UPRIGHT or CAB-INET.—Which has a cup-

board under the water tank, the illuminated conical point of can projecting into lower compartment; skims without removing the cans.

THE ELEVATOR.—Has a hoisting arrangement to raise cans out of the tank. Skims automatically.

CAUTION!

One of the strongest proofs of the great popularity of the Cooley Creamers, and an undeniable confession of their superiority, is the large number of imitations on the market which claim the same unrivaled perfection of action possessed by these justly 'celebrated creamers.' We therefore caution all persons not to buy or use any of said imitations and infringements, as we shall protect our rights to the full extent of the law.

Davis Swing Churn.

Awarded First Premium over all competitors at only practical test ever held by the International Dairy Fair, at New York.

The box contains no floats or inside gear, which mash the butter globules; no corners in which the cream can iodge, to be washed into the butter milk and lost when the butter separates. The butter gathers in beautiful granules, in

the best posisble condition for washing in the churn with cold water and brine. Works easier than other churns. This churn needs only to be seen to be appreciated.

Eureka Butter Worker.

Works all portions of the butter equally. Leaves grain of butter in much better condition than workers with corrugated rolls. Is very popular with "gilt

edge" butter makers

Vermont Farm Machine Company,
Bellows Falls, Vermont.

KENDALL'S SPAVIN CUR

It cures Spavins, Splints, Ringbones, Curbs and all similar blemishes and removes the bunch without

blistering. For man it is now known to be one of the best if not the best liniment ever discovered.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

FROM

COL, L, T, FOSTER,

Youngstown, Ohio, May 10th, 1880.

Dr. B. J. Kendall & Co., Gents:--I had a very valuable Hambletonian colt which I prized very highly, he had a large bone spavin on one joint and a smaller one on the other which made him very lame, I had him under the charge of two Veterinary Surgeons which failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the Chicago Express, I determined at once to try it and got our Druggists here to send for it, they ordered three bottles; I took them all and thought I would give it a thorough trial, I used it according to directions and by the fourth day the colt ceased to be lame and the lumps had entirely disappeared. I used but one bottle, and the colt's I mbs are as free from lumps and as smooth as any horse in the state He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it. Very Respectfully, L. T. FOSTER.

FROM

G. W. MILLER.

Harrisburg, Pa,, Nov. 18th, 1880.

Dr. B. J. Kendall & Co., Gents--- I have a very fine mare that has had a bone spavin for a long time I tried every thing man could devise to cure it but all in vain and was about to give it up when a friend of mine in this city came me and recommended Kendall's Spavin Cure which I tried with grand results, removing that bone clear and clean and then I sent 25 cents to you for one of your illustrated Horse Books and I think there is no better book printed on the horse and his diseases. I have taken great interest in it and have since sold 18 copies for you to my neighbors and will try and do what good I can by getting them for others. G. W. MILLER. Yours truly,

Statement made under Oath.

To Whom it May Concern.---In the year 1875, I treated with Kendall's Spavin Cure, a bone spavin of several months's growth, nearly half as large as a hen's egg, and completely stopped the lameness and removed the enlargement. I have worked the horse ever since very hard, and he never has been lame, nor could I ever see any difference in the size of the hock joints since I treated him with Kendall Spavin Cure. R. A. GAINES.

Sworn and subscribed to before me this 25th day of Feb., A. D., John G. Jenne, Justice Enosburgh Falls, Vt., Feb. 25th, 1879. of the Peace.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

Patten's Mills, Washington Co., N. Y., Feb 21, 1878.

B. J. Kendall, M. D.; Dear Sir,—The particular case on which I used your 'Spavin Cure' was a malignant ankle sprain of sixteen months' standing. I had tried many things, but in vain. Your Spavin Cure put the foot to the ground again, and, for the first time since hurt, in a natural position. in a natural position. For a family liniment it excels anything we ever used.

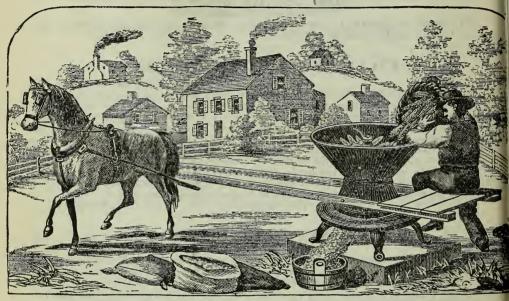

Yours truly, REV. M. P. BELL, Pastor M. E. Church, Patten's Mills, N. Y.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success, to our knowledge, for beast as well as man. Price \$1 per bottle, or six bottles for \$5. All Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors.

DR. B. J. KENDALL & CO, Epseburgh Falls, Verment

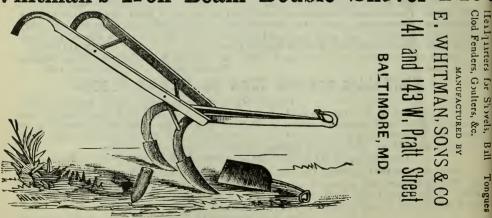

WHITMAN'S YOUNG AMERICA CORN & COB MIL

CHAMPION OF THE WORLD.

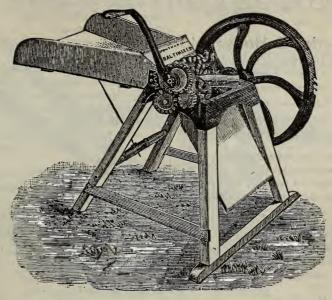

Farmers, Stock Raisers, Dairymen and Poultry Breeders can save more Money with on these Mills than with any Implement or Machine on their Farm.

Whitman's Iron Beam Double Shovel Plow

TO OUR TRADE!

We take pleasure in presenting to you a list with prices, &c., of our

Baltimore Hay, Straw and Fcdder Cutter,

and in doing so we feel sure that our efforts to give you, not only a first class Cutter, but a well made and handsomely finished Machine, will be appreciated. Our aim and efforts shall be to use none but the BEST MATERIAL, and employ none but the BEST WORKMEN. We shall not endeavor to give you the lowest priced Cutter, but

"THE BEST CUTTER"

made, and one that will sell itself on its merits. We ask of you only a sample order to convince you that our goods are all we claim for them; we know that manufacturers have too often lost their trade on a machine that was really good, by their efforts to compete with the cheap goods, thus necessitating their using cheap and inferior lumber, iron, steel, paint and varnish, in order to cheapen the cost of manufacturing their goods. Our motto is:

"THE BEST IS THE CHEAPEST."

Our Baltimore Cutters will hold their own trade by the superiority of their finish.

PRICES.

The Six Inch Cutter, \$16.00; the Eight Inch Cutter, \$25.00; the Nine Inch Cutter, \$34.00 the Eleven Inch Cutter, \$38.00; the Thirteen Inch Cutter, \$50.00. The Fifteen Inch Cutter, \$55.00—this size is arranged and can be used for cutting Hay, Straw, Corn, Stalk, or any kind of green todder for ensilage, by either hand horse or steam power. For special prices, and discounts, address,

HALLOCK'S

IMPROVED

SEED DRILL.

This machine will sow in drills all kinds of seeds from beet down to the smallest seeds, without regard to weight, shape or size, with regularity, and without failure, as long as there is seed in the hopoer, and will do the work with one man, that would take a half dozen men a given time. It can be sent anywhere by R. R. or Express, on receipt of the price, which is only \$5.00.

It is upon the principle of the old English hand seed drills, with the revolving brush used for many

years in England. Address.

E. WHITMAN, Ed. Md. Farmer.

WILBOR'S COD-LIVER OIL AND LIME—Persons who have been taking Cod-Liver Oil will be pleased to learn that Dr. Wilbor has succeeded, from directions of several professional gentlemen, in combining the pure Oil and Lime in such a manner that it is pleasant to the taste, and its effects n Lung complaints are truly wnnderful. Very nany persons whose cases were pronounced hopeless, and who had taken the clear Oil for a long time without marked effect, have been entirely cured by using this preparation. Be sure and get he genuine. Manufactured only by A. B WILBOR, Chemist, Boston. Sold by all druggists.

WILBOR'S COMPOUND OF COD LIVER OIL AND LIME

To one AND ALL.—Are you suffering from a Cough, Cold, Asthma, Bronchitis, or any of the various pulmonary troubles that so often end in Consumption. If so, use "WILBOR'S PURE COD LIVER OIL AND LIME," a safe and sure remedy. This is no quack preparation, but is regularly prescribed by the medical faculty. Manufactured only by A. B. WILBOR, Chemist, Boston. Sold by all druggists.

Powell's Tip Top Bone Fertilizer.

Only one Price--\$30.00 a ton Cash. No Commissions to Agents.

SPECIAL NOTICE.

The "Tip Top bone tertilizer, as will be seen by analysis, is very rich in plant food. We put it on the Market as being much cheaper and equally as good as many of the higher priced brands that are now sold. The analysis of this tertilizer is guaranteed, and is in the best mechanical condition for drilling. There is not one pound of earth or foreign matter used in making the compound. These facts, with the high chemical value and low price of the "Tip Top," will make it fill a demand made by a great many farmers for a cheap and efficient Fertilizer where they have not the time or means of manipulating chemicals successfully.

GIVE IT A TRIAL.

A pamphlet giving full description of our goods and testimonials from leading farmers as to their qualities, mailed to any address on application to

1,000,000 Industrial Facts. THE CROWNING CULMINATION. A \$5 BOOK FOR \$2.50.

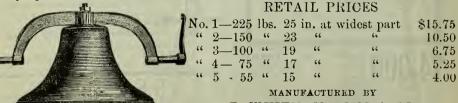

FARMERS, engineers, mechanics, mill owners, miners, merchants, etc., will find in Moore's Universal Assistant and Complete Mechanic, a work containing 1016 pages, 500 engravings, 461 Tables, and over 1,000,000 Industrial facts, Calculations, Processes, Secrets, Rules, &c, of rare utility in 200 Trades. A \$5.00 book, free by mail for \$2.50, worth its weight in gold to any mechanic, farmer or business man.

Counting cost of production the UNIVERSAL ASSISTANT is the cheapest work in the English language, and cannot fail to prove of notable utility to Merchants and Business Men generally, very many of the Tables, Rules, Formulas, Receipts, etc., contained in it. being worth to any man vastly more than the cost of the entire book. The work elegantly bound in English cloth, will be sent by mail (postage prepaid) for \$2.50. In leather binding, library style, with lettered back and marbled edges, for \$3.50. Address.

THE BEST OF ALL

FOR MAN AND BEAST

For more than a third of a century the Mexican Mustang Liniment has been known to millions all over the world as the only safe reliance for the relief of accidents and pain. It is a medicine above price and praise—the best of its kind. For every form of external pain

Mustang Liniment is without an equal.

It penetrates flesh and muscle to the very bone—making the continuance of pain and inflammation impossible. Its effects upon Human Flesh and the Brute Creation are equally wonder-The Mexican

Liniment is needed by somebody in every house. Every day brings news of the agony of an awful scald or burn subdued, of rheumatic martyrs re-stored, or a valuable horse or ox stored, or a valuable horse or saved by the healing power of this

which speedily cures such ailments of the HUMAN FLESH as
Rheumatism, Swellings, Stiff Joints, Contracted Muscles, Burns and Scalds, Cuts, Bruises and Sprains, Poisonous Bites and Sprains, Poisonous Bites and Stings, Stiffness, Lameness, Old Sores, Ulcers, Frostbites, Chilblains, Sore Nipples, Caked Breast, and indeed every form of external disease. It heals without scars. For the BRUTE CREATION it cures Sprains, Swinny, Stiff Joints, Founder, Harness Sores, Hoof Diseases, Foot Rot, Screw Worm, Scab, Hollow Horn, Scratches, Windgalls, Spavin, Thrush, Ringbone, Old Sores, Poll Evil, Film upon the Sight and every other ailment to which the occupants of the Stable and Stock Yard are liable.
The Mexican Mustang Liniment always cures and never disappoints; and it is, positively,

THE BEST OF ALL

FOR MAN OR BEAST.

WANTED a thoroughbred Shor horn Bull Calf, not less than 4 months old, enquire at this office.

My Annual Catalogue of Vegetable and Flower Seed for 18-1, rich in engravings from photographs of the originals, will be sent free to all who apply. My old customers need not write for it, I offer one of the largest collections of vegetable seed ever sent out by any seed house in America, a large portion of which were grown on my six seed farms. Full directions for cultivation on each package. All seed warranted to be both fresh and true to name; so far, that should it prove otherwise, I will refill the order gratis. The original introducer of the Hubbard Squach, I hinney's Melon, Marblehead Cabbages, Mexican Corn, and scores of other vegetables, I invite the patronage of all who are anxious to have their seed directly from the grower, fresh, true, and of the very best strain. of the very best strain.

Aug-ly BALTIMORE MD.

LAND PLASTER

Was introduced into the United States by Benjamin Franklin, aud first used by him in this country on his farm near Philadelphia. He divided a lot bordering on one of the principal thoroughfares leading from the city, into two sections, and the signs which he erected called the attention of the passers-by to the fact that "This part of the lot has been sown with Plaster of Paris," and "This part had not been sown." The effect of the plaster was remarkable, almost doubling the production of grass, and forthwith the demand for the new fertilizer became very great, and importations of it was the result.

Much might be written about its value to farmers, but they have

TESTED ITS MERITS

and they know, while other fertilizers have proved worthless,

PLASTER CONTINUES TO ENDURE THE TEST

and the steady increase in its sales is the best evidence of its growing popularity. It is doubtless the

Cheapest Fertilizer in Existence.

The analysis of this plaster is about 20 per cent. richer, in the essential element which makes the plaster of value for agricultural purposes, namely, Sulphate of Lime, than in plaster usually sold.

85 SOUTH CHARLES STREET, BALTIMORE, MD: To Cotton and Sugar Planters.

J. J. TURNER & CO., "EXCELSIOR,"

1858

1880

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvain Guano, and the ever durable fertilizing properties of

Bones. In fine dry powder, prepared expressly for drilling.

After twenty-two Years' experience by the Planters of Maryland and Virginia in the use of "EX-CELSIOR." it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, full 100 per cent cheaper

Farmers should see that every bag is headed with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against conterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvain Guano for sale,

To Cotton and Sugar Planters!

J. J. TURNER & CO.,

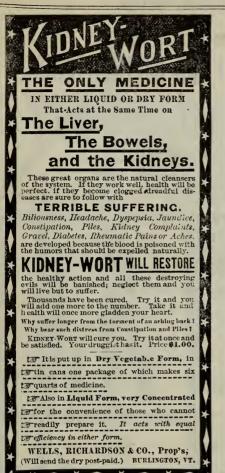

BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against conterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMED FOR THE FUTURE.

HALLOCK'S

IMPROVED

SEED DRILL.

This machine will sow in drills all kinds of seeds from beet down to the smallest seeds, without regard to weight, shape or size, with regularity, and without failure, as long as there is seed in the hopper, and will do the work with one man, that would take a half dozen men a given time. It can be sent anywhere by R. R. or Express, on receipt of the price, which is only \$5.00.

It is upon the principle of the old English hand seed drills, with the revolving brush used for many

years in England. Address.

TWENTY-SECOND YEAR

1880

NFR'S MINTHLY

Edited by THOMAS MEEHAN, State Botanist of Peansylvania, and Fellow of many Learned Societies in America and Europe. He has now a world-wide reputation as an authority, and is much respected for his solid ability and worth wherever known. Our Magazine is at present the only strictly Horticultural periodical in the United States, east of the Rocky Mountains.

IT IS PUBLISHED

For the Amateur Cultivator, Botanist, Naturalist, and Lover of the Country. For the Florist, Pomologist, Arboriculturist, Nurseryman, Seedsman and Dealer. For the Landscape Gardener, Gentleman's Gardener, Market Gardener, Collector and Exhibitor of Flowers and Fruits.

TT IS

For the City, For the Country, For the Park, the Lawn, the Fields, the Woods. For the Conservatory, For the Walk down the Lane, For the Poor Man's Window Shelf. For the Terrace, For the Best Hours of Life, It is a Veteran in Years, but Young and Vigorous in Fresh Acquisitions to the Stores of Horticulture

The Monthly Contents are:

Flower Garden and Pleasure Ground Greenhouse and House Gardening. Fruit and Vegetable Gardening. New and Rare Plants and Flowers. New and Rare Fruits and Vegetables. Forestry, Botany, Horticultural Literature.

Personal Notes of the Editor and Best Original Selections from Contemporary Authorities.

Hints for the Month and Season, for the Amateur. Florist. Fruit Grower, etc.

Horticultural Societies.

Subscription price, per year, \$210. Two subscriptions for \$3.20. Five subscriptions for \$7.00. Anyone announcing a club of five or more, may send them, on that understanding, singly as they come in, with \$1.40 each.

We refer to our contributor, Peter Henderson, and to all well known Horticulturists generally, as to the satisfactory claims of our Magazine.

Sample copies sent for 18c. postage stamps or money. Remit by post-office order, draft, or registered letter, for your own security against loss.

PROPRIETORS.

This RESTAURANT is the pldest and most extensive in its accommodations of any in the city.

The BAR is filled with the fluest of all kinds of QUORS. The TABLES are covered with the best substantial food the markets afford, besides, at the earliest moment they can be procured in the different seasons, every variety of delicacy that land and water furnish, in

BIRDS, GAME, FISH, FRUITS & VEGETABLES.

Prices moderate. The crowds, which lunch and dine daily, attest public approbation of the superior management of the house.

It is a convenient place for travellers, who stop only a few hours or a day in the city, to get their meals. It is the popular resort of country gentlemen from the counties, particularly from Southern Maryland, being convenient to Railroads and Steamboats, and in the midst of the business portion of the city.

The Proprietors will be grateful for the continuance of the extensive patronage they now enjoy, and will do their best to give entire satisfaction to all visitors. jan-1y.

Cooley Creamer.

The Acknowledged "STANDARD" Cream-Raising Apparatus of this Country and the Old World.

This Creamer and its Products have been Awarded more Gold and Silver Medals than all other apparatus combined.

Four Styles. Ten S zes, THE REGULAR—Cans removed to bench for skimming automatically.

THE JUNIOR. — Skims automatically without removing can from creamer.
THE UPRIGHT or CABINET.—Which has a cup-

board under the water tank, the illumina'ed conical point of can projecting into lower compartment; skims without removing the cans.

THE ELEVATOR.—Has a hoisting arrangement to raise cans out of the tank. Skims automatically.

CAUTION

One of the strongest proofs of the great popularity of the Cooley Creamers, and an undeniable confession of their superiority, is the large number of imitations on the market which claim the samunivaled perfection of action possessed by these justly 'celebrated creamers.' We therefore caution all persons not to buy or use any of said imitations and infringements, as we shall protect our rights to the full ex cut of the law.

Davis Swing Churn.

Awarded First Premium over all competitors at only practical test ever held by the International Davy Fair, at New York.

The box contains no floats or inside gear, which mash the butter globules; no corners in which the cream can iodge, to be washed into the butter milk and less when the butter separates. The butter gathers in beautiful granules, in

the best possible condition for washing in the churn with cold water and brine. Works easier than other churns. This churn needs only to be seen to be appreciated.

Eureka Butter Worker.

Works all portions of the butter equally. L aves grain of butter in much better condition thin workers with corrugated rolls. Is very popular with "gilt

olge" butter mak-rs

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints, Ringbones, Curbs and all similar blemishes and removes the bunch without

distering. For man it is now known to be one of the best if not the best liniment ever discovered.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

FROM

COL L. T. FOSTER,

Youngstown, Ohio, May 10th, 1880. Dr. B. J. Kendall & Co., Gents:---I had a very valuable Hambletonian colt which I prized very highly, he had a large bone spavin on one joint and a smaller one on the other which made him very lame, I had him under the charge of two Veterinary Surgeons which failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the Chicago Express, I determined at once to try it and got our Druggists here to send for it, they ordered three bottles; I took them all and thought I would give it a thorough trial, I used it according to directions and by the fourth day the colt ceased to be lame and the lumps had entirel disappeared. I used but one bottle, and the colt's I mbs are as free from lumps and as smooth as any horse in the state He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it. Very Respectfully. L, T. FOSTER,

FROM

G. W. MILLER.

Harrisburg, Pa,, Nov. 18th, 1880.

Dr. B. J. Kendall & Co., Gents---I have a very fine mare that has had a bone spavin for a long time I tried every thing man could devise to cure it but all in vain and was about to give it up when a friend of mine in this city came me and recommended Kendall's Spavin Cure which I tried with grand results, removing that bone clear and clean and then I sent 25 cents to you for one of your illustrated Horse Books and I think there is no better book printed on the horse and his diseases. I have taken great interest in it and have since sold 18 copies for you to my neighbors and will try and do what good I can by getting them for others.

Yours truly,

G. W. MILLER.

Statement made under Oath.

To Whom it May Concern.---In the year 1875, I treated with Kendall's Spavin Cure, a bone spavin of several months's growth, nearly half as large as a hen's egg, and completely stopped the lameness and removed the enlargement. I have worked the horse ever since very hard, and he never has been lame, nor could I ever see any difference in the size of the hock R. A. GAINES. joints since I treated him with Kendall Spavin Cure.

Sworn and subscribed to before me this 25th day of Feb., A. D., John G. Jenne, Justice he Peace.

Enosburgh Falls, Vt., Feb. 25th, 1879. of the Peace.

KENDALL'S SPAVIN CURE ON HUMAN FLESH,

Patten's Mills, Washington Co., N. Y., Feb 21, 1878.

B. J. Kendall, M. D.; Dear Sir, -The particular case on which I used your 'Spavin Cure' was a malignant ankle sprain of sixteen months' standing. I had tried many things, but in vain. Your Spavin Cure put the foot to the ground again, and, for the first time since hurt, in a natural position. For a family liniment it excels anything we ever used.

Yours truly, REV. M. P. BELL, Pastor M. E. Church, Patten's Mills, N. Y.

Send address for Illustrated Circular, which we think gives positive proof of its virtue. No remedy has ever met with such unqualified success, to our knowledge, for beast as well as man. Price \$1 per bottle, or six bottles for \$5. All Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors.

DR. B. J. KENDALL & CO., Enosburgh Falls, Vermont

SUN MUTUAL AID SOCIETY,

OF BALTIMORE CITY.

-INCORPORATED 1880.-

COL. ED WIN WILMER, Manager.

Home Office, No. 11 S. Gay Street.

OFFICERS.

SAMUEL BLACK, - - - - President.
WOODWARD ABRAHAMS, - - - Vice-President.
R. W. L. RASIN, - - - - Treasurer.
E. M. WILMER, - - - - Secretary.

The Officers and References are gentlemen of well known business and professional standing and reputation.

THE OBJECT OF THE ASSOCIATION IS

1st. To secure to its members or their heirs a sum of money at a time when it is most needed. 2d. To insure such benefits at the lowest cost.

RELIABILITY.

The principles on which the Society is founded are as old as history, the funds are held by the members, themselves until needed to pay dues and benefits.

MEMBERSHIP.

Any person, MALE OR FEMALE, in good health, between the ages of 20 and 60 may become members of the Association.

PRACTICAL WORKING.

The members agree to pay annual dues, (for current expenses) and assessments as rated, until such assessments shall exceed the amount required to pay a certificate in full; when they will be assessed only such a pro rata proportion as may be necessary to make up the sum needed. To pay a certificate, all the members will be assessed AS RATED in the tables, and cannot be assessed for more.

EXAMPLE.

Take an assessment on a certificate of \$1250; all who hold certificates for that amount will be assessed as rated, according to their ages. As for instance, persons from 30 to 40 would be assessed ONE DOLLAR. Certificates of \$2500 would be assessed to meet a loss of \$1250, one-half the amount as rated; and certificates for \$5000, one-fourth their rated assessment. Thus the plan is purely mutual and strictly equitable.

PERMANENT DISABILITY.

In case a member should become permanently disabled, FIFTY PER CENT. of the value of their certificates will be paid to them then, and fifty per cent. more at maturity of years; or to their heirs at death. This is manifestly a most benevolent and desirable provision.

MATURITY OF YEARS.

Members who live to their years of expectancy, will be paid in their life-time the amount of their certificate, (old age, in a majority of cases, is a time of most need.

EXAMPLE.

Take a person 40 years of age at the time of joining. Their expectation of life, as per the Carlisle Tables, is 27 years. Should such a person live to be 67 years of age, he or she would then receive, IN CASH (in their life-time,) the amount of their certificate.

SPECIAL FEATURES.

The permanent disability provision and the payment to living members, of matured certificates, render membership in this Association MORE DESIRABLE than in Societies that pay benefits in case of death ONLY.

WHO ARE SPECIALLY INTERESTED.

Every member has a personal interest in the growth and welfare of the Society, and should be active in inducing others to become members, as the larger the membership the LESS witl be the assessments, and the GREATER the value of the certificates.

Agents wanted.

ASPARAGUS.

-NEW VARIETY.-

Smalley's Extra Early Defiance.

THE merits I claim for the "Defiance" are as follows. G own side by side with Conover's Colossal, subject in all respects to the same treatment, grew full twice as large as Colossal, besides being. very productive; roots throwing a number of strong, well developed shoots, measuring from four to six inches around, which can be cut two weeks arlier than any other sorts yet produced; continues to grow longer than other kinds; gives two growths a year, Spring and Fall. It is a rich green color; excels every other variety thus far known in tenderness; has no superior in flavor: can be cut from one to two years sooner than any other variety, its earliness makes it a very desirable variety either for market gardeners or private growers. Plants \$5.00 per hundred, two years old, or \$30.00 per thousand. Seed \$12.00 per Address. pound. A. SMALLEY, Ιt

"PLYMOUTH ROCKS."

Have recently added to my stock the ben, which as pallet, won first prize at the Connecticut State Show 1879, and other exhibition birds. Eggs per setting \$2; two settings \$3. Birds have unlimited range.

EDWARD B OWENS,

153 West Pratt Street, Baltimore.

TO OUR TRADE!

We take pleasure in presenting to you a list with prices, &c., of our

Baltimore Hay, Straw and Fodder Cutter,

and in doing so we feel sure that our efforts to give you, not only a first class Cutter, but a well made and handsomely finished Machine, will be appreciated. Our aim and efforts shall be to use none but the BEST MATERIAL, and employ none but the BEST WORKMEN. We shall not endeavor to give you the lowest priced Cutter, but

"THE BEST CUTTER"

made, and one that will sell itself on its merits. We ask of you only a sample order to convince you that our goods are all we claim for them; we know that manufacturers have too often lost their trade on a machine that was really good, by their efforts to compete with the cheap goods, thus necessitating their using cheap and inferior lumber, iron, steel, paint and varnish, in order to cheapen the cost of manufacturing their goods. Our motto is:

"THE BEST IS THE CHEAPEST."

Our Baltimore Cutters will hold their own trade by the superiority of their finish.

PRICES.

The Six Inch Cutter, \$16 00; the Eight Inch Cutter, \$25.00; the Nine Inch Cutter, \$34 00 the Eleven Inch Cutter, \$38.00; the Thirteen Inch Cutter, \$50.00. The Fifteen Inch Cutter, \$55.00—this size is arranged and can be used for cutting Hay, Stiaw, Corn, Stalk, or any kind of green todder for ensilage, by either hand horse or steam power. For special prices, and discounts, address,

THE NEW VICTOR. SIMPLICITY SIMPLIFIED!

SIMPLIGIT SIMPLIFIED

Improvements September, 1878.

Notwithstanding the VICTOR has long been the peer of any Sewing Machine in the market—a fact supported by a host of volunteer witnesses—we now confidently claim for it greater simplicity, a wonderful reduction of friction and a rare combination of desirable qualities. Its shuttle is a beautiful specimen of mechanism, and takes rank with the highest achievements of inventive genius. Note—We do not lesse

and takes rank with the highest achievements of inventive genius. Note.—We do not lease or consign Machines, therefore, have no old ones to patch up and re-varnish for our customers.

Most Elegant, Simple and Easy Running Machine in the Market.—The Ever Reliable VICTOR.

-VICTOR SEWING MACHINE COMPANY,-

Western Branch Office, 235 STATE ST., CHICAGO, ILL.

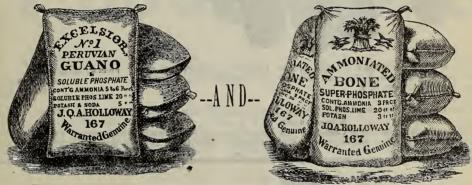

MIDDLETOWN, CONN.

TO TOBACCO PLANTERS!

The undersigned PIONEER, in the manufacture of Fertilizers in this city and Originator in 1858 of the formulas and processes of manufacture of

"Excelsior" and "Ammoniated Phosphate"

so well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers as MANUFACTURED BY HIM, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the Farmer—combining all the stimulating qualities of Peruvian Guano, and the ever-durable fertilizing properties of Bones, in fine, dry powder, prepared expressly for drilling, it is the universal opinion of the Farmers of Maryland and Virginia, after over twenty years experience in the use of the Excelsior manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for Manufacturing, I challenge competition with any Fertilizer sold in the United States in QUALITY,

MECHANICAL CONDITION and PRICE.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manufacture—as for the past twenty years,

UNIFORN QUALITY IS GUARANTEED.

Farmers to secure the ONLY GENUINE EXCELSIOR and PHOS-PHATE, prepared according to my original Formulas established in 1858, should see that every Bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

J. Q. A. HOLLOWAY,

Originator and Manufacturer.

Powell's Tip Top Bone Fertilizer.

Only one Price---\$30.00 a ton Cash. No Commissions to Agents.

SPECIAL NOTICE.

The "Tip Top bone fertilizer, as will be seen by analysis, is very rich in plant food. We put it on the Market as being much cheaper and equally as good as many of the higher priced brands that are now sold. The analysis of this tertilizer is guaranteed, and is in the best mechanical condition for drilling. There is not one pound of earth or foreign matter used in making the compound. These facts, with the high chemical value and low price of the "Tip Top," will make it fill a demand made by a great many farmers for a cheap and efficient Fertilizer where they have not the time or means of manipulating chemicals successfully.

GIVE IT A TRIAL.

A pamphlet giving full description of our goods and testimonials from leading farmers as to their qualities, mailed to any address on application to

BROWN CHEMICAL CO., 29 S. Hanover St., Baltimore, Augly

MRS. LYDIA E. PINKHAM, OF LYNN, MASS.,

LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

Is a Positive Cure

for all those Painful Complaints and Weaknesses so common to our best female population.

It will cure entirely the worst form of Female Complaints, all ovarian troubles, Inflammation and Ulceration, Falling and Displacements, and the consequent Spinal Weakness, and is particularly adapted to the Change of Life.

It will dissolve and expel tumors from the uterus in an early stage of development. The tendency to cancerous humors there is checked very speedily by its use.

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times and under all circumstances act in harmony with the laws that govern the female system.

For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S VEGETABLE COM-POUND is prepared at 233 and 235 Western Avenue, Lynn, Mass. Price 31. Six bottles for 35. Sent by mail in the form of pills, also in the form of lozenges, on receipt of price, \$1 per box for either. Mrs. Pinkham freelyanswers all letters of inquiry. Send for pamphlet. Address as above. Mention this Paper.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box. 25 cents per box. Sold by all Druggists.

THE BEST OF ALL

FOR MAN AND BEAST.

For more than a third of a century the Mexican Mustang Liniment has been known to millions all over the world as the only safe reliance for the relief of accidents and pain. It is a medicine above price and praise—the best of its kind. For every form of external relief. For every form of external pain kind.

Mustang Liniment is without an equal.

It penetrates flesh and muscle to the very bone—making the continu-ance of pain and inflammation impos-sible. Its effects upon Human Flesh and the Brute Creation are equally wonder-The Mexican

Liniment is needed by somebody in every house. Every day brings news of the agony of an awful scald or burn subdued, of rheumatic martyrs re-stored, or a valuable horse or ox saved by the healing power of this

which speedily cures such ailments of the HUMAN FLESH as
Rheumatism, Swellings, Stiff Joints, Contracted Muscles, Burns and Scalds, Cuts, Bruises and Sprains, Poisonous Bites and Sprains, Poisonous Bites and Stings, Stiffness, Lameness, Old Sores, Ulcers, Frostbites, Chilblains, Sore Nipples, Caked Breast, and indeed every form of external disease. It heals without scars.
For the BRUTE CREATION it cures
Sprains, Swinny, Stiff Joints, Founder, Harness Sores, Hoof Diseases, Foot Rot, Screw Worm, Scab, Hollow Horn, Scratches, Windgalls, Spavin, Thrush, Ringbone, Old Sores, Poll Evil, Film upon the Sight and every other ailment to which the occupants of the Stable and Stock Yard are liable.
The Mexican Mustang Liniment always cures and never disappoints; and it is, positively,

THE BEST OF ALL

FOR MAN OR BEAST.

FOR SALE.

A Poland China Boar, coming 3 years old, when at weighs 500 to 600 pounds, and is vigorous. He s by Emperor, dam Black Swan. Price low, or exchanged for a good young cow. Apply to W, W. W. BOWIE, office of Maryland Farmer,

THE ATTENTION OF THE FARMING COMMUNITY

IS INVITED TO A NEW AND IMPROVED

DOUBLE LAND ROLLER.

Which has been placed in market by the undersigned firm, and which is represented by the above cut. This roller has been tried by some four best farmers, who proclaim it to be the best roller they have ever seen. The cylinder heads and hangers are made of cust iron, with chilled bearings, consequently there is no perceptible wear on spindles or boxes if properly oiled. The cylinders are 27½ inches in diameter—whole length of oller 7 feet 9 inches. The wood-work is made of good oak timber, and is well painted. We guarantee it to be

THE MOST DURABLE

and easiest handled roller in use. During the past few years the farmers have become fully convinced that a LAND ROLLER is as indispensable to a well cultivated and productive farm, as any other agricultural implement in use. In fact it is becoming generally understood that the rolling of land after seeding, increases the crop raised, in consequence of it bringing

FINELY PULVERIZED SOIL

in contact with the seed, thus making germination more certain and rapid. The rolling of pasture and meadow land puts it in a condition to resist evaporation to a great extent, consequently you will get a much better crop of grass in a severe drouth than could be obtained on the same land if unrolled, and at the same time you are putting the surface of the ground in an admirable condition for the mower and horse rake.

PRICE - - \$50 00

The Roland Chilled Plow.

There is no farm implement which has been so greatly improved during the past five years as This Plow, and the Roland Chilled stands pre-eminent amongst the best, as

THE BEST PLOW IN AMERICA.

Its superiority over common cast plows is so great that hundreds of farmers have thrown aside their entire stock of old fashioned Plows, being convinced that they would save money by doing this and replacing with the "Roland Chilled." Send for descriptive circular, setting forth the reasons why we claim so much, and giving full description of the various sizes, with prices, &c.

A TREATISE ON

THE HORSE

and His Diseases,

By B. J. KENDALL, M. D.

FULL OF VALUABLE AND PRAC-TICAL INFORMATION.

AND CONTAINING

An Index of Diseases.

WHICH GIVES the Symptoms, cause and the Best Treatment of each. A table giving all the principal drugs used for the Horse, with the ordinary dose, effects, and antidote when a poison. A table with an engraving of the Horse's teeth at different ages, with rules for telling the age of the Horse. 65 engravings showing the important points in the structure of the Horse, also illustra ting positions assumed by sick horses in different diseases. A valuable collection of receipts, many of which would cost a horse-owner three to five dollars each.

EVERY FARMER SHOULD OWN THIS BOOK

Thousand who have seen it commend it, and many good horsemen have extolled it in the highest terms, even stating that they prefer it to books which cost \$5.00 to \$10.00.

BUY KENDALL'S TREATISE.

A book of 100 pages, in paper covers, giving you more practical information than is contained in some large volumes at far higher cost.

Works of Art Free!

The Maryland Farmer.

The Curfew Tolls the Knell of Parting Day.

GRAY'S ELEGY.

The Current cover bathed in sunset's fiding light. Fassing through and beyond the silvery stream, "The lowing hard winds slowly o'er the least, bowards the humble coftage in the misty distance.
"The plougharm homeword ploud his weary way," and the tired horses look eagerly towards their home and its rest. A boy and his dog are agerly huming in the mellow weath. The little fair, like girl imparts an fastening life and beauty to the picture. In one hand she holds wild flowers, in the other grass for "myork." The new moon is seen

STOME X WAS D

Through the branches and are tree that grandly shades the enchanties in greene. Seated under a tree in the church-yard, around which ge ling seene. Seated under a tree in the church-yard, around which ge ling the begin to trail her duely pobe, the pote writes, "and the case shad to dearbases and to me," and " Now fades the diffimering tundscape of an are sight." Gray's Elegy, in its rich and harmonious colorings of the threads of life, classical composition and polished rhythm, has charmed the world. And is Tutusrication of the first lines of that grandly beaut.

"The curfew tolls the knell of parting day,
The lowing herd winds slowly o'er the lea;
"Now fades the glimp

ell of parting day,
Its slowly o'er the lea;
Mand leaves the world to darkness and to me."
"Now fades the glimmering landscape on the sight."

Give Me the Joys of a Peaceful Country Home.

THE SCENE is in harvest time on the banks of a river. The farm the backs, trees, water, hill, sky, and clouds form the back-ground. In the foreground are the most harmonious groupings in which are beautiful and interesting blendings of a happy family with the animal kingdom. A man is unloading hay in the barm. Horses released from harmers are being cared for bythe farmer. Grand-pa holds a baby boy, who fondly careses "Old White," the favorite horse, that is drinking at the trough. The milk-maid stand by the "best cow," Among the feathered tribe, a little girl is in slight warfare with

Copyright 1874, by Joseph John.

mother hea, but earchily watched by the faithful dog. Oxen driven by a lad are approaching with a load of hay. A youngster on the fodder shed is preventing his eaf from preying upon the doves. Cattle shep, lambs and cold, together with ducks, gesee, and othe birds, are artistically grouped and eastered throughout the picture. The mellow light of the setting sun richly illuminates this eloquen "Arr Prems," of thrifty and contented American farm life.

Competent judges consider this by farthe best Farm-Yard illustra

"Give me the joys of a peaceful country home, Where the pure pleasures of a rural life e'er flow, From the City's fevered brain afar remote, Where Summer reddens, and beams the rich Autumn Sorgandly crowned with sickle and golden sheat."

Any subscriber sending us \$1.50 before the first of February next, will receive the MARYLAND FARMER for 1881, and his choice of either one of the splendid engravings of which miniature cuts are here given: Stein-copied in black and two tints in a high grade of that art. The very artistic tinting has produced the most perfect and pleasing twilight and sun effects. Size of sheet, 22x28 inches; printed and tinted surface, 17½ by 21½ inches; published at \$2 each.

These miniature wood cuts but faintly suggest the beauty and merit of the large copies.

Aug-ly BALTIMORE MD.

LAND PLASTER

Was introduced into the United States by Benjamin Franklin, aud first used by him in this country on his farm near Philadelphia. He divided a lot bordering on one of the principal thoroughfares leading from the city, into two sections, and the signs which he erected called the attention of the passers-by to the fact that "This part of the lot has been sown with Plaster of Paris," and "This part had not been sown." The effect of the plaster was remarkable, almost doubling the production of grass, and forthwith the demand for the new fertilizer became very great, and importations of it was the result.

Much might be written about its value to farmers, but they have

TESTED ITS MERITS

and they know, while other fertilizers have proved worthless,

PLASTER CONTINUES TO ENDURE THE TEST

and the steady increase in its sales is the best evidence of its growing popularity. It is doubtless the

Cheapest Fertilizer in Existence.

The analysis of this plaster is about 20 per cent richer, in the essential element which makes the plaster of value for agricultural purposes, namely, Sulphate of Lime, than in plaster usually sold.

AGENT FOR CELENETIC CEMENT. This is next in strength to ENG. PORTLAND, and is being extensively used by lhe U. 8. Govt. The Govt. test of tensile strength is 455 lbs. to the sq. in., which is 321 lbs stronger than other american brands.

85 SOUTH CHARLES STREET, BALTIMORE, MD: To Cotton and Sugar Planters.

J. J. TURNER & CO., "EXCELSIOR,

1858

1880

Forming the most concentrated, universal and 'durable fertilizer ever offered to the farmer-com-

bining all the stimulating qualities of Peruvain Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After twenty-two Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR." it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, full 100 per cent cheaper

Farmers should see that every bag is headed with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against conterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvain Guano for sale,

To Cotton and Sugar Planters!

J. J. TURNER & CO.,

BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against conterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMEL FOR THE FUTURE.

1859

TWENTY-SECOND YEAR.

1880

Edited by THOMAS MEEHAN, State Botanist of Pennsylvania, and Fellow of many Learned Societies in America and Europe. He has now a world-wide reputation as an authority, and is much respected for his solid ability and worth wherever known. Our Magazine is at present the only strictly Horticultural periodical in the United States, east of the Rocky Mountains.

IT IS PUBLISHED

For the Amateur Cultivator, Botanist, Naturalist, and Lover of the Country. For the Florist, Pomologist, Arboriculturist, Nurseryman, Seedsman and Dealer.

For the Landscape Gardener, Gentleman's Gardener, Market Gardener, Collector and Exhibitor of Flowers and Fruits.

IT IS

For the City, For the Country, For the Park, the Lawn, the Fields, the Woods. For the Conservatory, For the Walk down the Lane, For the Poor Man's Window Shelf.

For the Terrace, For the Best Hours of Life,

It is a Veteran in Years, but Young and Vigorous in Fresh Acquisitions to the Stores of Horticulture

The Monthly Contents are:

Flower Garden and Pleasure Ground. Greenhouse and House Gardening. Fruit and Vegetable Gardening. New and Rare Plants and Flowers. New and Rare Fruits and Vegetables. Forestry, Botany, Horticultural Literature.

Personal Notes of the Editor and Best Original Writers.

Selections from Contemporary Authorities.

Hints for the Month and Season, for the Amateur. Florist. Fruit Grower, etc.

Horticultural Societies.

Subscription price, per year, \$210. Two subscriptions for \$3,20. Five subscriptions for \$7.00. Anyone announcing a club of five or more, may send them, on that understanding, singly as they come in, with \$1.40 each.

👺 We refer to our contributor, Peter Henderson, and to all well known Horticulturists generally, as to the satisfactory claims of our Magazine.

Sample copies sent for 18c. postage stamps or money. Remit by post-office order, draft, or registered letter, for your own security against loss.

SUN MUTUAL AID SOCIETY,

OF BALTIMORE CITY.

-INCORPORATED 1880.-

COL. ED WIN WILMER, Manager.

Home Office, No. 11 S. Gay Street.

OFFICERS.

SAMUEL BLACK, - - - - President.
WOODWARD ABRAHAMS, - - Vice-President.
R. W. L. RASIN, - - - Treasurer.
E. M. WILMER, - - - Secretary.

The Officers and References are gentlemen of well known business and professional standing and reputation.

THE OBJECT OF THE ASSOCIATION IS

1st. To secure to its members or their heirs a sum of money at a time when it is most needed.
2d. To insure such benefits at the lowest cost.

RELIABILITY.

The principles on which the Society is founded are as old as history, the funds are held by the members, themselves until needed to pay dues and benefits.

MEMBERSHIP.

Any person, MALE OR FEMALE, in good health, between the ages of 20 and 60 may become members of the Association.

PRACTICAL WORKING.

The members agree to pay annual dues, (for current expenses) and assessments as rated, until such a sessments shall exceed the amount required to pay a certificate in full; when they will be assessed only such a pro rata proportion as may be necessary to make up the sum needed. To pay a certificate, all the members will be assessed AS RATED in the tables, and cannot be assessed for more.

EXAMPLE.

Take an assessment on a certificate of \$1250; all who hold certificates for that amount will be assessed as rated, according to their ages. As for instance, persons from 30 to 40 would be assessed ONE DOLLAR. Certificates of \$2500 would be assessed to meet a loss of \$1250, one-half the amount as rated; and certificates for \$5000, one-fourth their rated assessment. Thus the plan is purely mutual and strictly equitable.

PERMANENT DISABILITY.

In case a member should become permanently disabled, FIFTY PER CENT. of the value of their certificates will be paid to them then, and fifty per cent. more at maturity of years; or to their heirs at death. This is manifestly a most benevolent and desirable provision.

MATURITY OF YEARS.

Members who live to their years of expectancy, will be paid in their life-time the amount of their certificate, (old age, in a majority of cases, is a time of most need.

EXAMPLE.

Take a person 40 years of age at the time of joining. Their expectation of life, as per the Carlisle Tables, is 27 years. Should such a person live to be 67 years of age, he or she would then receive, IN CASH (in their life-time.) the amount of their certificate.

SPECIAL FEATURES.

The permanent disability provision and the payment to living members, of matured certificates, render membership in this Association MORE DESIRABLE than in Societies that pay benefits in case of death ONLY.

WHO ARE SPECIALLY INTERESTED.

Every member has a personal interest in the growth and welfare of the Society, and should be active in inducing others to become members, as the larger the membership the LESS witl be the assessments, and the GREATER the value of the certificates.

Cooley Creamer.

The Acknowledged "STANDARD" Cream-Raising Apparatus of this Country and the Old World.

This Creamer and its Products have been Awarded more Gold and Silver Medals than all other apparatus combined.

Four Styles, Ten Sizes. THE REGULAR-Cans removed to bench for skimming automatically.

THE JUNIOR. - Skims automatically without removing cans from creamer. THE UPRIGHT or CAB-INET.-Which has a cup-

board under the water tank, the illuminated conical point of can projecting into lower compartment; skims without removing the cans.

THE ELEVATOR .- Has a hoisting arrangement to raise cans out of the tank. Skims auto-'matically.

CAUTION!

One of the strongest proofs of the great popularity of the Cooley Creamers, and an undeniable confession of their superiority, is the large number of imitations on the market which claim the same unrivaled perfection of action possessed by these justly 'celebrated creamers.' We therefore caution all persons not to buy or use any of said imitations and infringements, as we shall protect our rights to the full extent of the law.

Davis Swing Churn.

Awarded First Premium over all competitors at only practical test ever held by the International Dairy Fair, at New York.

The box contains no floats or inside gear, which mash the butter globules; no corners in which the cream can iodge, to be washed into the butter milk and lost when the butter separates. The butter gathers in beautiful granules, in

the best posisble condition for washing in the churn with cold water and brine. Works easier than other churns. This churn needs only to be seen to be appreciated.

Eureka Butter Worker.

Works all portions of the butter equally. Leaves grain of butter in much better condition than workers with corrugated rolls. Is very popular with "gilt

edge" butter makers

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints,
Ringbones, Curbs and all
similar blemishes and removes the bunch without

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

FROM

COL, L, T. FOSTER,

Youngstown, Ohio, May 10th, 1880.

Dr. B. J. Kendall & Co., Gents:---I had a very valuable Hambletonian colt which I prized very highly, he had a large bone spavin on one joint and a smaller one on the other which made him very lame, I had him under the charge of two Veterinary Surgeons which failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the Chicago Express, I determined at once to try it and got our Druggists here to send for it, they ordered three bottles; I took them all and thought I would give it a thorough trial, I used it according to directions and by the fourth day the colt ceased to be lame and the lumps had entirely disappeared. I used but one bottle, and the colt's I mbs are as free from lumps and as smooth as any horse in the state—He is entirely cured. The cure was so remarkable—that I let two of my neighbors have the remaining two bottles, who are now using it.

Very Respectfully, L. T. FOSTER,

FROM

G. W. MILLER.

Harrisburg, Pa,, Nov. 18th, 1880.

Dr. B. J. Kendall & Co., Gents---I have a very fine mare that has had a bone spavin for a long time I tried every thing man could devise to cure it but all in vain and was about to give it up when a friend of mine in this city came me and recommended Kendall's Spavin Cure which I tried with grand results, removing that bone clear and clean and then I sent 25 cents to you for one of your illustrated Horse Books and I think there is no better book printed on the horse and his diseases. I have taken great interest in it and have since sold 18 copies for you to my neighbors and will try and do what good I can by getting them for others.

Yours truly,

G. W. MILLER.

Statement made under Oath.

To Whom it May Concern....In the year 1875, I treated with Kendall's Spavin Cure, a bone spavin of several months's growth, nearly half as large as a hen's egg, and completely stopped the lameness and removed the enlargement. I have worked the horse ever since very hard, and he never has been lame, nor could I ever see any difference in the size of the hock joints since I treated him with Kendall Spavin Cure.

R. A. GAINES.

Sworn and subscribed to before me this 25th day of Feb., A. D., John G. Jenne, Justice of the Peace.

Enosburgh Falls, Vt., Feb. 25th, 1879.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

Patten's Mills, Washington Co., N. Y.. Feb 21, 1878.

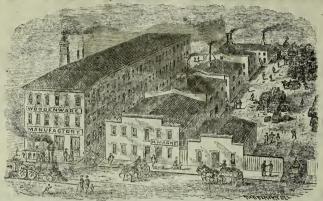

B. J. Kendall. M. D.; Dear Sir,—The particular case on which I used your 'Spavin Cure' was a malignant ankle sprain of sixteen months' standing. I had tried many things, but in vain. Your Spavin Cure put the foot to the ground again, and, for the first time since hurt, in a natural position. For a family liniment it excels anything we ever used.

Yours truly, REV. M. P. BELL, Pastor M. E. Church, Patten's Mills, N. Y.

Send address for Illustrated Circular, which we think gives positive proof of its virtue. No remedy has ever met with such unqualified success, to our knowledge, for beast as well as man. Price \$1 per bottle, or six bottles for \$5. All Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors.

DR. B. J. KENDALL & CO, Enosburgh Falls, Vermont

BABY CABINET ORGAN-NEW STYLE 109-THREE AND A QUARTER OCTAVES, in BLACK WALNUT CASE, decorated with GOLD BRONZE. Length, 30 inches; height, 33 in.; depth, 14 in.

This novel style of the MASON & HAMLIN CAB-INET ORGANS (ready this month) has sufficient compass and capacity for the performance, with full parts, of Hymn Tunes, Anthems, Songs, and Popular Sacred and Secular Music generally. It retains to a wonderful extent, for an instrument so small, the extraordinary excellence, both as to power and quality of tone, which has given the MASON & HAMLIN Cabinet Organs their great reputation and won for them the HIGHEST DISTINCTIONS at EVERY ONE of the GREAT WORLD'S INDUSTRIAL EX-HIBITIONS for THIRTEEN YEARS. EVERY ONE WILL BE FULLY WARRANTED. CASH PRICE \$22; on receipt of which it will be shipped as directed. IF ON RECEIPT AND TRIAL IT DOES NOT SATISFY THE PURCHASER, IT MAY BE RETURNED AND THE MONEY WILL BE REFUNDED.

EIGHTY STYLES of Organs are regularly made by the MASON & HAMLIN CO., from the BABY CABINET ORGAN at \$23; to large CONCERT OF GANS at \$900, and upwards. The great majority are at \$100 to \$200 each. ILLUSTRATED CATALOGUES, CIRCULARS and PRICE LISTS free.

60 LIGHT STREET, near Pratt, BALTIMORE, MD.

The Sedgwick STEEL WIRE FENCE,

the only general purpose wire fence in use. teing a strong work without barbs; it will turn dogs pigs, poultry, as we las most victous stock, without danger to either fence or stock. Just the fence for farmers, gardeners, stockraisers; nd rails; very des rable to lawns, parks or ceneteries. As it is covil with rust-proof paint, it will last a life time. It is superior oards in every respect, and far better than barbed wire. We for it a fair trial, knowing it will wear itself into favor. We manufacture the Automatic or Self-opening Gate. The util-Self-orening gates are more and more appreciated. The wick Gates, made o wrought iron and steel wire defy all petition in neatness, lightness, strength, and durability. Ask iware dealers, or for price list and particulars address.

Sold everywhere.

TO TOBACCO PLANTERS!

The undersigned PIONEER, in the manufacture of Fertilizers in this city and Originator in 1858 of the formulas and processes of manufacture of

"Excelsior" and "Ammoniated Phosphate"

so well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers as MANUFACTURED BY HIM, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the Farmer—combining all the stimulating qualities of Peruvian Guano, and the ever-durable fertilizing properties of Bones, in fine, dry powder, prepared expressly for drilling, it is the universal opinion of the Farmers of Maryland and Virginia, after over twenty years experience in the use of the *Excelsior manufactured by me*, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for Manufacturing, I challenge competition with any Fertilizer sold in the United States in QUALITY,

MECHANICAL CONDITION and PRICE.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manufacture—as for the past twenty years,

UNIFORN QUALITY IS GUARANTEED.

Farmers to secure the ONLY GENUINE EXCELSIOR and PHOS-PHATE, prepared according to my original Formulas established in 1858, should see that every Bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

J. Q. A. HOLLOWAY,

Originator and Manufacturer.

107 McElderry's Wharf, Baltimore, Md.

TO TOBACCO PLANTERS. J. J. TURNER & CO., "EXCELSIOR."

1858

1881

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvain Guano, and the ever durable fertilizing properties of

Bones. In fine dry powder, prepared expressly for drilling.

After twenty-three Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR." it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvain Guano for sale,

TO CORN GROWERS. J. J. TURNER & CO., AMMONIATED BONE SUPER PHOSPHATE.

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Ex elsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in redictors, which we ope will prove sufficient protection against conterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMEL FOR THE FUTURE.

Save the Expense of Building a Brick Chimney

Our Fire Clay Chimney Pipe does not rust nor crack by heat nor crumble from frost. It has been used to years for Dwellings, Schools, Churches, &c. No danger from fire as it does not communicate heet to wood. Insurance Companies have decided it to be a safer Chimney than brick. It is equally as solid and no bricks nor bricklayer are required; any one can put it up. Each section is two feet long and rests in the bowl of the next. We show four forms of construction. A complete chimney to use in 2 stories can be furnished for about \$5.

Send for descriptive circular with full information.

BALTIMORE.

TO OUR TRADE!

We take pleasure in presenting to you a list with prices, &c., of our

Baltimore Hay, Straw and Fodder Cutter,

and in doing so we feel sure that our efforts to give you, not only a first class Cutter, but a well made and handsomely finished Machine, will be appreciated. Our aim and efforts shall be to use none but the BEST MATERIAL, and employ none but the BEST WORKMEN. We shall not endeavor to give you the lowest priced Cutter, but

"THE BEST CUTTER"

made, and one that will sell itself on its merits. We ask of you only a sample order to convince you that our goods are all we claim for them; we know that manufacturers have too often lost their trade on a machine that was really good, by their efforts to compete with the cheap goods, thus necessitating their using cheap and inferior lumber, iron, steel, paint and varnish, in order to cheapen the cost of manufacturing their goods. Our motto is:

"THE BEST IS THE CHEAPEST."

Our Baltimore Cutters will hold their own trade by the superiority of their finish.

PRICES.

The Six Inch Cutter, \$16.00; the Eight Inch Cutter, \$25.00; the Nine Inch Cutter, \$34.00 the Eleven Inch Cutter, \$38.00; the Thirteen Inch Cutter, \$50.00. The Fifteen Inch Cutter, \$55.00 -this size is arranged and can be used for cutting Hay, Straw, Corn, Stalk, or any kind of green todder for ensilage, by either hand horse or steam power. For special prices, and discounts, address,

e. Whitman, sons & co.,

BALTIMORE, MD.

What is Cider Vinegar?

This question is often asked, and when I am to answer it, I always say that any vinegar of which one ounce will neutralize from 30 to 40 grains of bicarbonate of soda (bread soda) will pass for cider vinegar, let it be made from whiskey or cider. I mean that it will contain enough of acetic acid to answer all the purposes of vinegar, and be much better than most of the stuff sold for cider vinegar, made from half ripe and badly rotted apples, and in many cases not having the neutralicing power of more than 10 to 15 grains of soda, which is not enough of acid to prevent its own decay, much less to protect pickles from mould, the forerunner of putrefaction and destruction.

To test the matter, several years ago I had ripe and perfectly sound apples selected, and a barrel of cider made from them, which was placed in the cellar with the bung out and gauze over the opening to keep flies, &c., out. The conversion into vinegar was slow, but sure, as was indicated occasionally by testing with soda, and for some time past one fluid ounce will neutralize 40 grains of bicarbonate of soda, (not carbonate or sal soda, an important difference.) keep a barrel of cider vinegar always on hand of the proper strength for pickling, after each demijohn of vinegar is taken out, I replace it with a solution of sugar made in the proportion of one pound of good sugar to a gallon of water, and by the time the demijohn of vinegar is used up the sugar has passed into vinegar and is ready to give space for more sweet water. Sugar being more convenient than apples, and being the only thing in them to make vinegar, I am satisfied with cane sugar instead of apple sugar, it being on hand whenever there is space for it in the barrel. So far, my vinegar keeps at the 40 grain mark, and is almost too strong for table use.

Much of the vinegar now sold is made from grape sugar, obtained by the conversion of starch into sugar, and always contains more or less sulphate of lime, which is developed during the process of manufacturing the sugar, and this is objectionable, as the sulphate by the action of the organic acid, becomes offensive, sulphurets being the result, after heeping some time, hence, spoiling the vinegar. There is no danger of such a result from sugar obtained from either the cane or apples. Whenever

I see a vinegar free from sulphate of lime, and of which an ounce will neutralize from 30 to 40 grains of the soda mentioned, it will pass for cider vinegar. Unripe and rotten apples will never make such vinegar. *Rock Hall, Kent Co., Md.* A. P. S.

rheuwatism,

Neuralgia, Sciatica, Lumbago,

Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains,

Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals St. Jacobs Oil as a safe, sure, simple and cheap External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

Powell's Tip Top Bone Fertilizer.

Only one Price---\$30.00 a ton Cash. No Commissions to Agents-

SPECIAL NOTICE.

The "Tip Top bone fertilizer, as will be seen by analysis, is very rich in plant food. We put it on the Market as being much cheaper and equally as good as many of the higher priced brands that are now sold. The analysis of this fertilizer is guaranteed, and is in the best mechanical condition for drilling. There is not one pound of earth or foreign matter used in making the compound. These facts, with the high chemical value and low price of the "Tip Top," will make it fill a demand made by a great many farmers for a cheap and efficien-Fertilizer where they have not the time or means of manipulating chemicals successfully.

GIVE IT A TRIAL.

BROWN CHEMICAL CO., 29 S. Hanover St., Baltimore, Augly

LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

for all those Painful Complaints and Weaknesses

It will cure entirely the worst form of Female Complaints, all ovarian troubles, Inflammation and Ulceration, Falling and Displacements, and the consequent Spinal Weakness, and is particularly adapted to the Change of Life.

It will dissolve and expel tumors from the uterus in an early stage of development. The tendency to cancerous humors there is checked very speedily by its use.

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times and under all circumstances act in harmony with the laws that govern the female system,

For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S VEGETABLE COM-POUND is prepared at 233 and 235 Western Avenue, Lynn, Mass. Price 31. Six bottles for \$5. Sent by mail in the form of pills, also in the form of lozenges, on receipt of price, \$1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Send for pamphlet. Address as above. Mention this Paper.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Sold by all Druggists. Th

LAND PLASTER

Was introduced into the United States by Benjamin Franklin, aud first used by him in this country on his farm near Philadelphia. He divided a lot bordering on one of the principal thoroughfares leading from the city, into two sections, and the signs which he erected called the attention of the passers-by to the fact that "This part of the lot has been sown with Plaster of Paris," and "This part had not been sown." The effect of the plaster was remarkable, almost doubling the production of grass, and forthwith the demand for the new fertilizer became very great, and importations of it was the result.

Much might be written about its value to farmers, but they have

TESTED ITS MERITS

and they know, while other fertilizers have proved worthless,

PLASTER CONTINUES TO ENDURE THE TEST

and the steady increase in its sales is the best evidence of its growing popularity. It is doubtless the

Cheapest Fertilizer in Existence.

The analysis of this plaster is about 20 per cent. richer, in the essential element which makes the plaster of value for agricultural purposes, namely, Sulphate of Lime, than in plaster usually sold.

CELENETIC CEMENT.
This is next in strength to ENG.
PORTLAND, and is being extensively used by the U. S.
GOVL. The GOVL test of tensile strength is 485 lbs. to
the sq. in., which is 321
lbs. stronger than other american brands.

TO TOBACCO PLANTERS. J. J. TURNER & CO., "EXCELSIOR."

1858

1881

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvain Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After twenty-three Years' experience by the Planters of Maryland and Virginia in the use of "EX-CELSIOR." it is their manimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaner.

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvain Guano for sale,

TO CORN GROWERS. J. J. TURNER & CO., BONE SUPER PHOSPHATE.

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against conterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMED FOR THE FUTURE.

J. J. TURNER & CO., No. 42 W. PRATT ST. BALTIMORE, MD.

RHEUMATISM

As it is for all diseases of the KIDNEYS, LIVER AND BOWELS.

It cleanses the system of the acrid poison that causes the dreadful suffering which only the victims of Rhoumatism can realize.

THOUSANDS OF CASES

of the worst forms of this terrible disease have been quickly relieved, in a short time

PERFECTLY CURED.

has had wonderful success, and an immense has had wonderful success, and an immense sale in every partof the Country. In hundreds of cases it has cured where all else had failed. It is mild, but efficient, CERTAIN IN ITS ACTION, but harmless in all cases. If It cleanses, Strengthens and gives New Life to all the important organs of the body. The natural action of the Kidneys is restored.

The Liver is cleansed of all disease, and the Bowels move freely and healthfully. In this way the worst diseases are eradicated from thesystem.

As it has been proved by thousands that

system of all morbid secretions. It should be used in every household as a

SPRING MEDICINE.
Always cures BILLOTENESS, ONSTIPATION, PILES and all FEMALE Diseases.

Is put up in Dry Vegetable Form, in tin cans, one package of which makes 5 quarts medicine.

HALLOCK'S

IMPROVED

SEED DRILL.

This machine will sow in drills all kinds of seeds from beet down to the smallest seeds, without regard to weight, shape or size, with regularity, and without failure, as long as there is seed in the hop-per, and will do the work with one man, that would take a half dozen men a given time. It can be sent anywhere by R. R. or Express, on receipt of the price, which is only \$5.00.

It is upon the principle of the old English hand seed drills, with the revolving brush used for many years in England. Address.

SUN MUTUAL AID SOCIETY,

OF BALTIMORE CITY.

-INCORPORATED 1880.

COL. ED WIN WILMER, Manager.

Home Office, No. 11 S. Gay Street.

OFFICERS.

SAMUEL BLACK, - - - - President.
WOODWARD ABRAHAMS, - - - Vice-President.
R. W. L. RASIN, - - - - Treasurer.
E. M. WILMER, - - - - Secretary.

The Officers and References are gentlemen of well known business and professional standing and reputation.

THE OBJECT OF THE ASSOCIATION IS

1st. To secure to its members or their heirs a sum of money at a time when it is most needed.
2d. To insure such benefits at the lowest cost.

RELIABILITY.

The principles on which the Society is founded are as old as history, the funds are held by the numbers, themselves until needed to pay dues and benefits.

MEMBERSHIP.

Any person, MALE OR FEMALE, in good health, between the ages of 20 and 60 may become mem-

PRACTICAL WORKING.

The members agree to pay annual dues, (for current expenses) and assessments as rated, until such ssessments shall exceed the amount required to pay a certificate in full; when they will be assessed nly such a pro rata proportion as may be necessary to make up the sum needed. To pay a certifiate, all the members will be assessed As RATED in the tables, and cannot be assessed for more.

EXAMPLE.

Take an assessment on a certificate of \$1250; all who hold certificates for that amount will be ssessed as rated, according to their ages. As for instance, persons from 30 to 40 would be assessed NE DOLLAR. Certificates of \$2500 would be assessed to meet a loss of \$1250, one-half the amount as ated; and certificates for \$5000, one-fourth their rated assessment. Thus the plan is purely mutual nd strictly equitable.

PERMANENT DISABILITY.

In case a member should become permanently disabled, FIFTY PER CENT. of the value of their ertificates will be paid to them then, and fifty per cent. more at maturity of years; or to their heirs t death. This is manifestly a most benevolent and desirable provision.

MATURITY OF YEARS.

Members who live to their years of expectancy, will be paid in their life-time the amount of their ertificate, (old age, in a majority of cases, is a time of most need.

EXAMPLE

Take a person 40 years of age at the time of joining. Their expectation of life, as per the arlisle Tables, is 27 years. Should such a person live to be 67 years of age, he or she would then sceive, IN CASH (in their life-time.) the amount of their certificate.

SPECIAL FEATURES.

The permanent disability provision and the payment to living members, of matured certificates, ander membership in this Association MORE DESIRABLE than in Societies that pay benefits in case of eath ONLY.

WHO ARE SPECIALLY INTERESTED.

Every member has a personal interest in the growth and welfare of the Society, and should be etive in inducing others to become members, as the larger the membership the LESS witl be the seessments, and the GREATER the value of the certificates.

Agents wanted.

PROPRIETORS.

This RESTAURANT is the oldest and most extensive in its accommodations of any in the city.

The BAR is filled with the finest of all kinds of LIQUORS. The TABLES are covered with the best substantial food the markets afford, besides, at the earliest moment they can be procured in the different seasons, every variety of delicacy that land and water furnish, in

BIRDS, GAME, FISH, FRUITS & VEGETABLES.

Prices moderate. The crowds, which lunch and dine daily, attest public approbation of the superior management of the house.

It is a convenient place for travellers, who stop only a few hours or a day in the city, to get their meals. It is the popular resort of country gentlemen from the counties, particularly from Southern Maryland, being convenient to Railroads and Steamboats, and in the midst of the business portion of the city.

The Proprietors will be grateful for the continuance of the extensive patronage they now enjoy, and will do their best to give entire satisfaction to all visitors.

The only Southern Rake and Drill Factory in the Country.

These cuts represent our 20 Steel-Tooth Horse Rake, with Iron Hubs (or Locust Hubs boiled in oil)—9,000 in use—and our Positive Force-Feed Grain, Seed, and Fertilizing Drill (which can be changed to sow any quantity while Drill is in motion), with Pin or Spring Hoss—8,277 in use and gring satisfaction. All luamifacturers say theirs are the best. All wask is, send for Descriptive Circular and Price-Lid, which contains letters from persons using them. All are varranted. SAGERSTOWN AGRICULTURAL IMPLEMENT MFG. 60.

Hagerstown, Maryland,

We manufacture the old reliable Stover—the well tried, strong, durable and self-regulating, solid Wind Will, which took the Centennial Dipiona, as well as a Medal. Also O. E. Winger's Improved \$20 Feed Grinder, which is operated by Pumping Wind Mills—a novel and perfect Mill for grinding all kinds of grain for stock and house use. Agents wauted. Send to

THE BEST OF ALL

FOR MAN AND BEAST.

For more than a third of a century the For more than a third of a century the Mexican Mustang Liniment has been known to millions all over the world as the only safe reliance for the relief of accidents and pain. It is a medicine above price and praise—the best of its kind. For every form of external pain

Mustang Liniment is without an equal.

It penetrates flesh and muscle to the very bone—making the continuance of pain and inflammation impossible. Its effects upon Human Flesh and the Brute Creation are equally wonderful. The Mexican

Liniment is needed by somebody in every house. Every day brings news of the agony of an awful scald or burn subdued, of rheumatic martyrs restored, or a valuable horse or ox stored, or a valuable horse or saved by the healing power of this

which speedily cures such ailments of the HUMAN FLESH as
Rheumatism, Swellings, Stiff Joints, Contracted Muscles, Burns and Scalds, Cuts, Bruises and Sprains, Poisonous Bites and Sprains, Poisonous Bites and Stings, Stiffness, Lameness, Old Sores, Ulcers, Frostbites, Chilblains, Sore Nipples, Caked Breast, and indeed every form of external disease. It heals without scars.
For the BRUTE CREATION it cures Sprains, Swinny, Stiff Joints, Founder, Harness Sores, Hoof Diseases, Foot Rot, Screw Worm, Scab, Hollow Horn, Scratches, Wind-ralls. Spavin, Thrush, Ringbone,

eases, Foot Rot, Screw Worm, Scab, Hollow Horn, Scratches, Windgalls, Spavin, Thrush, Ringbone, Old Sores, Poll Evil, Film upon the Sight and every other allment to which the occupants of the Stable and Stock Yard are liable. The Mexican Mustang Liniment always cures and never disappoints; and it is, positively,

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints, Ringbones, Curbs and all similar blemishes and removes the bunch without

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

FROM

COL, L, T. FOSTER.

Youngstown, Ohio, May 10th, 1880.

Dr. B. J. Kendall & Co., Gents:--I had a very valuable Hambletonian colt which I prized very highly, he had a large bone spavin on one joint and a smaller one on the other which made him very lame, I had him under the charge of two Veterinary Surgeons which failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the Chicago Express, I determined at once to try it and got our Druggists here to send for it, they ordered three bottles; I took them all and thought I would give it a thorough trial, I used it according to directions and by the fourth day the colt ceased to be lame, and the lumps had entirel disappeared. I used but one bottle, and the colt's l mbs are as free from lumps and as smooth as any horse in the state He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it.

Very Respectfully, L. T. FOSTER,

FROM

G. W. MILLER.

Harrisburg, Pa,, Nov. 18th, 1880.

Dr. B. J. Kendall & Co., Gents---I have a very fine mare that has had a bone spavin for a long time I tried every thing man could devise to cure it but all in vain and was about to give it up when a friend of mine in this city came me and recommended Kendall's Spavin Cure which I tried with grand results, removing that bone clear and clean and then I sent 25 cents to you for one of your illustrated Horse Books and I think there is no better book printed on the horse and his diseases. I have taken great interest in it and have since sold 18 copies for you to my neighbors and will try and do what good I can by getting them for others.

Yours truly,

G. W. MILLER.

Statement made under Oath.

To Whom it May Concern.---In the year 1875, I treated with Kendall's Spavin Cure, a bone spavin of several months's growth, nearly half as large as a hen's egg, and completely stopped the lameness and removed the enlargement. I have worked the horse ever since very hard, and he never has been lame, nor could I ever see any difference in the size of the hock joints since I treated him with Kendall Spavin Cure.

R. A. GAINES.

Sworn and subscribed to before me this 25th day of Feb., A. D., John G. Jenne, Justice of the Peace.

Enosburgh Falls, Vt., Feb. 25th, 1879.

KENDALL'S SPAVIN CURE ON HUMAN FLESH,

Patten's Mills, Washington Co., N. Y., Feb 21, 1878.

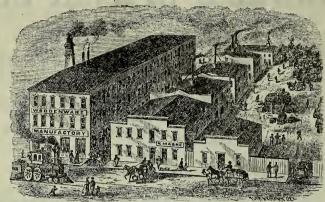

B. J. Kendall. M. D.; Dear Sir,—The particular case on which I used your 'Spavin Cure' was a malignant ankle sprain of sixteen months' standing. I had tried many things, but in vain. Your Spavin Cure put the foot to the ground again, and, for the first time since hurt, in a natural position. For a family liniment it excels anything we ever used.

Yours truly, REV. M. P. BELL, Pastor M. E. Church, Patten's Mills, N. Y.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success, to our knowledge, for beast as well as man. Price \$1 per bottle, or six bottles for \$5. All Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors.

DR. B. J. KENDALL & CO, Enosburgh Falls, Vermont,

H. Magne & Sons,

Save the Expense of Building a Brick Chimney

Our Fire Clay Chimney Pipe does not rust nor crack by heat nor crumble from frost. It has been used 10 years for Dwellings, Schools, Churches, &c No danger from fire as it does not communicate heet to wood. Insurance Companies have decided it to be a safer Chimney than brick. It is equally as solid and no bricks nor bricklayer are required; any one can put it up. Each section is two feet long and rests in the bowl of the next. We show four forms of construction. A complete chimney to use in 2 stories can be furnished for about \$5.

Send for descriptive circular with full information.

CHAS. H. TORSCH & CO.,

101 Hanover Street,

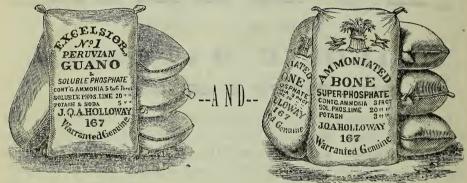

BALTIMORE,

TO TOBACCO PLANTERS!

The undersigned PIONEER, in the manufacture of Fertilizers in this city and Originator in 1858 of the formulas and processes of manufacture of

"Excelsior" and "Ammoniated Phosphate"

so well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers as Manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the Farmer—combining all the stimulating qualities of Peruvian Guano, and the ever-durable fertilizing properties of Bones, in fine, dry powder, prepared expressly for drilling, it is the universal opinion of the Farmers of Maryland and Virginia, after over twenty years experience in the use of the Excelsior manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for Manufacturing, I challenge competition with any Fertilizer sold in the United States in QUALITY,

MECHANICAL CONDITION and PRICE.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manufacture—as for the past twenty years,

UNIFORN QUALITY IS GUARANTEED.

Farmers to secure the ONLY GENUINE EXCELSIOR and PHOS-PHATE, prepared according to my original Formulas established in 1858, should see that every Bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

THE ATTENTION OF THE FARMING COMMUNITY

IS INVITED TO A NEW AND IMPROVED

DOUBLE LAND ROLLER.

Which has been placed in market by the undersigned firm, and which is represented by the above cut. This roller has been tried by some of our best farmers, who proclaim it to be the best roller they have ever seen. The cylinder heads and hangers are made of cast iron, with chilled bearings, consequently there is no perceptible wear on spindles or boxes if properly oiled. The cylinders are $27\frac{1}{2}$ inches in diameter—whole length of roller 7 feet 9 inches. The wood-work is made of good oak timber, and is well painted. We guarantee it 10 be

THE MOST DURABLE

and easiest handled roller in use. During the past few years the farmers have become fully convinced that a LAND ROLLER is as indispensable to a well cultivated and productive farm, as any other agricultural implement in use. In fact it is becoming generally understood that the rolling of land after seeding, increases the crop raised, in consequence of it bringing

FINELY PULVERIZED SOIL

in contact with the seed, thus making germination more certain and rapid. The rolling of pasture and meadow land puts it in a condition to resist evaporation to a great extent, consequently you will get a much better crop of grass in a severe drouth than could be obtained on the same land if unrolled, and at the same time you are putting the surface of the ground in an admirable condition for the mower and horse rake.

PRICE - - \$50.00

prices and Catalogue.
Wholesale trade prices to dealers on application.

Founded 1784. DAVID LANDRETH & SONS, 21 and 23 S. Sixth St., Philadelphia.

THE BARB WIRE FENCE.

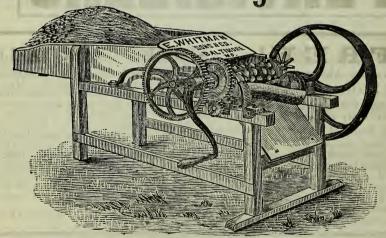

The great question among the farmers the world over is, "What makes the best and cheapest fence?" As far as the United States is concerned we may fairly consider the question answered in favor of "Barb Wire," as over fifty thousand miles of it were put up during the past year, and yet the business is just in its infancy, and there is no doubt in the minds of those conversant with the subject, that Barb Fence will soon be acknowledged as THE FENCE of the world.

We have a superior quality of this fence, and carry a larger stock than any house this side of New York. Although our wire is worth 25 per cent. more than any other make, it is sold as low as any in the market. Send for circulars or call upon.

E. WHITMAN, SONS & CO.'S

"Baltimore Ensilage Cutter."

From the enthusiasm worked up in this country on ensilage, we saw there must necessarily be a large demand for ensilage cutters, and we have therefore been to a large expense to procure a perfect machine for this purpose, and now offer our new machine for this purpose with great confidence. We have two sizes for horse power, \$50 and \$55 each. One size for either hand or horse power, at \$38, and we have two sizes for hand power, at \$25 and \$34.

Any man building a silo should immediately procure one of these sizes.

my "Maryland Farmer" agent for Maryland; may 1y

Is the only general purpose wire fence in use. eing a strong net work without barbs; it will turn does pigs, poultry, as well as the most victors stock, without danger to either fence or stock. It is just the fence for farmers, gardeners, stockraisers and rall-roads; very desirable to lawns, parks or cemeterles. As it is covered with rust-proof paint, it will last a life time. It is superior to beards in every respect, and far better than barbed wire. We ask for it a fair trial, knowing it will wear itself into favor. We also manufacture the Automatic or Self-opening Gate. The util-rose in the Automatic or Self-opening date. The util-rose is competition in nextness, lightness, strength, and durability. Ask hardware dealers, or for price list and particulars address spirit.

Items of Interest.

Fully one-fourth of Montana's sheep crop perished last winter.

The wool crop of the world, last year, was estimated at 1,586,000,000 pounds.

The June bug has come around to make music for the weary and try the nerves of the weak.

Arkansas is crowded with men buying up timber lands. Thousands of acres are sold weekly.

Plant sunflowers around your house, they are said to absorb poison in the atmosphere and to prevent malaria.

Tennessee expects to have a million dollar fruit crop, and everybody in the north hopes she will get it.

A magnificent oak stands on the farm of Major McDowell, near Frankfort, Ky. It is is nearly 120 feet in height, and seven men touching their fingers tip to tip, could just circle it at the height of their shoulders.

Two beech trees on the farm of James Smee, Eminence, Ky., stand nine feet apart. Ten feet from the ground they kiss each other, become united, and for a distance upward of fifty feet, they have grown together as one, with the bark as smooth and the tree as round as a jar.

In southern California, there is a hollow tree that has been converted into a dwelling. Doors and windows have been put in, and floors built for eight stories, the entrance being made by means of a ladder. The upper room is prettily shaded by a small balcony, that in turn is shaded by the tree itself.

There is a prospect of rise in canned fruit, owing to the short peach crop anticipated in Delaware, New Jersey and Maryland.

A correspondent of the English *Live Stock Journal*, mentions the loss of half a dozen lambs, three to four weeks old,—all killed by foxes in the day time.

It is said that while the beet sugar machinery made in Germany is the most perfect in Europe, the machinery for cane sugar made in Germany is the poorest.

Mr. John Merryman, of Hayfields, Baltimore county, very recently sent to the York road car stables, Govanstown, a load of hay weighing net 6,800 pounds.

Dr. George Quinby, of Loudoun county, one of the officers of the Virginia Agricultural Society, produces and sends to market once a week, 700 lbs. of butter. This is more than one and a quarter tons of butter per month.

Progressive farmers of Tarrent county, Texas, it is said have applied for a charter of incorporation, and propose to build a cotton factory to cost \$100,000.

For \$12.00 a Farmer can buy a formula (520 lb) of POWELL'S PREPARED CHEMICALS for WHEAT.

PREPARED CHEMICALS for WHEAT.

This, when mixed at home, makes ONE TON of SUPERIOR PHOSPHATE, which is equal in plant-life and as certain of successful crop production as many of the high-priced Phosphates.

No trouble to mix; no extra expense. Full directions.

Powell's Chemicals have been thoroughly tried, give universal satisfaction, and we offer leading farmers in every state as reference.

Send for Pamphlet. BEWARE OF IMITATIONS.

BROWN CHEMICAL CO., Baltimore, Md., Sole Proprietors.

Powell's Tip-Top Bone Fertilizer, price only \$30 a ton net cash.

MANUFACTURERS OF Pure Bone Meal, Pure Dissolved Bone, Potash, Ammonia, and all high-grade Fertilizing Materials.

Powell's Tip Top Bone Fertilizer.

Only one Price--\$30.00 a ton Cash. No Commissions to Agents.

SPECIAL NOTICE.

The "Tip Top bone ertilizer, as will be seen by analysis, is very rich in plant food. We put it on the Market as being much cheaper and equally as good as many of the higher priced brands that are now sold. The analysis of this fertilizer is guaranteed, and is in the best mechanical condition for drilling. There is not one pound of earth or foreign matter used in making the compound. These facts, with the high chemical value and low price of the "Tip Top," will make it fill a demand made by a great many farmers for a cheap and efficien-Fertilizer where they have not the time or means of manipulating chemicals successfully.

GIVE IT A TRIAL.

A pamphlet giving full description of our goods and testimonials from leading farmers as to their qualities, mailed to any address on application to

THE POCKLINGTON GRAPE.

Is a seedling from Concord, and was raised from seed by Mr. John Pocklington, of Sandy Hill, Washington County, N. Y. Sandy Hill is well known to be an elevated, cold, late locality; the vines there have always proved themselves to be Thoroughly Hardy, both in wood and foliage.

The vine is a Strong Grower, in appearance almost identical with the Concord, Having Large, Thick, Leathery Foliage, and, like that well-known variety, never mildews—either in foliage or fruit. At the New York State Fair, held in Rochester, Sept., 1877, it was greatly admired, and the committee, of whom M. B. Batchayn, of Painesville, O., was chairman, pronounced it the very Grape we have all been so anxiously looking for so long.

Rev. R. Burnett. President of Fruit Growers' Association of Ontario, Cauada, who was the other judge serving on the committee with Mr. Butcham, at N. Y. State Fair, 1877, says: "I then formed the opinion that it would turn out a very valuable grape, both on account of its super quality and its color. I am satisfied if such fruit can be successfully raised from it, as was presented to me and my colleague, Mr. Batcham, that it will soon find a market for itself.

M. B. Batcham, under date of December 7th, 1878, writes: "I would sooner have the control of this variety to-day, if I were a propagator of vines, than any other that has come to my knowledge.

Mr. Thomas Mechan, Editor of the Gardeners Monthly, October 14th, 1879, writes: "I find your plants of Pocklington Grape are growing finely. It is one of the best growers we have. From what I have seen of it, it is a very promising variety.

Bishop McQuald, of Rochester, N. Y., who has a vineyard of 20 acres, tested the fruit last fall, 1880, and he expresses himself much pleased with its fine appearance, and says it is a delicious grape, and by far the best that has come under his observation.

The American Agriculturist says of it: "Of much better quality than Concord; intensely sweet and less of the Labrusca quality in the taste and the smell. The berry adher

This is to Certify that the First Premium for the best new Seedling Grape, was awarded to the Hammond Nurseries, for the "Pocklington" Grape, exhibited by them at the Union Fair, held in Geneva, Sept. 21, 22, 23, 1880.

The Committee consisting of S. S. Graves, of Geneva; John Anderson, of Seneca Co., and James Stockstill, of Dayton, Ohio, in making the award, also made the following report;

"Your committee would call especial attention to the new Seedling Grape exhibited by the Hammond Nurseries, and grown by John Charlton, of Rochester, N. Y., the 'Pocklington,' to which they have awarded the premium for the best new Seedling Grape. The bunches are large and well formed; berries nearly twice the size of the 'Martha' and an infinitely better grape. The pulp is tender and sweet to the centre; color white; growth of the vine strong and healthy, ripening its wood as perfectly as the Concord, and like that variety it has thick, heavy foliage, rendering it proof against mildew and disease."

WILLIAM W. STACEY, Secretary.

Boston, Oct., 10th, 1880.

"I am much pleased with the Pocklington Grape, and desire to graft an old vine in my vineyard with it. If you could spare me a few scions of about one-third of an inch in diameter, I should be glad to receive them, and be happy to reciprocate with anything I possess."

MARSHALL P. WILDER.

The following FIRST PREMIT'MS have been awarded to the Pocklington Grape; Western New York Fair, 1879, Genera N. Y. Fair, 1880. Western New York Fair, 1879, Genera N. Y. Fair, 1880. Western New York Fair, 1879, Genera N. Y. Fair, 1880. Western New York Fair, 1880. Provincial Explosition, 1880, and at many County Fairs.

Warion P. Eghert, of Lebonon Obio is an address delivered before the Indians State Universal

Fairs.

Marion D. Egbert. of Lebanon, Ohio, in an address delivered before the Indiana State Horticultural Society, at Muncio, Sept. 2. 1880, said: Among the new varieties of grapes that are candidates for public favor is the Pocklington; that, from what I know of it, and what is said of it in the East, I condially recommend it to you as a grape that will, in my opinion, more than fulfil all that is claimed for it."

The foregoing is only apart of the mass of testimony we have in favor of this Grape, and proves that it is only necessary for the public to become satisfied of its merits to secure for it the largest sale of any grape ever offered in this country. Is is perfectly hardy, wonderfully productive, and bears very young. It has grown rapidly in favor with the leading pomologists of this section of the country, such parties as Marshall P. Wilder, President of U. S. Pomological Society, Ellwanger & Barry, H. E. Hooker, Ex-president of Western N. Y. Horticultural Society, and many others having secured vines for their own collections.

It was pronounced ripe by H. E. Hooker, and other nurserymen, who examined bearing vines in this city, on the 6th September last, and on the 6th November, following, we picked perfect specimens from the same vines, which had been hanging there ripe two months without any signs of dropping, cracking or rotting, which is a most remarkable circumstance, and one of the strongest points in its favor with vineyardists who are raising grapes for market, as they want something that will last on the vine after ripening, so they can dispose of them at leisure. During the past winter it has withstood a temperature of thirty-four degrees below zero on Mr. Pocklington's place without the slightest injury.

Having unlimited faith in the growing popularity of the Pocklington Grape, we have secured the exclusive control of all the stock in the market for Fall of 1881 and Spring of 1882, and believe the demand will justify the outlay.

Orders for this grape will be filled by mail or express p

per dozen,

GARRIELD'S "THE AMERICAN" HAY TEODER.

Cured and AMES PLOW CO., Boston and New York, Sole Makers. The most Important Product of America, Cut, Stored in the Barn in ONE DAY.

The Roland Chilled Plow.

There is no farm implement which has been so greatly improved during the past five ears as THIS PLOW, and the Roland Chilled stands pre-eminent amongst the best, as

THE BEST PLOW IN AMERICA.

Its superiority over common cast plows is so great that hundreds of farmers have hrown aside their entire stock of old fashioned Plows, being convinced that they would ave money by doing this and replacing with the "Roland Chilled." Send for descripive circular, setting forth the reasons why we claim so much, and giving full description f the various sizes, with prices, &c.

A TREATISE ON

THE HORSE

and His Diseases.

By B. J. KENDALL, M. D.

FULL OF VALUABLE AND PRAC-TICAL INFORMATION,

AND CONTAINING

An Index of Diseases,

WHICH GIVES the Symptoms, cause and the Best Treatment of each. A table giving all the principal drugs used for the Horse, with the ordinary dose, effects, and antidote when a poison. A table with an engraving of the Horse's teeth at different ages, with rules for telling the age of the Horse. 65 engravings showing the important points in the structure of the Horse, also illustrating positions assumed by sick horses in different diseases. A valuable collection of receipts, many of which would cost a horse-owner three to five dollars each.

EVERY FARMER SHOULD OWN THIS BOOK

Thousand who have seen it commend it, and many good horsemen have extolled it in the highest terms, even stating that they prefer it to books which cost \$5.00 to \$10.00.

BUY KENDALL'S TREATISE.

A book of 100 pages, in paper covers, giving you more practical information than is contained in some large volumes at far higher cost.

LAND PLASTER

Was introduced into the United States by Benjamin Franklin, aud first used by him in this country on his farm near Philadelphia. He divided a lot bordering on one of the principal thoroughfares leading from the city, into two sections, and the signs which he erected called the attention of the passers-by to the fact that "This part of the lot has been sown with Plaster of Paris," and "This part had not been sown." The effect of the plaster was remarkable, almost doubling the production of grass, and forthwith the demand for the new fertilizer became very great, and importations of it was the result.

Much might be written about its value to farmers, but they have

TESTED ITS MERITS

and they know, while other fertilizers have proved worthless,

PLASTER CONTINUES TO ENDURE THE TEST

and the steady increase in its sales is the best evidence of its growing popularity. It is doubtless the

Cheapest Fertilizer in Existence.

The analysis of this plaster is about 20 per cent. richer, in the essential element which makes the plaster of value for agricultural purposes, namely, Sulphate of Lime, than in plaster usually sold.

AGENT FOR

TO TOBACCO PLANTERS.

J. J. TURNER & CO., 'EXCELSIOR,

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvain Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After twenty-three Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR." it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaper

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvain Guano for sale,

TO CORN GROWERS. J. J. TURNER & CO., BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against conterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMEL FOR THE FUTURE.

SEED DRILL.

This machine will sow in drills all kinds of seeds from beet down to the smallest seeds, without regard to weight, shape or size, with regularity, and without failure, as long as there is seed in the hopper, and will do the work with one man, that would take a half dozen men a given time. It can be sent anywhere by R. R. or Express, on receipt of the price, which is only \$5.00.

It is upon the principle of the old English hand seed drills, with the revolving brush used for many years in England. Address.

Hunson's Infallible Indelible Ink

JUST OUT.

New Hand Book on Fruits; it treats of the cultivation of SMALL FRUITS and FRUIT TREES, and how to grow Large Berries, and many other other facts of interest. Mailed to any address on receipt of 30 cents. Address, MARYLAND FARMER, Baltimore, Md. Apr-tf

1859

TWENTY-SECOND YEAR.

1880

Edited by THOMAS MEEHAN, State Botanist of Pennsylvania, and Fellow of many Learned Societies in America and Europe. He has now a world-wide reputation as an authority, and is much respected for his solid ability and worth wherever known. Our Magazine is at present the only strictly Horticultural periodical in the United States, east of the Rocky Mountains.

IT IS PUBLISHED

For the Amateur Cultivator, Botanist, Naturalist, and Lover of the Country. For the Florist, Pomologist, Arboriculturist, Nurseryman, Seedsman and Dealer. For the Landscape Gardener, Gentleman's Gardener, Market Gardener, Collector and Exhibitor of Flowers and Fruits.

IT IS

For the City, For the Country, For the Park, the Lawn, the Fields, the Woods. For the Conservatory, For the Walk down the Lane, For the Poor Man's Window Shelf. For the Terrace, For the Best Hours of Life,

It is a Veteran in Years, but Young and Vigorous in Fresh Acquisitions to the Stores of Horticulture

The Monthly Contents are:

Flower Garden and Pleasure Ground, Greenhouse and House Gardening. Fruit and Vegetable Gardening. New and Rare Plants and Flowers. New and Rare Fruits and Vegetables. Forestry, Botany, Horticultural Literature. Personal Notes of the Editor and Best Original Writers. Selections from Contemporary Authorities. Hints for the Month and Season, for the Amateur' Florist. Fruit Grower, etc. Horticultural Societies.

Two subscriptions for \$3.20. Five subscriptions for \$7.00. Subscription price, per year, \$210. Anyone announcing a club of five or more, may send them, on that understanding, singly as they come in, with \$1.40 each.

We refer to our contributor, Peter Henderson, and to all well known Horticulturists generally, as to the satisfactory claims of our Magazine.

Sample copies sent for 18c, postage stamps or money. Remit by post-office order, draft, or registered letter, for your own security against loss.

SUN MUTUAL AID SOCIETY,

OF BALTIMORE CITY.

-INCORPORATED '1880.-

COL. ED WIN WILMER, Manager.

Home Office, No. 11 S. Gay Street.

OFFICERS.

SAMUEL BLACK, - - - - President.
WOODWARD ABRAHAMS, - - Vice-President.
R. W. L. RASIN, - - - Treasurer.
E. M. WILMER, - - - - Secretary.

The Officers and References are gentlemen of well known business and professional standing and reputation.

THE OBJECT OF THE ASSOCIATION IS

Ist. To secure to its members or their heirs a sum of money at a time when it is most needed.
2d. To insure such benefits at the lowest cost.

RELIABILITY.

The principles on which the Society is founded are as old as history, the funds are held by the members, themselves until needed to pay dues and benefits.

MEMBERSHIP.

Any person, MALE OR FEMALE, in good health, between the ages of 20 and 60 may become members of the Association.

PRACTICAL WORKING.

The members agree to pay annual dues, (for current expenses) and assessments as rated, until such assessments shall exceed the amount required to pay a certificate in full; when they will be assessed only such a pro rata proportion as may be necessary to make up the sum needed. To pay a certificate, all the members will be assessed AS RATED in the tables, and cannot be assessed for more.

EXAMPLE.

Take an assessment on a certificate of \$1250; all who hold certificates for that amount will be assessed as rated, according to their ages. As for instance, persons from 30 to 40 would be assessed ONE DOLLAR. Certificates of \$2500 would be assessed to meet a loss of \$1250, one-half the amount as rated; and certificates for \$5000, one-fourth their rated assessment. Thus the plan is purely mutual and strictly equitable.

PERMANENT DISABILITY.

In case a member should become permanently disabled, FIFTY PER CENT. of the value of their certificates will be paid to them then, and fifty per cent. more at maturity of years; or to their heirs at death. This is manifestly a most benevolent and desirable provision.

MATURITY OF YEARS.

Members who live to their years of expectancy, will be paid in their life-time the amount of their certificate, (old age, in a majority of cases, is a time of most need.

EXAMPLE.

Take a person 40 years of age at the time of joining. Their expectation of life, as per the Carlisle Tables, is 27 years. Should such a person live to be 67 years of age, he or she would then receive, IN CASH (in their life-time.) the amount of their certificate.

SPECIAL FEATURES.

The permanent disability provision and the payment to living members, of matured certificates, render membership in this Association MORE DESIRABLE than in Societies that pay benefits in case of death ONLY.

WHO ARE SPECIALLY INTERESTED.

Every member has a personal interest in the growth and welfare of the Society, and should be active in inducing others to become members, as the larger the membership the LESS witl be the assessments, and the GREATER the value of the certificates.

Agents wanted.

THE BARB WIRE FENCE.

The great question among the farmers the world over is, "What makes the best and cheapest fence?" As far as the United States is concerned we may fairly consider the question answered in favor of "Barb Wire," as over fifty thousand miles of it were put up during the past year, and yet the business is just in its infancy, and there is no doubt in the minds of those conversant with the subject, that Barb Fence will soon be acknowledged as THE FENCE of the world.

We have a superior quality of this fence, and carry a larger stock than any house this side of New York. Although our wire is worth 25 per cent. more than any other make, it is sold as low as any in the market. Send for circulars or call upon.

THE BEST

FOR MAN AND BEA

For more than a third of a century the Mexican Mustang Liniment has been known to millions all over the world as the only safe reliance for the relief of accidents and pain. It is a medicine above price and praise—the best of its kind. For every form of external pain

Mustang Liniment is without an equal.

It penetrates flesh and muscle to
the very bone—making the continuance of pain and inflammation impossible. Its effects upon Human Flesh and the Brute Creation are equally wonder-The Mexican

Liniment is needed by somebody in every house. Every day brings news of the agony of an awful scald or burn subdued, of rheumatic martyrs re-stored, or a valuable horse or ox saved by the healing power of this

which speedily cures such ailments of the HUMAN FLESH as
Rheumatism, Swellings, Stiff Joints, Contracted Muscles, Burns and Scalds, Cuts, Bruises and Sprains, Poisonous Bites and Stings, Stiffness, Lameness, Old Sores, Ulcers, Frostbites, Chilblains, Sore Nipples, Caked Breast, and indeed every form of external disease. It heals without scars.
For the BRUTE CREATION it cures Sprains, Swinny, Stiff Joints, Founder, Harness Sores, Hoof Diseases, Foot Rot, Screw Worm, Scab, Hollow Horn, Scratches, Windgalls, Spavin, Thrush, Ringbone, Old Sores, Poll Evil, Film upon the Sight and every other ailment to which the occupants of the Stable and Stock Yard are liable.
The Mexican Mustang Liniment always cures and never disappoints; and it is, positively.

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints, Ringbones, Curbs and all similar blemishes and removes the bunch without

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

FROM

COL L. T. FOSTER.

Youngstown, Ohio, May 10th, 1880. Dr, B. J, Kendall & Co., Gents:--I had a very valuable Hambletonian colt which I prized very highly, he had a large bone spavin on one joint and a smaller one on the other which made him very lame; I had him under the charge of two Veterinary Surgeons which failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the Chicago Express, I determined at once to try it and got our Druggists here to send for it, they ordered three bottles; I took them all and thought I would give it a thorough trial, I used it according to directions and by the fourth day the colt ceased to be lame, and the lumps had entirel disappeared. I used but one bottle, and the colt's l mbs are as free from lumps and as smooth as any horse in the state. He is entirely cured. The curc was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it. L. T. FOSTER,

Very Respectfully,

FROM

G. W. MILLER.

Harrisburg, Pa,, Nov. 18th, 1880. Dr. B. J. Kendall & Co., Gents--- I have a very fine mare that has had a bone spavin for a long time I tried every thing man could devise to cure it but all in vain and was about to give it up when a friend of mine in this city came me and recommended Kendall's Spavin Cure which I tried with grand results, removing that bone clear and clean and then I sent 25 cents to you for one of your illustrated Horse Books and I think there is no better book printed on the horse and his diseases. I have taken great interest in it and have since sold 18 copies for you to my neighbors and will try and do what good I can by getting them for others.

Yours truly,

G. W. MILLER.

Statement made under Oath.

To Whom it May Concern.--In the year 1875, I treated with Kendall's Spavin Cure, a bone spavin of several months's growth, nearly half as large as a hen's egg, and completely stopped the lameness and removed the enlargement. I have worked the horse ever since very hard, and he never has been lame, nor could I ever see any difference in the size of the hock R. A. GAINES. joints since I treated him with Kendall Spavin Cure.

Sworn and subscribed to before me this 25th day of Feb., A. D., John G. Jenne, Justice Enosburgh Falls, Vt., Feb. 25th, 1879. of the Peace.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

Patten's Mills, Washington Co., N. Y., Feb 21, 1878.

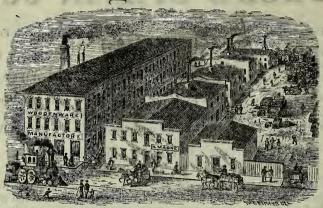

B. J. Kendall, M. D.; Dear Sir,—The particular case on which I used your 'Spavin Cure' was a malignant ankle sprain of sixteen months' standing. I had tried many things, but in vain. Your Spavin Cure put the foot to the ground again, and, for the first time since hurt, in a natural position. For a family liniment it excels anything we ever used.

Yours truly, REV. M. P. BELL, Pastor M. E. Church, Patten's Mills, N. Y.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success, to our knowledge, for beast as well as Price \$1 per bottle, or six bottles for \$5. All Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors.

DR. B. J. KENDALL & CO., Enosburgh Falls, Vermont.

Save the Expense of Building a Brick Chimney

Our Fire Clay Chimney Pipe does not rust nor crack by heat nor crumble from frost. It has been used to years for Dwellings, Schools, Church s, & No danger from fire as it does not communicate heet to wood. Insurance Companies have decided it to be a safer Chimney than brick. It is equally as solid and no bricks nor bricklayer are required; any one can put it up. Each section is two feet long and rests in the bowl of the next. We show four forms of construction. A complete chimney to use in 2 stories can be furnished for about \$5.

Send for descriptive circular with full information.

CHAS. H. TORSCH & CO.,

101 Hanover Street,

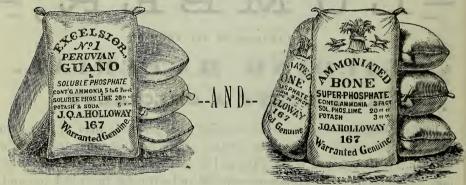

BALTIMORE.

TO TOBACCO PLANTERS!

The undersigned PIONEER, in the manufacture of Fertilizers in this city and Originator in 1858 of the formulas and processes of manufacture of

"Excelsior" and "Ammoniated Phosphate"

so well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers as Manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the Farmer—combining all the stimulating qualities of Peruvian Guano, and the ever-durable fertilizing properties of Bones, in fine, dry powder, prepared expressly for drilling, it is the universal opinion of the Farmers of Maryland and Virginia, after over twenty years experience in the use of the Excelsion manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for Manufacturing, I challenge competition with any Fertilizer sold in the United States in QUALITY,

MECHANICAL CONDITION and PRICE.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manu acture—as for the past twenty years,

UNIFORN QUALITY IS GUARANTEED.

Farmers to secure the ONLY GENUINE EXCELSIOR and PHOS-PHATE, prepared according to my original Formulas established in 1858, should see that every Bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

FARMERS LOOK AT THIS!

A Fire Engine in Your Well!

The "Success" Pump is the best in the market.

A WOMAN AND CHILD Can Extinguish a Fire.

A Double-Acting, Anti-Freezing

Force and Suction Pump Combined.

Can be used either as submerged or Suction Pump.

Adapted to any kind of Well.

Will raise water 400 feet if required

nted Aug. 17th. 1880.

This Pump having two cylinders (Brass) and piston rods, each of which are double acting, enables it to throw twice the amount of water of any other pump,

For simplicity and durability it excels as a deep well pump. It is so constructed as to be operated by either hand or machine, making a perfect Wind Mill Pump.

Each pump is furnished with hose attachment, and is most effective in case of fire. Write for Circulars, giving prices, &c., to

Also agent for the "New Hold-Fast Steel Barb Fence Wire," the best and cheapest fence in the world.

D. FHARTER'S

Endorsed and recommended by the medical profession, for Dyspepsia, General Debility, Female Discases, Want of Vitality, Nervous Prostration, and Convalsecence from Fevers, do.

GENTLEMEN: I was suffering from general debility to such an extent that my labor was exceedingly burdensome to me. A vacation of a month did not give me much relief, but on the contrary, was followed by increased prostration and sinking chills. At this time I began the use of your Iron Tonic, from which I realized almost immediate and wonderful results. The old energy returned and I found that my natural force was not permanently abated. I have used three bottles of the Tonic, Since using it I have done twice the bort that I ever did in the same time during my illness, and with double the ease. With the tranquil nerve and vigor of body, has come also a clearness of thought never before enjoyed. If the Tonic has not done the work, I know not what. I give it the credit.

J. P. WATSON, Pastor Christian Church, Troy, O.

The Iron Tonic is a preparation of Protoxide of Iron, Peruvian Bark, and Phosphates, associated with the Vegetable Aromatics. It serves every purpose where a Tonic is necessary.

RED BY THE DR. HARTER MEDICINE CO., NO. 218 HORTH MAIN STREET, ST. LOUI

The Sedgwick STEEL WIRE FENCE.

Is the only general purpose wire fence in use. eing a strong net work without barbs; it will turn does pigs, poultry, as well as the most victous stock, without danger to either fence or stock. It is just the fence for farmers, gardeners, stockraisers, and railroads, very desirable to lawns, parks or cemeteries. As it is covered with use-proof paint, it will last a life time. It is superior to boards in every respect, and far better than earbed wive. We ask for its a fair trial, knowing it will wear itself into favor. We also manufacture the Automatic or Self-opening (aute. The utility of self-opening gates are more and more appredated. The Sedgwick Gates, made o wrought from and steel wire defy all competition in neatness, lig. tues, strength, and durability Ask hardware dealers, or for price list and particulars address.

Items of Interest.

The Cuban sugar crop for the present year is estimated at 464,000 tons. In 1880 it was 529,500 tons.

Early rose potatoes grown in Boulder county, Col., this year have made their appearance in Denver.

Boston wool sales for last week were the largest so far this year. Of domestic grades 2,804,766 pounds were sold, and 895,000 pounds of foreign.

Farmers in Pennsylvania have found that the clover seed midge has become troublesome, and are seeking for the best means of checking its inroads.

Calves should have a run in a good piece of grass. The value of a cow depends so much upon the first year's growth that the calf should have the best of feed, that the mature animal may be the most profitable.

A better feeling in the wool market at the East is reported. The prospects are more encouraging than they have been for some time.

The canning works at Vinton, Ia., intend to put up a million cans of fruit this season, comprising corn, tomatoes, beans, peas, etc. Contracts have been made with farmers in that section for the product of hundreds of acres of these vegetables this season.

Interest in the silk industry is increasing in the Southern States. A short time ago we mentioned the indications of its revival in Louisiana, whence exports of silk were made as long ago as 1718. We notice that silk culture is being revived in South Carolina and Georgia.

The Wheat crop of Europe, to infer from the latest reports, will prove about or very nearly an average, and much superior to that of last year. Nevertheless there will still be required from the United States, large supplies to meet the full demand. Here, the crop may not come up to the yield of 1880, in quantity, though the quality may be regarded as better.

The spring floods of the Missouri submerged 225,000 acres of fertile land in Dakota alone. These lands average a family to every twenty acres, and the loss to crops, stocks, houses, etc., can hardly be estimated.

"Barn Plans and Out-building," published by Orange Judd Co., New York, meets a long felt want among farmers. The work contains 257 engravings with full descriptions. To be had at office of Maryland Farmer.

RHEUMATISM.

Neuralgia, Sciatica, Lumbago,

Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains,

Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals St. Jacobs On. as a safe, sure, simple and cheap External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

Directions in Eleven Languages.

80LD BY ALL DRUGGISTS AND DEALERS IN MEDICINE,

A. VOGELER & CO.,

Baltimore, Md., U. S. A.

For \$12.00 a Farmer can buy a formula (5201b) of POWELL'S PREPARED CHEMICALS for WHEAT.

This, when mixed at home, makes ONE TON of SUPERIOR

This, when mixed at home, makes ONE TON of SUPERIOR PHOSPHATE, which is equal in plant-life and as certain of successful crop production as many of the high-priced Phosphates.

No trouble to mix; no extra expense. Full directions.
Powell's Chemicals have been thoroughly tried, give universal satisfaction, and we offer leading farmers in every state as reference.
Send for Pamphlet. BEWARE OF IMITATIONS.

BROWN CHEMICAL CO., Baltimore, Md., Sole Proprietors.

Powell's Tip-Top Bone Fertilizer, price only \$30 a ton net cash.
MANUFACTURERS OF Pure Bone Meal, Pure Dissolved Bone, Potash, Ammonia, and all high-grade Fertilizing Materials.

Powell's Tip Top Bone Fertilizer.

Only one Price--\$30.00 a ton Cash. No Commissions to Agents.

SPECIAL NOTICE.

The "Tip Top bone fertilizer, as will be seen by analysis, is very rich in plant food. We put it on the Market as being much cheaper and equally as good as many of the higher priced brands that are now sold. The analysis of this fertilizer is guaranteed, and is in the best mechanical condition for drilling. There is not one pound of earth or foreign matter used in making the compound. These facts, with the high chemical value and low price of the "Tip Top," will make it fill a demand made by a great many farmers for a cheap and efficien-Fertilizer where they have not the time or means of manipulating chemicals successfully.

GIVE IT A TRIAL

A pamphlet giving full description of our goods and testimonials from leading farmers as to their qualities, mailed to any address on application to

BROWN CHEMICAL CO., 29 S. Hanover St., Baltimore,

Aug1y

MRS. LYDIA E. PINKHAM, OF LYNN, MASS.,

LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

Is a Positive Cure

for all those Painful Complaints and Weaknesses

It will cure entirely the worst form of Female Complaints, all ovarian troubles, Inflammation and Ulceration, Falling and Displacements, and the consequent Spinal Weakness, and is particularly adapted to the Change of Life.

It will dissolve and expel tumors from the uterus in an early stage of development. The tendency to cancerous humors there is checked very speedily by its use.

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times and under all circumstances act in harmony with the laws that govern the female system.

For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S VEGETABLE COM-POUND is prepared at 233 and 235 Western Avenue, Lynn, Mass. Price \$1. Six bottles for \$5. THE POCKLINGTON GRAPE.

Is asse lling from Concord, and was raised from seed by Mr. John Pocklington, of Sandy Hill, Washington County, N. Y. Sandy Hill is well known to be an elevated, cold, late locality; the vines there have always proved themselves to be Thoroughly Hardy, both in wood and foliage.

The vine is a Strong Grower, in appearance almost identical with the Concord, Having Large, Thick, Leathery Poliage, and, like that well-known variety, never mildews—either in foliage or fruit. At the New York State Fair, held in Rochester, Sept., 1877, it was greatly admired, and the committee, of whom M. B. Itchum, of Painesville, O., was chairman, pronounced it the very Grape we have all been so anavors by looking for so long.

Rev. R. Burnett. President of Frait Growers' Association of Ontario, Canada, who was the other judge serving on the committee with Mr. Butcham, at N. Y. State Fair, 1877, says: "I then formed the opinion that it would turn out a very valuable grape, both on account of its superb quality and its color. I am satisfied if such fruit can be successfully raised from it, as was presented to me and my colleague, Mr. Batcham, that it will soon find a market for itself.

M. B. Batcham, under date of December 7th, 1878, writes: "I would sooner have the control of this variety to-day, if I were a propagator of vines, than any other that has come to my knowledge.

Mr. Thomas Mechan. Elitor of the Gardeneys Monthly, October 14th, 1879, writes: "I find your plants of Pocklington Grape are growing finely. It is one of the best growers we have. From what I have seen of it, it is a very promising variety.

Bishop McQuaid, of Rochester, N. Y., who has a vineyard of 20 acres, tested the fruit last fall, 1890, and he expresses himself much pleased with its fine appearance, and says it is a delicious grape, and by far the best that has come under his observation.

The American Agriculturist says of it: "Of much better quality than Concord; intensely sweet and less of the Labrusca quality in the taste and the smell. The berry alher

This is to Certify that the First Premium for the best new Seedling Grape, was nwarded to the Hammond Nurseries, for the "Pockington" Grape, exhibited by them at the Union Fair, held in Geneva, Sept. 21, 22, 23, 1880.

The Committee consisting of S. S. Graves, of Geneva; John Anderson, of Seneca Co., and James Stockstill, of Dayton, Ohio, in making the award, also made the following report;

"Your committee would call especial attention to the new Seedling Grape exhibited by the Hammond Nurseries, and grown by John Charlton, of Rochester, N. Y., the 'Pocklington,' to which they have awarded the premium for the best new Seedling Grape. The bunches are large and well formed; berries nearly twice the size of the 'Martha' and an infinitely better grape. The pulp is tender and sweet to the centre; color white; growth of the vine strong and healthy, ripening its wood as perfectly as the Concord, and like that variety it has thick, heavy foliage, rendering it proof against mildew and disease."

WILLIAM W. STACEY, Secretary.

BOSTON, Oct., 10th, 1880.

"I am much pleased with the Pocklington Grape, and desire to graft an old vine in my vineyard with it. If you could spare me a few scions of about one-third of an inch in diameter, I should be glad to receive them, and be happy to reciprocate with anything I possess."

MARSHALL P. WILDER.

The following FIRST PREMIUMS have been awarded to the Pocklington Grape; Western New York Fair, 1879, Geneva N. Y. Fair, 1880. Western New York Fair, 1879, Geneva N. Y. Fair, 1880. Western New York Fair, 1879. Western New York Fair, 1879. Harriou D. Exhibition, Toronto, 1880, and at many County Fairs.

Mariou D. Expert, of Lebauan Ohio in an address delivered before the Ludiene State Horticultural

Fairs.

Marion D. Egbert, of Lebanon, Ohio, in an address delivered before the Indiana State Horticultural Society, at Muncio, Sept. 2, 1880, said: Among the new varieties of grapes that are candidates for public favor is the Pocklington; that, from what I know of it, and what is said of it in the East, I cordially recommend it to you as a grape that will, in my opinion, more than fulfil all that is claimed for it."

The foregoing is only apart of the mass of testimony we have in forage, and proves that it is only necessary for the public to become satisfied of its merits to secure for it the largest sale of any grape ever offered in this country. Is is perfectly hardy, wonderfully productive, and bears very young. It has grown rapidly in favor with the leading pomologists of this section of the country, such parties as Marshall P. Wilder, President of U. S. Pomological Society, Ellwanger & Barry, H. E. Hooker, Ex-president of Western N. Y. Horticultural Society, and many others having secured vines for their own collections.

It was pronounced ripe by H. E. Hooker, and other nurserymen, who examined bearing vines in this city, on the 6th September last, and on the 6th November, following, we picked perfect specimens from the same vines, which had been hanging there ripe two months without any signs of dropping, cracking or rotting, which is a most remarkable circumstance, and one of the strongest points in its favor with vineyardists who are raising grapes for market, as they want something that will last on the vine after ripening, so they can dispose of them at leisure. During the past winter it has withstood a temperature of thirty-four degrees below zero on Mr. Pocklington's place without the slightest injury.

Having unlimited faith in the growing popularity of the Pocklington Grape, we have secured the exclusive control of all the stock in the market for Fall of 1881 and Spring of 1882, and believe the demand will justify the outlay.

Orders for this grape will be filled by mail or express prepaid, on re

LAND PLASTER

Was introduced into the United States by Benjamin Franklin, aud first used by him in this country on his farm near Philadelphia. He divided a lot bordering on one of the principal thoroughfares leading from the city, into two sections, and the signs which he erected called the attention of the passers-by to the fact that "This part of the lot has been sown with Plaster of Paris," and "This part had not been sown." The effect of the plaster was remarkable, almost doubling the production of grass, and forthwith the demand for the new fertilizer became very great, and importations of it was the result.

Much might be written about its value to farmers, but they have

TESTED ITS MERITS

and they know, while other fertilizers have proved worthless,

PLASTER CONTINUES TO ENDURE THE TEST

and the steady increase in its sales is the best evidence of its growing popularity. It is doubtless the

Cheapest Fertilizer in Existence.

The analysis of this plaster is about 20 per cent. richer, in the essential element which makes the plaster of value for agricultural purposes, namely, Sulphate of Lime, than in plaster usually sold.

J. J. TURNER & CO.,

"EXCELSIOR,"

1858

1881

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvain Guano, and the ever durable fertilizing properties of Bones. In fine day poycler, prepared expressly for drilling

Bones. In fine dry powder, prep used expressly for drilling.

After twenty-three Years' experience by the Planters of Maryland and Virginia in the use of "EXCELSIOR." it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to 100 200 to 300 pounds of any other fertilizer or guino, and, therefore, fully 100 per cent cheaper.

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvin Guano for sa'e, Feb-1y

TO WHEAT GROWERS. J. J. TURNER & CO.,

BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against conterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMEL FOR THE FUTURE.

J. J. TURNER & CO., No. 42 W. PRATT ST. BALTIMORE, MD.

EKIDNEY-WORT DOES

WONDERFUL CURES!

Because it acts on the LIVER, BOWEL and KIDNEYS at the same time.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary Diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia, Nervous Disorders and Female Complaints.

SEE WHAT PEOPLE SAY:

Eugene B. Stork, of Junction City, Kansas, says, Kidney-Wort cured him after regular Physicians had been trying for four years.

Mrs. John Arnall, of Washington, Ohio, says her boy was given up to die by four prominent physicians and that he was afterwards cured by Kidney-Wort.

M. M. B. Goodwin, an editor in Chardon, Ohio, says he was not expected to live, being bloated beyond belief, but Kidney-Wort cured him.

Anna L. Jarrett of South Salen, N. Y., says that seven years suffering from kidney troubles and other complications was ended by the use of Kidney-Wort.

John B. Lawrence of Jackson, Tenn., suffered for years from liver and kidney troubles and after taking "barrels of other medicines," Kidney-Wort made him well.

Michael Coto of Montgomery Center, Vt. suffered eight years with kidney difficulty and was unable to work. Kidney-Wort made him "well as ever."

PERMANENTLY KIDNEY DISEASES LIVER COMPLAINTS.

Constipation and Piles.
La It is put up in Dry Vegetable Form in tin cans, one package of which makes six quarts of medicine. Also in Liquid Form, very Concentrated, for those that cannot readily prepare it.

If acts with equal efficiency in either form. GET IT ATTHE DRUGGISTS. PRICE. \$1.00 WELLS, RICHARDSON & Co., Prop's, (Will send the dry post-paid.) BURLINGTON, VT.

HALLOCK'S

IMPROVED

SEED DRILL.

This machine will sow in drills all kinds of seeds from beet down to the smallest seeds, without regard to weight, shape or size, with regularity, and without failure, as long as there is seed in the hop-per, and will do the work with one man, that would take a half dozen men a given time. It can be sent anywhere by R. R. or Express, on receipt of the price, which is only \$5.00.

It is upon the principle of the old English hand

seed drills, with the revolving brush used for many

years in England. Address.

E. WHITMAN, Ed. Md. Farmer.

SUN MUTUAL AID SOCIETY,

OF BALTIMORE CITY.

-INCORPORATED 1880.

COL. ED WIN WILMER, Manager.

Home Office, No. 11 S. Gay Street.

OFFICERS.

SAMUEL BLACK, - - - - President.
WOODWARD ABRAHAMS, - - - Vice-President.
R. W. L. RASIN, - - - Treasurer.
E. M. WILMER, - - - Secretary.

The Officers and References are gentlemen of well known business and professional standing and reputation.

THE OBJECT OF THE ASSOCIATION IS

Ist. To secure to its members or their heirs a sum of money at a time when it is most needed. 2d. To insure such benefits at the lowest cost.

RELIABILITY.

The principles on which the Society is founded are as old as history, the funds are held by the members, themselves until needed to pay dues and benefits.

MEMBERSHIP.

Any person, MALE OR FEMALE, in good health, between the ages of 20 and 60 may become members of the Association.

PRACTICAL WORKING.

The members agree to pay annual dues, (for current expenses) and assessments as rated, until such assessments shall exceed the amount required to pay a certificate in full; when they will be assessed only such a pro rata proportion as may be necessary to make up the sum needed. To pay a certificate, all the members will be assessed AS RATED in the tables, and cannot be assessed for more.

EXAMPLE.

Take an assessment on a certificate of \$1250; all who hold certificates for that amount will be assessed as rated, according to their ages. As for instance, persons from 30 to 40 would be assessed ONE DOLLAR. Certificates of \$2500 would be assessed to meet a loss of \$1250, one-half the amount as rated; and certificates for \$5000, one-fourth their rated assessment. Thus the plan is purely mutual and strictly equitable.

PERMANENT DISABILITY.

In case a member should become permanently disabled, FIFTY PER CENT. of the value of their certificates will be paid to them then, and fifty per cent. more at maturity of years; or to their heirs at death. This is manifestly a most benevolent and desirable provision.

MATURITY OF YEARS.

Members who live to their years of expectancy, will be paid in their life-time the amount of their certificate, (old age, in a majority of cases, is a time of most need.

EXAMPLE.

Take a person 40 years of age at the time of joining. Their expectation of life, as per the Carlisle Tables, is 27 years. Should such a person live to be 67 years of age, he or she would then receive, IN CASH (in their life-time,) the amount of their certificate.

SPECIAL FEATURES.

The permanent disability provision and the payment to living members, of ma'ured certificates, render membership in this Association MORE DESIRABLE than in Societies that pay benefits in case of death ONLY.

WHO ARE SPECIALLY INTERESTED.

Every member has a personal interest in the growth and welfare of the Society, and should be active in inducing others to become members, as the larger the membership the LESS witl be the assessments, and the GREATER the value of the certificates.

Agents wanted.

Will raise water 400 feet if required

This Pump having two cylinders (Brass) and piston rods, each of which are double acting, enables it to throw twice the amount of water of any other pump,

For simplicity and durability it excels as a deep well pump. It is so constructed as to be operated by either hand or machine, making a perfect Wind Mill Pump.

Each pump is furnished with hose attachment, and is most effective in case of fire. Write for Circulars, giving prices, &c., to

LEWIS A. BIRELY, Prop'r.

THE BARB WIRE FENCE.

The great question among the farmers the world over is, "What makes the best and cheapest fence?" As far as the United States is concerned we may fairly consider the question answered in favor of "Barb Wire," as over fifty thousand miles of it were put up during the past year, and yet the business is just in its infancy, and there is no doubt in the minds of those conversant with the subject, that Barb Fence will soon be acknowledged as THE FENCE of the world.

We have a superior quality of this fence, and carry a larger stock than any house this side of New York. Although our wire is worth 25 per cent. more than any other make, it is sold as low as any in the market. Send for circulars or call upon.

E. WHITMAN, SONS & CO.,

THE BEST

FOR MAN AND BEAST

For more than a third of a century the Mexican Mustang Liniment has been known to millions all over the world as the only safe reliance for the relief of accidents and pain. It is a medicine above price and praise—the best of its kind. For every form of external sections. For every form of external pain

Mustang Liniment is without an equal.

It penetrates flesh and muscle to
the very bone—making the continuance of pain and inflammation impossible. Its effects upon Human Flesh and the Brute Creation are equally wonderful. The Mexican

Liniment is needed by somebody in every house. Every day brings news of the agony of an awful scald or burn subdued, of rheumatic martyrs restored. or a valuable horse or ox stored, or a valuable horse or saved by the healing power of this or ox

which speedily cures such ailments of the HUMAN FLESH as
Rheumatism, Swellings, Stiff Joints, Contracted Muscles, Burns and Scalds, Cuts, Bruises and Sprains, Poisonous Bites and Stings, Stiffness, Lameness, Old Sores, Ulcers, Frostbites, Chilblains, Sore Nipples, Caked Breast, and indeed every form of external dis-ease. It heals without sears. For the Bruff Creation it cures

For the BRUTE CREATION it cures Sprains, Swinny, Stiff Joints, Founder, Harness Sores, Hoof Diseases, Foot Rot, Screw Worm, Scab, Hollow Horn, Scratches, Windgalls, Spavin, Thrush, Ringbone, Old Sores, Poll Evil, Film upon the Sight and every other ailment to which the occupants of the Stable and Stock Yard are liable. The Moxican Mustang Liniment always cures and never disappoints; and it is, positively, For the BRUTE CREATION it cures

KENDALL'S SPAVIN OURE!

It cures Spavins, Splints, Ringbones, Curbs and at similar blemishes and removes the bunch with u

blistering. For man it is now known to be one of the best if not the best liniment ever discovered.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

FROM

COL, L, T, FOSTER,

Youngstown, Ohio, May 10th, 1880. Dr. B. J. Kendall & Co., Gents:---I had a very valuable Hambletonian colt which I prized very highly, he had a large bone spavin on one joint and a smaller one on the other which

made him very lame, I had him under the charge of two Veterinary Surgeons which failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the Chicago Express, I determined at once to try it and got our Druggists here to send for it, they ordered three bottles; I took them all and thought I would give it a thorough trial, I used it according to directions and by the fourth day the colt ceased to be lame and the lumps had entirel disappeared. I used but one bottle, and the colt's l mbs are as free from lumps and as smooth as any horse in the state. He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it, L. T. FOSTER, Very Respectfully.

FROM

G. W. MILLER.

Harrisburg, Pa,, Nov. 18th, 1880.

Dr. B. J. Kendall & Co., Gents--- I have a very fine mare that has had a bone spavin for a long time I tried every thing man could devise to cure it but all in vain and was about to give it up when a friend of mine in this city came me and recommended Kendall's Spavin Cure which I tried with grand results, removing that bone clear and clean and then I sent 25 cents to you for one of your illustrated Horse Books and I think there is no better book printed on the horse and his diseases. I have taken great interest in it and have since sold 18 copies for you to my neighbors and will try and do what good I can by getting them for others.

Yours truly,

G. W. MILLER.

Statement made under Oath.

To Whom it May Concern .-- In the year 1875, I treated with Kendall's Spavin Cure, a bone spavin of several months's growth, nearly half as large as a hen's egg, and completely stopped the lameness and removed the enlargement. I have worked the horse ever since very hard, and he never has been lame, nor could I ever see any difference in the size of the hock R. A. GAINES. joints since I treated him with Kendall Spavin Cure.

Sworn and subscribed to before me this 25th day of Feb., A. D., John G. Jenne, Justice Enosburgh Falls, Vt., Feb. 25th, 1879. of the Peace.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

Patten's Mills, Washington Co., N. Y., Feb 21, 1878.

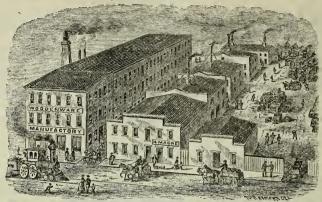

B. J. Kendall. M. D.; Dear Sir,—The particular case on which I used your 'Spavin Cure' was a malignant ankle sprain of sixteen months' standing. I had tried many things, but in vain. Your Spavin Cure put the foot to the ground again, and, for the first time since hurt, in a natural position. For a family liniment it excels anything we ever used.

REV. M. P. BELL, Pastor M. E. Church, Patten's Mills, N. Y. Yours truly,

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success, to our knowledge, for beast as well as man. Price \$1 per bottle, or six bottles for \$5. All Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors.

DR. B. J. KENDALL & CO, Enosburgh Falls, Vermont.

Save the Expense of Building a Brick Chimney

Our Fire Clay Chimney Pipe does not rust nor crack by heat nor crumble from frost. It has been used to years for Dwellings, Scholl, Church s. & . No danger from fire as it does not communicate heet to wood. Insurance Companies have decided it to be a safer Chimney than brick. It is equally as solid and no bricks nor bricklayer are required; any one can put it up. Each section is two feet long and rests in the bowl of the next. We show four form of construction. A complet chimney to use in 2 stories can Le furnish a for about \$5.

Send for descriptive circular with full information.

CHAS. H. TORSCH & CO.,

101 Hanover Street,

may

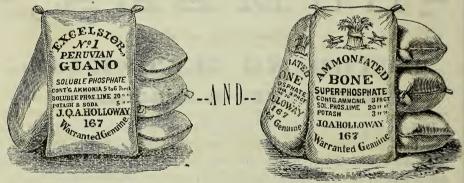

BALTIMORE,

TO WHEAT GROWERS!

The undersigned PIONEER, in the manufacture of Fertilizers in this city and Originator in 1858 of the formulas and processes of manufacture of

"Excelsior" and "Ammoniated Phosphate"

so well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers as MANUFACTURED BY HIM, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the Farmer—combining all the stimulating qualities of Peruvian Guano, and the ever-durable fertilizing properties of Bones in fine, dry powder, prepared expressly for drilling, it is the universal opinion of the Farmers of maryland and Virginia, after over twenty years experience in the use of the Exc lsior manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for Manufacturing, I challenge competition with any Fertilizer sold in the United States in QUALITY,

MECHANICAL CONDITION and PRICE

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manu acture—as for the past twenty years,

UNIFORN QUALITY IS GUARANTEED.

Farmers to secure the ONLY GENUINE EXCELSIOR and PHOS-PHATE, prepared according to my original Formulas established in 1858, should see that every Bag is branded as above, with the ANALYSIS and MYNAME IN RED LETTERS.

The Best REMEDY KNOWN to Man! 11,000.000 Bottles

SOLD SINCE 1870.

This Syrup possesses Varied Properties.

It Stimulates the Ptyaline in the Saliva, which converts the Starch and Sugar of the food into glucose. A deficiency in Ptyaline causes Wind and Souring of the food in the stomach. If the medicine is taken immediately after eating the fermentation of food is pre-vented.

It acts upon the Liver. It acts upon the Kidneys. It Regulates the Bowels.

It Purifies the Bowes.
It Purifies the Blood,
It Quiets the Nervous System.
It Promotes Digestion.
It Nourishes, Strengthens and Invigorates.
It carries off the Old Blood and makes new

It carries off the Old Blood and makes new It opens the pores of the skin and induces Healthy Perspiration.

It neutralizes the hereditary taint, or poison in the blood, which generates Scrofula, Erysipelas, and all manner of skin diseases and internal humors.

There are no spirits employed in its manufacture, and it can be taken by the most delicate babe, or by the aged and feeble, careonly being required in attention to directions.

DRUGGISTS SELL IT. Laboratory, 77 West 3d St., NEW YORK CITY.

JAMES BUNTING.

Pocomoke City, Worcester Co., Md. This is to certify that Dr. Clark Johnson's Indian Blood Syrup has done me more good for Bloody Piles, than any other medicine I ever used. I advise all similarly afflicted to give it a trial.

Perrymannsville, Harford Co, Md. This is to certify that Dr. Clark Johnsons's Indian Blood Syrup has proved effectual in curing me of Dyspepsia. I recommend its use to all similarly afflicted. JOHN HOPKINS.

Turners Creek, Kent Co., Md. I had a severe spell of Sickness, which left me very Weak and Nervous, and I failed to obtain

relief until I tried Dr. Clark Johnson's Indian Blood Syrup, which speedily cured me. It is the best medicine I ever used. EVA. A. WINGATE.

A Trap for Sheep-Killing Dogs.

The Lynchburg Virginian describes an ingenious trap devised by a Virginia farmer to capture sheep killing dogs. Having suffered severely from the depredations of dogs upon his sheep-fold, he built around a number of sheep that dogs had killed an inclosure of rails twelve feet high and about ten feet square at the ground, the sides of the trap sloping inward until an opening was left about five feet square. Any dog could easily climb such a sloping fence and enter the pen, but not even a greyhound could jump out of it. In three nights the farmer captured forty-six dogs, including fifteen or twenty that had never been seen before in that neighborhood. This, after there had been a public slaughter of all dogs suspected of sheep-killing, save one, whose master could not be convinced of his guilt. The trap was built for his especial benefit, and it caught him the first night.

The sugar crop of Cuba is 20 per cent. less than last year.

Why is the North Pole like an illicit whiskey manufactory? Because it's a secret still.

E. B. Emory, owner and proprietor of "Poplar Grove" stock farm, received last week from Kentucky a superior lot of Shorthorn, selected by himself from the herds of the most celebrated breeders of that State.

Dr. F. M. Hexamer remarks that "a man has about as much chance to raise a new strawberry superior to every old variety as he has to draw the great prize in the Havana lottery."

There is no rest for the successful tobacco grower from the time the seed is sown in the seed-bed until the fully matured plants, with their heavy green leaves, are safely housed in the curing barn. The entire season is a long struggle with weeds and insect enemies, and then "continual cultivation" is necessary in order that the plants may attain their fullest development.

A pretty girl may talk slang, but she never says to her beau, "None of your lip!"

Marshall P. Wilder says that if he could have but one of his eight hundred varieties of pears it would be the Beurre d'Anjou.

The Wisconsin legislature has appropriated \$4,000 for experiments with early amber sugar cane.

Irish land-owners understand just enough about farming to know how to "raise" the rents.

Powell's Tip Top Bone Fertilizer.

Only one Price--\$30.00 a ton Cash. No Commissions to Agents.

SPECIAL NOTICE.

The "Tip Top bone fertilizer, as will be seen by analysis, is very rich in We put it on the Market as being much cheaper and equally as good as many of the higher priced brands that are now sold. The analysis of this fertilizer is guaranteed, and is in the best mechanical condition for drilling. There is not one pound of earth or foreign matter used in making the compound. These facts, with the high chemical value and low price of the "Tip Top," will make it fill a demand made by a great many farmers for a cheap and efficien-Fertilizer where they have not the time or means of manipulating chemicals successfully.

GIVE IT A TRIAL.

A pamphlet giving full description of our goods and testimonials from leading farmers as to their qualities, mailed to any address on application to

THE POCKLINGTON GRAPE.

Is a seedling from Concord, and was raised from seed by Mr. John Pocklington, of Sandy Hill, Washington County, N. Y. Sandy Hill is well known to be an elevated, cold, late locality; the vines there have always proved themselves to be Thoroughly Hardy, both in wool and foliage.

The vine is a Strong Grower, in appearance almost identical with the Concord, Having Large, Thick, Leathery Foliage, and, like that well-known variety, never mildews—either in foliage or fruit. At the New York State Fair, held in Rochester, Sept., 1877, it was greatly a lmired, and the committee, of whom M. B. Bateham, of Painesville, O., was chair nun, pronounced it the very Grape we have all been so anxionsly looking for so long.

Rev. R. Burnett, President of Fruit Growers' Association of Ontario, Canada, who was the other judge serving on the committee with Mr. Bateham, at N. Y. State Fair, 1877, says: "I then formed the opinion that it would turn out a very valuable grape, both on appound of its superb quality and its color. I am satisfied if such fruit can be successfully raised from it, as was presented to me and my colleague, Mr. Bateham, that it will soon find a market for itself.

M. B. Bateham, under date of December 7th, 1878, writes: "I would sooner have the control of this variety to-day, if I were a promagator of vines, than any other that has come to my knowledge.

Mr. Thomas Mechan. Editor of the Gardeners Monthly, October 14th, 1879, writes: "I find your plants of Pocklington Grape are growing finely. It is one of the best growers we have. From what I have seen of it, it is a very promising variety.

Bishop McQuaid. of Rochester, N. Y., who has a vineyard of 20 acres, tested the fruit last fall, 1880, and he expresses himself much pleased with its fine appearance, and says it is a delicious grape, and by far the best that has come under his observation.

The American Agriculturist says of it: "Of much befter quality than Concord; intensely sweet and less of the Labruse apnality in the taste and the suell. The berry adh

every appearance of being a good keeper. The great size and copious bloom makes the great size to the eye."

"I say the Pocklington, repeatedly, growing at Rochester. It was eatable, Sept. Ist; was in its glory, Sept. Ist: Was still good, Oct. Ist, when it had assume I a rich amber hue. While not the best in any one's opinion, it is a grape, the offering of which will give no offence to the most critical authority in the country. It is hardy, healthy, vigorous and productive—a grape that will succeed with the Concord."—Chas. A. Green, in "Country Gentlemen."

"It is undoubtedly a splendid grape."—A. M. Purdy, in "Fruit Recorder."

Mr. S. D. Willard. of Geneva, N. Y., writes Sept. 17th: Mr. Conover and myself have tested the Pockington sample carefully, and are well pleased. The fact that it is hardy and does not mildew, is certainly a strong point in its favor, and with its very strong habit, I would take the chances of selling the fruit, if not as highly flavored as some exquisite sorts."

"The Pocklington is a hardy and healthy native, vigorous and productive; clusters large; berries greenish-white, very large; flesh sweet and well flavored; when fully ripe better than Concord."—Green'r Fruit Grower.

This is to Certify that the First Premium for the best new Seedling Grape, was awarded to the Hammond Nurseries, for the "Pocklington" Grape, exhibited by them at the Union Fair, held in Geneva, Sept. 21, 22, 23, 1880.

The Committee consisting of S. S. Graves, of Geneva; John Anderson, of Seneca Co., and James Stockstill. of Dayton, Ohio, in making the award, also made the following report:

"Your committee would call especial attention to the new Seedling Grape exhibited by the Hammond Nurseries, and grown by John Charlton, of Rochester, N. Y., the 'Pocklington,' to which they have awarded the premium for the best new Seedling Grape. The bunches are large and well formed; berries nearly twice the size of the 'Martha' and an infinitely better grape. The pulp is tender and sweet to the centre; color white; growth of the vine strong and healthy, ripening its wood as perfectly as the Concord, and like that variety it has thick, heavy foliage, rendering it proof against mildew and disease."

"I am much pleased with the Pocklington Grape, and desire to graft an old vine in my vineyard with it. If you could spare me a few scions of about one-third of an inch in diameter, I should be glad to receive them, and be happy to reciprocate with anything I possess."

"MARSHALL P. WILDER.

The following FIRST PREMIUMS have been awarded to the Pocklington Grape; Western New York Fair, 1878, Provincial Exposition, Toronto, 1879, Dominion Exhibition, Ottawa, 1879. Western New York Fair, 1878.

Wariou P. Eghert, of Lebanon Ohio in an address delivered before, the Indiana State Horticultural

Fairs.

Marion D. Egbert. of Lebanon, Ohio, in an address delivered before the Indiana State Horticultural Society, at Muncio, Sept. 2, 189), said: Among the new varieties of grapes that are candidates for public favor is the Pocklington; that, from what I know of it, and what is said of it in the East, I cordially recommend it to you as a grape that will, in my opinion, more than fulfil all that is claimed for it."

The foregoing is only apart of the mass of testimony we have in favor of this Grape, and proves that it is only necessary for the public to become satisfied of its merits to secure for it the largest sale of any grape ever offered in this country. Is is perfectly hardy, wonderfully productive, and bears very young. It has grown rapidly in favor with the leading pomologists of this section of the country, such parties as Marshall P. Wilder, President of U. S. Pomological Society, Ellwanger & Barry, H. E. Hooker, Ex-president of Western N. Y. Horticultural Society, and many others having secured vines for their own collections.

It was pronounced ripe by H. E. Hooker, and other nurserymen, who examined bearing vines in this city, on the 6th Societher last, and on the 6th November, following, we picked perfect specimens from the same vines, which had been hanging there ripe two months without any signs of dropping, cracking or rotting, which is a most remarkable circumstance, and one of the strongest points in its favor with vineyardists who are raising grapes for market, as they want something that will last on the vine after ripening, so they can dispose of them at leisure. During the past winter it has withsood a temperature of thirty-four degrees below zero on Mr. Pocklington's place without the slightest injury.

Having unlimited faith in the growing popularity of the Pocklington Grape, we have secured the exclusive control of all the stock in the market for Fall of 1881 and Spring of 1882, and believe the demand will justify the outlay.

Orders for this grape will be filled by mail or express pr

per dozen.

Office, Factory and Warehouses all connected by Private Line of lephone.

GENTLEMEN: I was suffering from general debility to such an extent that my labor was exceedingly burdensome to me. A vacation of a month did not give me much relief, but on the contrary, was followed by increased prostration and sinking chills. At this time I began the use of your IRON TONIC, from which I realized almost immediate and wonderful results. The old energy returned and I found that my natural force was not permanently abated. I have used three bottles of the Tonic, Since using it have done twice the abor that I ever did in the same time during my illness, and with double the ease. With the tranquil nerve and vigor of body, has come also a clearness of thought never before enjoyed. If the Tonic has not done the work, I know not what. I give it the credit.

J. P. WATSON, Pastor Christian Ohurch, Troy, O.

The Iron Tonic is a preparation of Pro-toxide of Iron. Peru-vian Bark, and Phos-

The Sedgwick STEEL WIRE FENCE.

Is the only general purpose wire fence in use. Being a strong net work without barbs; it will turn does pigs, poultry as weel as the most victous stock, without danger to either fence or stock. It is just the fence for 'armers, gadeners, stockraisers end railroads; very desirab; so lawns, parks or cemeteries. As it is covered with rust-proof paint, it will last a life time. It is superior to beards in every respect, and far better than barbed wire. We ask for it a fair trial, know ir g it will wear itself into favor. We also manufacture the Automatic or Self-opening Gate. The utling of Self-orening gates are more and more appreciated. The Selgwick Gates, made o wrought from and steel wire, defy all competition in neatness, ligt these, strength, and durability. Ask hardware dealers, or for price list and particulars address.

The Maryland Farmer.

The Curfew Tolls the Knell of Parting Day.

GRAY'S ELEGY.

Church tower bathed in smeet's fading light. Passing through and beyond the alivery stream, "The fouring light. Passing through and beyond the alivery stream," The fouring ford winds slowly o'er the far," towards the immble cottage in the misty distance.

"The gloughman homeward plots his weary way," and the thred horses look eageby towards their home and its rest. A boy and his dog are eagerly hunting in the mellow earth. The little fairy-like girl imparts a fascinating life and beauty to the pieture. In one hand also holds wild flowers, in the other grass for "my ook." The new moon is seen

TORE WARD

through the branches of a large tree that grandly shades the enchanting seeme. Seated under a tree in the church-yard, around which Wight begins to trail her dusky robes, the poet writes, " and kaves tha world to draphes and to me," and " Your disates the dismerting undecayed on the stole." Grand Riger, it is rich and harmonian scolorings of the

The curfew tolls the knell of parting day,
The lowing herd winds slowly o'er the lea;
"Now fades the glimmering landscape on the sight."

The ploughman homeward plods his weary way.
And leaves the world to darkness and to me."

Give Me the Joys of a Peaceful Country Home.

The SORNE is in haryest time on the bank of a river. The farm the lough changes, researchill, sky, and clouds form the back-ground. In the foreground are the most harmonious groupings in which are beautiful and interesting blendings of a happy family with the animal kington. A man is an inolading hay in the barm. Horses released from harness are being cared for by the farmer. Grand-pa holds a balty boy, who fondly caresses "Old White," the favorite horse, that is drinking at the trough. The milk-maid stands by her "bestow." Among the feathered tribe, a little girl is in slight warfare with a

mother hen, but carefully watched by the finithful dog. Oxen driver the mother hen, but carefully watched by the finithful dog. Oxen driver hy a lad are approaching with a load of hay. A youngster on the set of the preventing his cat from preving upon the doves. Cattle 3-4 for the part of the preventing his cat from preving upon the doves. Cattle 3-4 birds, are artistically grouped and cantered throughout the picture at The mellow light of the setting aun richly illuminate this sloquent of the forther part of the first part of the setting aun richly illuminate this sloquent at The Pomy, of thirthy and contented American farm life.

Competent judges consider this by far the best Farm-Yard illustra

"Give me the joys of a peaceful country home, Where the pure pleasures of a rural life e'er flow, Where Summer reddens, and beams the rich Autumn So grandly crowned with sickle and golden sheat."

Any subscriber sending us \$1.50 before the first of February next, will receive the MARYLAND FARMER for 1881, and his choice of either one of the splendid engravings of which miniature cuts are here given: Stein-copied in black and two tints in a high grade of that art. The very artistic tinting has produced the most perfect and pleasing twilight and sun effects. Size of sheet, 22x28 inches; printed and tinted surface, 17½ by 21½ inches; published at \$2 each.

These miniature wood cuts but faintly suggest the beauty and merit of the large copies,

TO WHEAT GROWERS!

The undersigned PIONEER, in the manufacture of Fertilizers in this city and Originator in 1858 of the formulas and processes of manufacture of

"Excelsior" and "Ammoniated Phosphate"

so well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers as MANUFACTURED BY HIM, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the Farmer—combining all the stimulating qualities of Peruvian Guano, and the ever-durable fertilizing properties of Bones in fine, dry powder, prepared expressly for drilling, it is the universal opinion of the Farmers of Maryland and Virginia, after over twenty years experience in the use of the Exoclsion manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for Manufacturing, I challenge competition with any Fertilizer sold in the United States in QUALITY,

MECHANICAL CONDITION and PRICE.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manufacture—as for the past twenty years,

UNIFORN QUALITY IS GUARANTEED.

Farmers to secure the ONLY GENUINE EXCELSIOR and PHOS-PHATE, prepared according to my original Formulas established in 1858, should see that every Bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

LAND PLASTER

Was introduced into the United States by Benjamin Franklin, aud first used by him in this country on his farm near Philadelphia. He divided a lot bordering on one of the principal thoroughfares leading from the city, into two sections, and the signs which he erected called the attention of the passers-by to the fact that "This part of the lot has been sown with Plaster of Paris," and "This part had not been sown." The effect of the plaster was remarkable, almost doubling the production of grass, and forthwith the demand for the new fertilizer became very great, and importations of it was the result.

Much might be written about its value to farmers, but they have

TESTED ITS MERITS

and they know, while other fertilizers have proved worthless,

PLASTER CONTINUES TO ENDURE THE TEST

and the steady increase in its sales is the best evidence of its growing popularity. It is doubtless the

Cheapest Fertilizer in Existence.

The analysis of this plaster is about 20 per cent. richer, in the essential element which makes the plaster of value for agricultural purposes, namely, Sulphate of Lime, than in plaster usually sold.

TO WHEAT GROWERS.

J. J. TURNER & CO., "EXCELSIOR,"

1858

1881

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvain Guano, and the ever durable fertilizing properties of

Bones. In fine dry powder, prepared expressly for drilling.

After twenty-three Vears' experience by the Planters of Maryland and Virginia in the use of "EX-CELSIOR." it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaper

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvain Guano for sale,

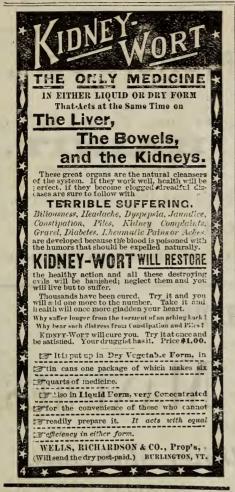

TO WHEAT GROWERS. J. J. TURNER & CO., BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with he analysis and our name in red letters, which we tope will prove sufficient protection against conterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMEL FOR THE FUTURE,

HALLOCK'S

IMPROVED

SEED DRILL.

This machine will sow in drills all kinds of seeds from beet down to the smallest seeds, without regard to weight, shape or size, with regularity, and without failure, as long as there is seed in the hopper, and will do the work with one man, that would take a half dozen men a given time. It can be sent anywhere by R. R. or Express, on receipt of the price, which is only \$5.00.

It is upon the principle of the old English hand seed drills, with the revolving brush used for many years in England. Address.

SUN MUTUAL AID SOCIETY,

OF BALTIMORE CITY.

-INCORPORATED 1880.-

COL. ED WIN WILMER, Manager.

Home Office, No. 11 S. Gay Street.

OFFICERS.

SAMUEL BLACK, - - - - President.
WOODWARD ABRAHAMS, - - - Vice-President.
R. W. L. RASIN, - - - Treasurer.
E. M. WILMER, - - - - Secretary.

The Officers and References are gentlemen of well known business and professional standing and reputation.

THE OBJECT OF THE ASSOCIATION IS

1st. To secure to its members or their heirs a sum of money at a time when it is most needed.
2d. To insure such benefits at the lowest cost.

RELIABILITY.

The principles on which the Society is founded are as old as history, the funds are held by the men.bers, themselves until needed to pay dues and benefits.

MEMBERSHIP.

Any person, MALE OR FEMALE, in good health, between the ages of 20 and 60 may become members of the Association.

PRACTICAL WORKING.

The members agree to pay annual dues, (for current expenses) and assessments as rated, until such assessments shall exceed the amount required to pay a certificate in full; when they will be assessed only such a pro rata proportion as may be necessary to make up the sum needed. To pay a certificate, all the members will be assessed AS RATED in the tables, and cannot be assessed for more.

EXAMPLE,

Take an assessment on a certificate of \$1250; all who hold certificates for that amount will be assessed as rated, according to their ages. As for in-tance, persons from 30 to 40 would be assessed ONE DOLLAR Certificates of \$2500 would be assessed to meet a loss of \$1250, one-half the amount as rated; and certificat s for \$5000, one-fourth their rated assessment. Thus the plan is purely mutual and strictly equitable.

PERMANENT DISABILITY.

In case a member should become permanently disabled, FIFTY PER CENT. of the value of their certificates will be paid to them then, and fifty per cent. more at maturity of years; or to their heirs at death. This is manifestly a most benevolent and desirable provision.

MATURITY OF YEARS.

Members who live to their years of expectancy, will be paid in their life-time the amount of their certificate, (old age, in a majority of cases, is a time of most need.

EXAMPLE.

Take a person 40 years of age at the time of joining. Their expectation of life, as per the Carlisle Tables, is 27 years. Should such a person live to be 67 years of age, he or she would then receive, IN CASH (in their life-time,) the amount of their certificate.

SPECIAL FEATURES.

The permanent disability provision and the payment to living members, of matured certificates, render membership in this Association MORE DESIRABLE than in Societies that pay benefits in case of death ONLY.

WHO ARE SPECIALLY INTERESTED.

Every member has a personal interest in the growth and welfare of the Society, and should be active in inducing others to become members, as the larger the membership the LESS witl be the assessments, and the GREATER the value of the certificates.

PROPRIETORS.

This RESTAURANT is the oldest and most extensive in its accommodations of any in the city.

The BAR is filled with the finest of all kinds of LIQUORS. The TABLES are covered with the best substantial food the markets afford, besides, at the earliest moment they can be procured in the different seasons, every variety of delicacy that land and water furnish, in

BIRDS, GAME, FISH, FRUITS & VEGETABLES.

Prices moderate. The crowds, which lunch and dine daily, attest public approbation of the superior management of the house.

It is a convenient place for travellers, who stopenly a few hours or a day in the city, to get their meals. It is the popular resort of country gentlemen from the counties, particularly from Southern Maryland, being convenient to Railroads and Steamboats, and in the midst of the business portion of the city.

The Proprietors will be grateful for the continuance of the extensive patronage they now enjoy, and will do their best to give entire satisfaction to all visitors.

For sale by all first-class Druggists. AGENTS OF BOTH SEXES WANTED.

THE BARB WIRE FENCE.

The great question among the farmers the world over is, "What makes the best and cheapest fence?" As far as the United States is concerned we may fairly consider the question answered in favor of "Barb Wire," as over fifty thousand miles of it were put up during the past year, and yet the business is just in its infancy, and there is no doubt in the minds of those conversant with the subject, that Barb Fence will soon be acknowledged as THE FENCE of the world.

We have a superior quality of this fence, and carry a larger stock than any house this side of New York. Although our wire is worth 25 per cent. more than any other make, it is sold as low as any in the market. Send for circulars or call upon.

E. WHITMAN, SONS & CO., 141 WEST PRATT STREET.

THE BEST

FOR MAN AND BEAST.

For more than a third of a century the Mexican Mustang Liniment has been known to millions all over the world as the only safe reliance for the relief of accidents and pain. It is a medicine above price and praise—the best of its kind. For every form of external pain the

It penetrates flesh and muscle to the very bone—making the continu-ance of pain and inflammation impossible. Its effects upon Human Flesh and the Brute Creation are equally wonderful. The Mexican

Liniment is needed by somebody in Linment is needed by somebody in every house. Every day brings news of the agony of an awful scald or burn subdued, of rheumatic martyrs restored, or a valuable horse or ox saved by the healing power of this

which speedily cures such ailments of the HUMAN FLESH as
Rheumatism, Swellings, Stiff Joints, Contracted Muscles, Burns and Scalds, Cuts, Bruises and Sprains, Poisonous Bites and Stings, Stiffness, Lameness, Old Sores, Ulcers, Frostbites, Chilblains, Sore Nipples, Caked Breast, and indeed every form of external disease. It heals without scars. For the Brutte Creation it cures Sprains, Swinny, Stiff Joints, Founder, Harness Sores, Hoof Diseases, Foot Rot, Screw Worm, Scah, Hollow Horn, Scratches, Windgalls, Spavin, Thrush, Ringbone, Old Sores, Poll Evil, Film upon the Sight and every other ailment to which the occupants of the Stable and Stock Yard are liable. The Mexican Mustang Linlment always cures and never disappoints; and it is, positively,

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints, Ringbones, Curbs and all similar blemishes and re moves the bunch with u'

blistering. For man it is now known to be one of the best if not the best liniment ever discovered.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

COL, L, T, FOSTER.

Youngstown, Ohio, May 10th, 1880. Dr. B. J. Kendall & Co., Gents:--- I had a very valuable Hambletonian colt which I prized very highly, he had a large bone spavin on one joint and a smaller one on the other which made him very lame, I had him under the charge of two Veterinary S rgeons which failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the Chicago Express, I determined at once to try it and got our Druggists here to send for it, they ordered three bottles; I took them all and thought I would give it a thorough trial, I used it according to directions and by the fourth day the colt ceased to be lame and the lumps had entirel disappeared. I used but one bottle, and the colt's l mbs are as free from lumps and as smooth as any horse in the state. He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it.

Very Respectfully,

L. T. FOSTER,

FROM

G. W. MILLER.

Harrisburg, Pa., Nov. 18th, 1880.

Dr. B. J. Kendall & Co., Gents --- I have a very fine mare that has had a bone spavin for a long time I tried every thing man could devise to cure it but all in vain and was about to give it up when a friend of mine in this city came me and recommended Kendall's Spavin Cure which I tried with grand results, removing that bone clear and clean and then I sent 25 cents to you for one of your illustrated Horse Books and I think there is no better book printed on the horse and his diseases. I have taken great interest in it and have since sold 18 copies for you to my neighbors and will try and do what good I can by getting them for others. Yours truly, G. W. MILLER.

Statement made under Oath.

To Whom it May Concern --- In the year 1875, I treated with Kendall's Spavin Cure, a bone spavin of several months's growth, nearly half as large as a hen's egg, and completely stopped the lameness and removed the enlargement. I have worked the horse ever since very hard, and he never has been lame, nor could I ever see any difference in the size of the hock R. A. GAINES. joints since I treated him with Kendall Spavin Cure.

Sworn and subscribed to before me this 25th day of Feb., A. D., John G. Jenne, Justice ne Peace.

Enosburgh Falls, Vt., Feb. 25th, 1879. of the Peace.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

Patten's Mills, Washington Co., N. Y. Feb 21, 1878.

B. J. Kendall. M. D.; Dear Sir,—The particular case on which I used your 'Spavin Cure' was a malignant ankle sprain of sixteen months' standing. I had tried many things, but in vain. Your Spavin Cure put the foot to the ground again, and, for the first time since hurt, in a natural position. For a family liniment it excels anything we ever used.

Yours truly, REV. M. P. BELL, Pastor M. E. Church, Patten's Mills, N. Y.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success, to our knowledge, for beast as well as man. Price \$1 per bottle, or six bottles for \$5. All Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors.

DR. B. J. KENDALL & CO., Enosburgh Falls, Vermont

For \$12.00 a Farmer can buy a formula (520 lb) of POWELL'S PREPARED CHEMICALS for WHEAT.

This, when mixed at home, makes ONE TON of SUPERIOR

This, when mixed at home, makes ONE TON of SUPERIOR PHOSPHATE, which is equal in plant-life and as certain of successful crop production as many of the high-priced Phosphates.

No trouble to mix; no extra expense. Full directions.
Powell's Chemicals have been thoroughly tried, give universal satisfaction, and we offer leading farmers in every state as reference.

Send for Pamphlet. BEWARE OF IMITATIONS.

BROWN CHEMICAL CO., Baltimore, Md., Sole Proprietors.

Powell's Tip-Top Bone Fertilizer, price only \$30 a ton net cash.
Pure Bone Meal, Pure Dissolved Bone, Potash, Ammonia, and all high-grade Fertilizing Materials.

Powell's Tip Top Bone Fertilizer.

Only one Price--\$30.00 a ton Cash. No Commissions to Agents.

SPECIAL NOTICE.

The "Tip Top bone fertilizer, as will be seen by analysis, is very rich in plant food. We put it on the Market as being much cheaper and equally as good as many of the higher priced brands that are now sold. The analysis of this fertilizer is guaranteed, and is in the best mechanical condition for drilling. There is not one pound of earth or foreign matter used in making the compound. These facts, with the high chemical value and low price of the "Tip Top," will make it fill a demand made by a great many farmers for a cheap and efficien-Fertilizer where they have not the time or means of manipulating chemicals successfully.

GIVE IT A TRIAL.

A pamphlet giving full description of our goods and testimonials from leading farmers as to their qualities, mailed to any address on application to

THE POCKLINGTON GRAPE.

Is a seedling from Concord, and was raised from seed by Mr. John Pocklington, of Sandy Hill, Washington County, N. Y. Sandy Hill is well known to be an elevated, cold, late locality: the vines there have always proved themselves to be Thoroughly Hardy, both in wood and foliage.

The vine is a Strong Grower, in appearance almost identical with the Concord, Having Large, Thiels, Leathery Poliage, and, like that well-known variety, never midlews—cither in foliage or fruit. At the New York State Fair, held in Rochester, Sept., 1877, it was greatly admired, and the committee, of whom M. B. Bateham, of Painesville, O., was chairman, pronounced it the very Grape we have all been so anxiously looking for so long.

Rev. R. Burnett, President of Fruit Growers' Association of Ontario, Canada, who was the other judge serving on the committee with Mr. Bateham, at N. Y. State Fair, 1877, says: "I then formed the opinion that it would turn out a very valuable grape, both on account of its saperb quality and lits color. I am satisfied if such fruit can be successfully raised from it, as was presented to me and my colleague, Mr. Bateham, that it will soon find a market for itself.

M. B. Bateham, under date of December 7th, 1878, writes: "I would sooner have the control of this variety to-day, if I were a propagator of vines, than any other that has come to my knowledge.

Mr. Thomas Mechan, Editor of the Gardeners Monthly, October 14th, 1879, writes: "I find your plants of Pocklington Grape are growing finely. It is one of the best growers we have. From what I have seen of it, it is a very promising variety.

Bishop McQuaid. of Rochester, N. Y., who has a vineyard of 20 acres, tested the fruit last fall, 1880, and he expresses himself much pleased with its fine appearance, and says it is a delicious grape, and by far the best that has come under his observation.

The American Agriculturist says of it: "Of much better quality than Concord: intensely sweet and less of the Labrusca quality in the taste and the smell. The berry alh

every appearance of being a good keeper. The great size and copious bloom makes this grape most attractive to the eye."

"I saw the Pocklington, repeatedly, growing at Rochester. It was eatable, Sept. 1st; was in its glory, Sept. 15th; Was still good, Oct. 1st, when it had assumed a rich amber hue. While not the best in any one's opinion, it is a grape, the offering of which will give no offence to the most critical authority in the country. It is hardy, healthy, vigorous and productive—a grape that will succeed with the Concord."—Chas. A. Green, in "Country Gentlemen."

"It is undoubtedly a splendid grape."—A. M. Purdy. in "Fruit Recorder."

Mr. S. D. Willard, of Geneva, N. Y., writes Sept. 17th: Mr. Conover and myself have tested the Pocklington sample carefully, and are well pleased. The fact that it is hardy and does not mildew, is certainly a strong point in its favor, and with its very strong habit, I would take the chances of selling the fruit, if not as highly flavored as some exquisite sorts."

"The Pocklington is a hardy and healthy native, vigorous and productive; clusters large: berries green-ish-white, very large; flesh sweet and well flavored; when fully ripe better than Concord. "Green'r Fruit Grower."

General No. 1. Cont. 1. Cont. 1. Cont. 1. Cont. 27, 1880.

This is to Certify that the First Premium for the best new Seedling Grape, was awarded to the Hammond Nurseries, for the "Pocklington" Grape, exhibited by them at the Union Fair, held in Geneva, Sept. 21, 22, 23, 1880.

The Committee consisting of S. S. Graves, of Geneva: John Anderson, of Seneca Co., and James Stockstill, of Dayton, Ohio, in making the award, also made the following report:

"Your committee would call especial attention to the new Seedling Grape exhibited by the Hammond Nurseries, and grown by John Charlton, of Rochester, N. Y., the 'Pocklington,' to which they have awarded the premium for the best new Seedling Grape. The bunches are large and well formed; berries nearly twice the size of the 'Martha' and an infinitely better grape. The pulp is tender and sweet to the centre; color white; growth of the vine strong and healthy, ripening its wood as perfectly as the Concord, and like that variety it has thick, heavy foliage, rendering it proof against mildew and disease."

WILLIAM W. STACEY, Secretary,

BOSTON, Oct., 10th, 1880.

"I am much pleased with the Pocklington Grape, and desire to graft an old vine in my vineyard with it. If you could spare me a few scions of about one-third of an inch in diameter. I should be glad to receive them, and be happy to reciprocate with anything I possess."

MARSHALL P. WILDER.

The following FIRST PREMITUMS have been awarded to the Pocklington Grape: Western New York Fair, 1878; Provincial Exposition, Toronto, 1880, and at many County Fairs.

Marion D. Egbert, of Lebanon, Ohio, in an address delivered before the Indiana State Horticultural

Fairs.

Marion D. Egbert, of Lebanon, Ohio, in an address deliverel before the Indiana State Horticultural Society, at Muncio, Sept. 2, 1880, said: Among the new varieties of grapes that are candidates for public favor is the Pocklington: that, from what I know of it, and what is said of it in the East, I condially recommend it to you as a grape that will, in my opinion, more than fulfil all that is claimed for it."

The foregoing is only apart of the mass of testimony we have in favor of this Grape, and proves that it is only necessary for the public to become satisfied of its merits to secure for it the largest sale of any grape ever offered in this country. Is is perfectly hardy, wonderfully productive, and bears very young. It has grown rapidly in favor with the leading pomologists of this section of the country, such parties as Marshall P. Wilder. President of U. S. Pomological Society, Ellwanger & Barry, H. E. Hooker, Ex-president of Western N. Y. Horticultural Society, and many others having secured vines for their own collections.

It was pronounced ripe by H. E. Hooker, and other nurserymen, who examined bearing vines in this city, on the 6th September last, and on the 6th November, following, we picked perfect specimens from the same vines, which had been hanging there ripe two months without any signs of dropping, cracking or rotting, which is a most remarkable circumstance, and one of the strongest points in its favor with vineyardists who are raising grapes for market, as they want something that will last on the vine after ripening, so they can dispose of them at leisure. During the past winter it has withsood a temperature of thirty-four degrees below zero on Mr. Pocklington's place without the slightest injury.

Having unlimited faith in the growing popularity of the Pocklington Grape, we have secured the exclusive control of all the stock in the market for Fall of 18s1 and Spring of 1882, and believe the demand will justify the outlay.

Orders for this grape will be filled by mail or express pr

per dozen.

The Roland Chilled Plow.

There is no farm implement which has been so greatly improved during the past five ars as THIS PLOW, and the Roland Chilled stands pre-eminent amongst the best, as

THE BEST PLOW IN AMERICA.

Its superiority over common cast plows is so great that hundreds of farmers have rown aside their entire stock of old fashioned Plows, being convinced that they would ve money by doing this and replacing with the "Roland Chilled." Send for descripted circular, setting forth the reasons why we claim so much, and giving full description the various sizes, with prices, &c.

Office, Factory and Warehouses all connected by Private Line of elephone.

Endorsed and recommended by the medical profession, for Dyspepsia, General Debility, Female Diseases, Want of Vitality, Nervous Frostration, and Convalescence from Fevers, &c.

GENTIEMEN: I was suffering from general debility to such an extent that my labor was exceedingly burdensome to me. A vacation of a month did not give me much relief, but on the contrary, was followed by increased prostration and sinking chills. At this time I began the use of your IRON TONIC, from which I realized almost immediate and wonderful results. The old energy returned and I found that my natural force was not permanently abated. I have used three bottles of the Tonic, Since using it I have done twice the labor that I ever did in the same time during my illness, and with double the case. With the tranquil nerve and vigor of body, has come also a clearness of thought never before enjoyed. If the Tonic has not done the work, I know not what. I give it the credit

The Iron Tonic is a preparation of Protoxide of Iron. Peruvian Bark, and Phosphates. associated with the Vegetable Aromatics. It serves every purpose where a Tonic is necessary.

A TREATISE ON

THE HORSE

and His Diseases.

By B. J. KENDALL, M. D.

FULL OF VALUABLE AND PRAC-TICAL INFORMATION,

AND CONTAINING

An Index of Diseases,

WHICH GIVES the Symptoms, cause and the Best Treatment of each. A table giving all the principal drugs used for the Horse, with the ordinary dove, effects, and antidote when a poison. A table with an engraving of the Horse's teeth at different ages, with rules for telling the age of the Horse. 65 engravings showing the important points in the structure of the Horse, also illustrating positions assumed by sick horses in different diseases. A valuable collection of receipts, many of which would cost a horse-owner three to five dollars each.

EVERY FARMER SHOULD OWN THIS LOOK

Thousand who have seen it commend it, and many good horsemen have extolled it in the highest terms, even stating that they prefer it to books which cost \$5.00 to \$10.00.

BUY KENDALL'S TREATISE.

A book of 100 pages, in paper covers, giving you more practical information than is contained in some large volumes at far higher cost.

R, FORTER, General Manager,

TO WHEAT GROWERS!

The undersigned PIONEER, in the manufacture of Fertilizers in this city and Originator in 1858 of the formulas and processes of manufacture of

"Excelsior" and "Ammoniated Phosphate"

so well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers as Manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the Farmer—combining all the stimulating qualities of Peruvian Guano, and the ever-durable fertilizing properties of Bones, in fine, dry powder, prepared expressly for drilling, it is the universal opinion of the Farmers of Maryland and Virginia, after over twenty years experience in the use of the Excelsion manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for Manufacturing, I challenge competition with any Fertilizer sold in the United States in QUALITY,

MECHANICAL CONDITION and PRICE.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manufacture—as for the past twenty years,

UNIFORM QUALITY IS GUARANTEED.

Farmers to secure the ONLY GENUINE EXCELSIOR and PHOS-PHATE, prepared according to my original Formulas established in 1858, should see that every Bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

LAND PLASTER

Was introduced into the United States by Benjamin Franklin, aud first used by him in this country on his farm near Philadelphia. He divided a lot bordering on one of the principal thoroughfares leading from the city, into two sections, and the signs which he erected called the attention of the passers-by to the fact that "This part of the lot has been sown with Plaster of Paris," and "This part had not been sown." The effect of the plaster was remarkable, almost doubling the production of grass, and forthwith the demand for the new fertilizer became very great, and importations of it was the result.

Much might be written about its value to farmers, but they have

TESTED ITS MERITS

and they know, while other fertilizers have proved worthless,

PLASTER CONTINUES TO ENDURE THE TEST

and the steady increase in its sales is the best evidence of its growing popularity. It is doubtless the

Cheapest Fertilizer in Existence.

The analysis of this plaster is about 20 per cent. richer, in the essential element which makes the plaster of value for agricultural purposes, namely, Sulphate of Lime, than in plaster usually sold.

Save the Expense of Building a Brick Chimney

Our Fire Clay Chimney Pipe does not rust nor crack by heat nor crumble from frost. It has been used to years for Dwellings, Schools, Churches, &c. No danger from fire as it does not communicate heet to wood. Insurance Companies have decided it to be a safer Chimney than brick. It is equally as solid and no bricks nor brick-layer are required; any one can put it up. Each section is two feet long and rests in the bowl of the next. We show four forms of construction. A complete chimney to use in 2 stories can be furnished for about \$5.

HALLOCK'S

IMPROVED

SEED DRILL.

This machine will sow in drills all kinds of seeds from beet down to the smallest seeds, without regard to weight, shape or size, with regularity, and without failure, as long as there is seed in the hopper, and will do the work with one man, that would take a half dozen men a given time. It can be sent anywhere by R. R. or Express, on receipt of the price, which is only \$5.00.

It is upon the principle of the old English hand seed drills, with the revolving brush used for many

years in England. Address.

WHITMAN, E. Ed. Md. Farmer.

Munson's Infallible Indelible Ink

SUN MUTUAL AID SOCIETY,

OF BALTIMORE CITY.

-INCORPORATED 1880.-

COL. EDWIN WILMER, Manager.

Home Office, No. 11 S. Gay Street.

OFFICERS.

SAMUEL BLACK, - - - - President.
WOODWARD ABRAHAMS, - - - Vice-President.
R. W. L. RASIN, - - - - Treasurer.
E. M. WILMER, - - - - Secretary.

The Officers and References are gentlemen of well known business and professional standing and reputation.

THE OBJECT OF THE ASSOCIATION IS

1st. To secure to its members or their heirs a sum of money at a time when it is most needed.
2d. To insure such benefits at the lowest cost.

RELIABILITY.

The principles on which the Society is founded are as old as history, the funds are held by the members, themselves until needed to pay dues and benefits.

MEMBERSHIP.

Any person, MALE OR FEMALE, in good health, between the ages of 20 and 60 may become members of the Association.

PRACTICAL WORKING.

The members agree to pay annual dues, (for current expenses) and assessments as rated, until such assessments shall exceed the amount required to pay a certificate in full; when they will be assessed only such a pro rata proportion as may be necessary to make up the sum needed. To pay a certificate, all the members will be assessed AS RATED in the tables, and cannot be assessed for more.

EXAMPLE.

Take an assessment on a certificate of \$1250; all who hold certificates for that amount will be assessed as rated, according to their ages. As for instance, persons from 30 to 40 would be assessed ONE DOLLAR. Certificates of \$2500 would be assessed to meet a loss of \$1250, one-half the amount as rated; and certificates for \$5000, one-fourth their rated assessment. Thus the plan is purely mutual and strictly equitable.

PERMANENT DISABILITY.

In case a member should become permanently disabled, FIFTY PER CENT. of the value of their certificates will be paid to them then, and fifty per cent. more at maturity of years; or to their heirs at death. This is manifestly a most benevolent and desirable provision.

MATURITY OF YEARS.

Members who live to their years of expectancy, will be paid in their life-time the amount of their certificate, (old age, in a majority of cases, is a time of most need.

EXAMPLE.

Take a person 40 years of age at the time of joining. Their expectation of life, as per the Carlisle Tables, is 27 years. Should such a person live to be 67 years of age, he or she would then receive, IN CASH (in their life-time,) the amount of their certificate.

SPECIAL FEATURES.

The permanent disability provision and the payment to living members, of matured certificates, render membership in this Association MORE DESIRABLE than in Societies that pay benefits in case of death ONLY.

WHO ARE SPECIALLY INTERESTED.

Every member has a personal interest in the growth and welfare of the Society, and should be active in inducing others to become members, as the larger the membership the LESS witl be the assessments, and the GREATER the value of the certificates.

AGENTS OF BOTH SEXES WANTED.

BARB

The great question among the farmers the world over is, "What makes the best and cheapest fence?" As far as the United States is concerned we may fairly consider the question answered in favor of "Barb Wire," as over fifty thousand miles of it were put up during the past year, and yet the business is just in its infancy, and there is no doubt in the minds of those conversant with the subject, that Barb Fence will soon be acknowledged as THE FENCE of the world.

We have a superior quality of this fence, and carry a larger stock than any house this side of New York. Although our wire is worth 25 per cent. more than any other make, it is sold as low as any in the market. Send for circulars or call upon.

E. WHITMAN, SONS & CO., 141 WEST PRATT STREET.

THE BEST OF ALL

FOR MAN AND BEAST

For more than a third of a century the Mexican Mustang Liniment has been known to millions all over the world as the only safe reliance for the relief of accidents and pain. It is a medicine above price and praise—the best of fix kind. For every form of external pain the

Mustang Liniment is without an equal. It penetrates flesh and muscle to he very bone—making the continuance of pain and inflammation impossible. Its effects upon Human Flesh and the Brute Creation are equally wonderful. The Mexican

by somebody in Linment is needed by somebody in every house. Every day brings news of the agony of an awful scald or burn subdued, of rheumatic martyrs re-stored, or a valuable horse or ox stored, or a valuable horse or saved by the healing power of this

which speedily cures such ailments of the HUMAN FLESH as
Rheumatism, Swellings, Stiff Joints, Contracted Muscles, Burns and Scalds, Cuts, Bruises and Sprains, Poisonous Bites and Stings, Stiffness, Lameness, Old Sores, Ulcers, Frostbites, Chilblains, Sore Nipples, Caked Breast, and indeed every form of external disease. It heals without scars. For the BRUTE CREATION it cures Sprains, Swinny, Stiff Joints, Founder, Harness Sores, Hoof Diseases, Foot Rot, Screw Worm, Scab, Hollow Hern, Scratches, Windgalls, Spavin, Thrush, Ringbone, Old Sores, Poll Evil, Film upon the Sight and every other ailment to which the occupants of the Stable and Stock Yard are lieble. The Mexican Mustang Liniment always cures and never disappoints; and it is, positively.

KENDALI'S SPAVIN GURE

KENDALL 1 It cures Spavins, Splints, blistering. For man it is now known to be one of Ringbones, Curbs and all similar blemishes and rethe best if not the best liniment ever discovered. moves the bunch without

THE MOST SUCCESSECL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

KENDALL'S SPAVIN CURE.

B. J. KENDALL & Co,—Gents:—This is to ceatify than I have used Kendall's Spavin Cure and have found it to be all it is recommended to be, and in fact more too; I have removed by using the above, Callous, Bone Spavins, Ring Bones, Splints, and can cherrfully testify and recommend it to be the best thing for any bony substance 1 have ever used, and I have tried many, as I have made Respectfully yours, that my study for years.

P. V. CRIST.

KENDALL'S SPAVIN CURE.

The following letter was written to our agent in Louisville, Kentucky, by the owner of the stage route from Lebanon, Ky., to Campbellsville, who is well known throughout the State,

CAMPBELLSVILLE, KY., Jan. 30th, 1878. , J. W. Morrill & Co.. Louisville, Ky.—Gents:—The Kendall's Spavin Cure you sent me some time ago has proved invaluable in all cases for which I used it: sprains, sore back, galled shoulders, windgalls and scratches. Fortunately, I did not have any stock with spavins at the time. Yours respectfully, GEORGE BORDERS.

KENDALL'S SPAVIN CURE.

SAVANNAH, GA., Dec. 23, 1880.

Dr. B. J. KENDALL & Co, -Gents: -Enclosed please find 25 cents for which send me one of your new horse books and oblige. I have tried your Kendall's Spavin Cure in a case of Rheumatic Gout and find it an excellent remedy.

Yours, &c., &c.,

J. W. HUNT.

KENDALL'S SPAVIN CURE.

WILTON, MINN., Jan. 11th, 1881.

B. J. KENDALL & Co.,—Gents:—Having got a horse book of you, by mail, a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses, which was badly swollen and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure, of Preston & Luddeth, druggists of Waseca, which completely cured my horse. About five years ago I had a three year old colt sweenied very bad, I used your remedy as given in your book, without rowelling, and I must say to your credit that the colt is entirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of 25 cents, and if I could not get another like it, I would not take twenty five dollars for it. GEO. MATHEWS. Yours truly,

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

WEST ENOSBURGH, VT., Feb. 15th. 1881.

Dr. B. J. KENDALL & Co., -Gents: -Several months ago I injured my knee joint, which caused an enlargement to grow, the size of a large walnut, and caused me very severe pain all the time for four or five weeks, when I began to use Kendall's Spavin Cure, with the most satisfactory results. It has completely removed the enlargement and stopped the lameness and pain. I have long known it to be excellent for horses, but now I know it to be the best liniament for human flesh that I am ac-Yours truly, T. P. LAWRENCE. quainted with.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price \$1 per bottle, or 6 bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, Dr. B. J. KENDALL & Co., Enosburgh Falls, Vt.

Sold by all Druggists.

Orders for any of the above stock received at the office of the Maryland Farmer. No. 14t Pratt Street, Paltimore, Md. apriy

Yourselves by making money when a golden chance is offered, the reby always keeping poverty from your door. Those who always take advantage of the good chances for making money that are offered, generally become wealthy, while those who do not he prove such chances remain in poverty. We want many men, women, boys and girls to work for us right in their own localities. The business will pay more than ten times ordinary wages. We furnish en expensive outfit gnd all that you need, free. No one who engages fails to make money very rapidly. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed sent free. Address Stinson & Co., Portland, Maine.

MAKE HENS LAY

An English Setennary surgeon and Chemist, now traveling in this country, says that most of the Horse and Cattle Powders sold here are worthless trash. He says that Sheridan's Condition Powders are absolutely pure and immensely valuable. Nothing on earth will make hens lay like Sheridan's Condition Powders. Dose, one teaspoonful to one pint food. Sold everywhere, or sent by mail for eight letter stamps. I. S. JOHNSON & OO., Boston, Mass., formerly Bangor Me.

Rent paid two-and-a-quarter-years buys one.

Items of Interest.

Such has been the recent damage to the British crops that the current wheat deficiency in the United Kingdom is estimated at 125,000,000 bushels.

Both for its effect upon fattening and upon health, a small amount of leeched wood ashes should be given to swine. The food without this is rich in phosphoric acid, but has little lime, and the equivalent should be thus supplied.

The dependence of the farmer is to be more and more on stock. Stock itself and its products are more and more in demand, while the manure must be had to make farming successful. Success with stock, then, includes almost everything else.

The official statistics of our reports to foreign countries to June 30, 1881, show that America sent abroad 31,560,500 lbs. of butter worth \$6 256,024; and of cheese, 147,995,614 pounds, worth \$16,380,248. These figures show that the dairy interest of this country is a very large one.

The Dublin Farmer claims that a full feed of hay to horses, to follow concentrated food, is wasteful, and crowds the latter out of the stomach before proper digestion oc-This authority claims that the hay should be fed first to avoid the above mentioned trouble. A hearty drink of water upon a full stomach also operates to push its contents into the intestines before there is proper digestion.

A GOOD FENCE IDEA.—A western farmer writes to one of our exchanges as follows:-Every farmer has his idea about fences. I have mine. Here they are: Raise black walnut posts on the lot where they are wanted. If they grow fast they will do in from five to seven years. the barb wire. Fasten brush on the top so that horses and cattle can see it. Black walnut injures crops the least of any green tree that I am acquainted with. No stock will gnaw or hurt it. The roots run straight down so you can plow against the trunk. The tree gives black color to the soil as far as the leaves reach. It grows straight and tall, and has but very few limbs. working of the tree will not break the wire. Black walnut will pay all expenses in a few years in fruit.—P. E. D., Kalama. zoo, Mich,

The American wheat acreage is spreading in advance of the rate of increase in population, hence larger quantities will be available year by year for export.

It is said that, nothwithstanding the frosts of the past season, Florida will send 50,-000,000 oranges to market this year.

Heavy and almost constant rains in the West and Northwest for some weeks have caused a heavy rise in the rivers. uation along the Mississippi grows alarming.

Neuralgia, Sciatica, Lumbago,

Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains,

Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals St. Jacobs Oil as a sufe, sure, simple and cheap External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

Directions in Eleven Languages.

SOLD BY ALL DRUGGISTS AND DEALERS IN MEDICINE.

> VOGELER & CO., Baltimore, Md., U. S. A.

For \$12.00 a Farmer can buy a formula (520 lb) of POWELL'S PREPARED CHEMICALS for WHEAT.

This, when mixed at home, makes ONE TON of SUPERIOR PHOSPHATE, which is equal in plant-life and as certain of successful crop production as many of the high-priced Phosphates.

No trouble to mix; no extra expense. Full directions.

Powell's Chemicals have been thoroughly tried, give universal satisfaction, and we offer leading farmers in every state as reference.

Send for Pamphlet. BEWARE OF IMITATIONS.

BROWN CHEMICAL CO., Baltimore, Md., Sole Proprietors.

(Powell's Tip-Top Bone Fertilizer, price only \$30 a ton net cash.

MANUFACTURERS OF Pure Bone Meal, Pure Dissolved Bone, Potash, Ammonia, and all high-grade Fertilizing Materials.

Powell's Tip Top Bone Fertilizer.

Only one Price--\$30.00 a ton Cash. No Commissions to Agents.

SPECIAL NOTICE.

The "Tip Top bone fertilizer, as will be seen by analysis, is very rich in plant food. We put it on the Market as being much cheaper and equally as good as many of the higher priced brands that are now sold. The analysis of this fertilizer is guaranteed, and is in the best mechanical condition for drilling. There is not one pound of earth or foreign matter used in making the compound. These facts, with the high chemical value and low price of the "Tip Top," will make it fill a demand made by a great many farmers for a cheap and efficien-Fertilizer where they have not the time or means of manipulating chemicals successfully.

GIVE IT A TRIAL.

A pamphlet giving full description of our goods and testimonials from leading farmers as to their qualities, mailed to any address on application to

BROWN CHEMICAL CO., 20 S., Hanover St., Baltimore,

MRS. LYDIA E. PINKHAM, OF LYNN, MASS.,

LYDIA E. PINKHAM'S

VEGETABLE COMPOUND.

Is a Positive Cure

for all those Painful Complaints and Weaknesses so common to our best female population.

It will cure entirely the worst form of Female Complaints, all ovarian troubles, Inflammation and Ulceration, Falling and Displacements, and the consequent Spinal Weakness, and is particularly adapted to the Change of Life.

It will dissolve and expel tumors from the uterus in an early stage of development. The tendency to cancerous humors there is checked very speedily by its use.

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times and under all circumstances act in

harmony with the laws that govern the female system. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S VEGETABLE COM-POUND is prepared at 233 and 235 Western Avenue, Lynn, Mass. Price \$1. Six bottles for \$5. Sent by mail in the form of pills, also in the form of lozenges, on receipt of price, \$1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Send for pamphlet. Address as above. Mention this Paper.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, billousness, and torpidity of the liver. 25 cents per box.

Haliett & Co Portland, Maine. Noviy

The Roland Chilled Plow.

There is no farm implement which has been so greatly improved during the past five ears as This Plow, and the Roland Chilled stands pre-eminent amongst the best, as

THE BEST PLOW IN AMERICA.

Its superiority over common cast plows is so great that hundreds of farmers have hrown aside their entire stock of old fashioned Plows, being convinced that they would save money by doing this and replacing with the "Roland Chilled." Send for descriptive circular, setting forth the reasons why we claim so much, and giving full description of the various sizes, with prices, &c.

Baltimore Plow Co.,

Office and Salesrooms, FACTORY, Warehouses,

104 South Charles Street. 204 South Howard Street. 227 & 229 S. Howard Street.

Office, Factory and Warehouses all connected by Private Line of Telephone.

Endorsed and recomnended by the mediprofession, for Dyspepsia, General Debitty, Female Disases, Want of Vitalty, Nervous Frostraion, and Convalestencefrom Fever, &c.

GENTLEMEN: I was suffering from general debility to such an extent that my labor was exceedingly burdensome to me. A vacation of a month did not give me much relief, but on the contrary, was followed by increased prostration and sinking chills. At this time I began the use of your Ison Tonic, from which I realized almost immediate and wonderful results. The old energy returned and I found that my natural force was not permanently abated. I have used three bottles of the Tonic, Since using it I have done twice the labor that I ever did in the same time during my illness, and with double the ease. With the tranquil nerve and vigor of body, has come also a clearness of thought never before enjoyed. If the Tonic has not done the work, I know not what. I give it the credit.

J. P. WATSON, Pastor Christian Church, Troy, O.

The Iron Tonic is a preparation of Protoxide of Iron. Peruvian Bark, and Phosphates, associated with the Vegetable Aromatics. It serves every purpose where a Tonic is necessary.

The Sciggwick STEEL WIRE FENCE,

Is the only general purpose wire fence in use. Lefing a strong net work without barbs; it will turn does fligs, poultry, as well as the most victions stock, without danger to either fence or stock. It is just the fence for "armers gardeners, stockralsers, and rail-roads, very desirab". To lawns, parks or cemeteries. As it is covered with use-proceed, and ar better than barbed wire. We ask for its a fair trial, knowing it will wear itself into favor. We also manufacture the Automate or Self-opening date. The utility of self-ocening gates are more and more appreciated. The styd of self-ocening gates are more and more appreciated. The styd self-order and address, and are left and durability. Ask hardware dealers, or for price list and particulars address hardware dealers, or for price list and particulars address.

A TREATISE ON

THE HORSE

and His Diseases.

By B. J. KENDALL, M. D.

FULL OF VALUABLE AND PRAC-TICAL INFORMATION,

AND CONTAINING

An Index of Diseases,

WHICH GIVES the Symptoms, cause and the Best Treatment of each. A table giving all the principal drugs used for the Horse, with the ordinary dose, effects, and antidote when a poison. A table with an engraving of the Horse's teeth at different ages, with rules for telling the age of the Horse. 65 engravings showing the important points in the structure of the Horse, also illustrating positions assumed by sick horses in different diseases. A valuable collection of receipts, many of which would cost a horse-owner three to five dollars each.

EVERY FARMER SHOULD OWN THIS BOOK

Thousand who have seen it commend it, and many good horsemen have extolled it in the highest terms, even stating that they prefer it to books which cost \$5.00 to \$10.00.

BUY KENDALL'S TREATISE.

A book of 100 pages, in paper covers, giving you more practical information than is contained in some large volumes at far higher cost.

Send orders to

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints, Spavins, Splints, Spavins, Splints, Spavins, Splints, Spavins, Spa

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

KENDALL'S SPAVIN CURE.

B. J. KENDALL & Co.,—Gents:—This is to ceatify than I have used Kendall's Spavin Cure and have found it to be all it is recommended to be, and in fact more too; I have removed by using the above, Callous, Bone Spavins, Ring Bones, Splints, and can cheerfully testify and recommend it to be the best thing for any bony substance 1 have ever used, and I have tried many, as I have made that my study for years.

Respectfully yours,

P. V. CRIST.

KENDALL'S SPAVIN CURE.

The following letter was written to our agent in Louisville, Kentucky, by the owner of the stage route from Lebanon, Ky., to Campbellsville, who is well known throughout the State,

J. W. Morrill & Co.. Louisville, Ky.—Gents:—The Kendall's Spavin Cure you sent me some time ago has proved invaluable in all cases for which I used it: sprains, sore back, galled shoulders, windgalls and scratches. Fortunately, I did not have any stock with spavins at the time.

Yours respectfully, GEORGE BORDERS.

KENDALL'S SPAVIN CURE.

SAVANNAH, GA., Dec. 23, 1880.

Dr. B. J. KENDALL & Co.,—Gents:—Enclosed please find 25 cents for which send me one of your new horse books and oblige. I have tried your Kendall's Spavin Cure in a case of Rheumatic Gout and find it an excellent remedy.

Yours, &c., &c.,

J. W. HUNT.

KENDALL'S SPAVIN CURE.

WILTON, MINN., Jan. 11th, 1881.

B. J. KENDALL & Co.,—Gents:—Having got a horse book of you, by mail, a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses, which was badly swolien and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure, of Preston & Luddeth, druggists of Waseca, which completely cured my horse. About five years ago I had a three year old colf sweenied very bad, I used your remedy as given in your book, without rowelling, and I must say to your credit that the colf is entirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of 25 cents, and if I could not get another like it, I would not take twenty-five dollars for it.

Yours truly,

GEO. MATHEWS.

KENDALL'S SPAVIN CURE ON HUMAN FLESH.

WEST ENOSBURGH, VT., Feb. 15th, 1881.

Dr. B. J. KENDALL & Co.,—Gents:—Several months ago I injured my knee joint, which caused an enlargement to grow, the size of a large walnut, and caused me very severe pain all the time for four or five weeks, when I began to use Kendall's Spavin Cure, with the most satisfactory results. It has completely removed the enlargement and stopped the lameness and pain. I have long known it to be excellent for horses, but now I know it to be the best liniament for human flesh that I am acquainted with.

Yours truly,

T. P. LAWRENCE.

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price \$1 per bottle, or 6 bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, Dr. B. J. KENDALL & Co., Enosburgh Falls, Vt.

Sold by all Druggists.

TO WHEAT GROWERS!

The undersigned PIONEER, in the manufacture of Fertilizers in this city and Originator in 1858 of the formulas and processes of manufacture of

"Excelsior" and "Ammoniated Phosphate"

so well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers as Manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the Farmer—combining all the stimulating qualities of Peruvian Guano, and the ever-durable fertilizing properties of Bones, in fine, dry powder, prepared expressly for drilling, it is the universal opinion of the Farmers of Maryland and Virginia, after over twenty years experience in the use of the Excelsior manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for Manufacturing, I challenge competition with any Fertilizer sold in the United States in QUALITY,

MECHANICAL CONDITION and PRICE.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manufacture—as for the past twenty years,

UNIFORM QUALITY IS GUARANTEED.

Farmers to secure the ONLY GENUINE EXCELSIOR and PHOS-PHATE, prepared according to my original Formulas established in 1858, should see that every Bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

LAND PLASTER

Was introduced into the United States by Benjamin Franklin, and st used by him in this country on his farm near Philadelphia. He vided a lot bordering on one of the principal thoroughfares leading om the city, into two sections, and the signs which he erected called the attention of the passers-by to the fact that "This part of the lot has een sown with Plaster of Paris," and "This part had not been sown." he effect of the plaster was remarkable, almost doubling the production of grass, and forthwith the demand for the new fertilizer became ery great, and importations of it was the result.

Much might be written about its value to farmers, but they have

TESTED ITS MERITS

and they know, while other fertilizers have proved worthless,

PLASTER CONTINUES TO ENDURE THE TEST

and the steady increase in its sales is the best evidence of its growing popularity. It is doubtless the

Cheapest Fertilizer in Existence.

The analysis of this plaster is about 20 per cent. richer, in the essential element which makes the plaster of value for agricultural purposes, namely, Sulphate of Lime, than in plaster usually sold.

TO COTTON GROWERS. J. J. TURNER & CO., "EXCELSIOR,"

1858

1881

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvain Guano, and the ever durable fertilizing properties of Rones. In fine dry powder, prepared expressly for drilling.

Bones. In fine dry powder, prepared expressly for drilling.

After twenty-three Years' experience by the Planters of Maryland and Virginia in the use of "EX-CELSIOR," it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaper

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvain Guano for sale,

TO COTTON GROWERS. J. J. TURNER & CO.,

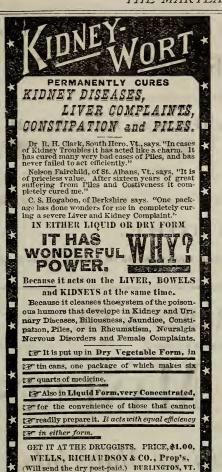

BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against conterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMEL FOR THE FUTURE.

HALLOCK'S

IMPROVED

SEED DRILL.

This machine will sow in drills all kinds of seeds from beet down to the smallest seeds, without regard to weight, shape or size, with regularity, and without failure, as long as there is seed in the hopper, and will do the work with one man, that would take a half dozen men a given time. It can he sent anywhere by R. R. or Express, on receipt of the price, which is only \$5.00.

It is upon the principle of the old English hand seed drills, with the revolving brush used for many

years in England. Address.

OFFICERS.

SAMUEL BLACK, President. WOODWARD ABRAHAMS, Vice-President. R. W. L. RASIN, E. M. WILMER. Treasurer. Secretary.

The Officers and References are gentlemen of well known business and professional standing and reputation.

THE OBJECT OF THE ASSOCIATION IS

1st. To secure to its members or their heirs a sum of money at a time when it is most needed.
2d. To insure such benefits at the lowest cost.

RELIABILITY.

The principles on which the Society is founded are as old as history, the funds are held by the members, themselves until needed to pay dues and benefits.

MEMBERSHIP.

Any person, MALE OR FEMALE, in good health, between the ages of 20 and 60 may become members of the Association.

PRACTICAL WORKING.

The members agree to pay annual dues, (for current expenses) and assessments as rated, until such assessments shall exceed the amount required to pay a certificate in full; when they will be assessed only such a pro rata proportion as may be necessary to make up the sum need. To pay a certificate in full; when they will be assessed only such a pro rata proportion as may be necessary to make up the sum need. cate, all the members will be assessed AS RATED in the tables, and cannot be assessed for more.

EXAMPLE.

Take an assessment on a certificate of \$1250; all who hold certificates for that amount will be assessed as rated, according to their ages. As for instance, persons from 30 to 40 would be assessed one dollar. Certificates of \$2500 would be assessed to meet a loss of \$1250, one-half the amount as rated; and certificates for \$5000, one-fourth their rated assessment. Thus the plan is purely mutual and strictly equitable.

PERMANENT DISABILITY.

In case a member should become permanently disabled, FIFTY PER CENT. of the value of their certificates will be paid to them then, and fifty per cent. more at maturity of years; or to their heirs at death. This is manifestly a most benevolent and desirable provision.

MATURITY OF YEARS.

Members who live to their years of expectancy, will be paid in their life-time the amount of their certificate, (old age, in a majority of cases, is a time of most need.

EXAMPLE.

Take a person 40 years of age at the time of joining. Their expectation of life, as per the Carlisle Tables, is 27 years. Should such a person live to be 67 years of age, he or she would then receive, IN CASH (in their life-time,) the amount of their certificate.

SPECIAL FEATURES.

The permanent disability provision and the payment to living members, of matured certificates, render membership in this Association MORE DESIRABLE than in Societies that pay benefits in case of death only.

WHO ARE SPECIALLY INTERESTED.

Every member has a personal interest in the growth and welfare of the Society, and should be active in inducing others to become members, as the larger the membership the LESS witl be the assessments, and the GREATER the value of the certificates.

If not satisfactory after a fair trial will refun I the money.

Mention this paper. jyly

For sale by all first-class Druggists.

AGENTS OF BOTH SEXES WANTED.

THE BARB WIRE FENCE.

The great question among the farmers the world over is, "What makes the best and cheapest fence?" As far as the United States is concerned we may fairly consider the question answered in favor of "Barb Wire," as over fifty thousand miles of it were put up during the past year, and yet the business is just in its infancy, and there is no doubt in the minds of those conversant with the subject, that Barb Fence will soon be acknowledged as THE FENCE of the world.

We have a superior quality of this fence, and carry a larger stock than any house this side of New York. Although our wire is worth 25 per cent. more than any other make, it is sold as low as any in the market. Send for circulars or call upon.

FOR MAN AND BEAST.

For more than a third of a century the Mexican Mustang Liniment has been known to millions all over the world as the only safe reliance for the relief of accidents and pain. It is a medicine above price and praise—the best of its kind. For every form of external pain

Mustang Liniment is without an equal.

It penetrates flesh and muscle to the very bone—making the continuance of pain and inflammation impossible. Its effects upon Human Flesh and the Brute Creation are equally wonderful. The Mexican

Liniment is needed by somebody in every house. Every day brings news of the agony of an awful scald or burn subdued, of rheumatic martyrs re-stored, or a valuable horse or ox stored, or a valuable horse or saved by the healing power of this

which speedily cures such ailments of the HUMAN FLESH as
Rheumatism, Swellings, Stiff Joints, Contracted Muscles, Burns and Scalds, Cuts, Bruises and Sprains, Poisonous Bites and Sprains, Poisonous Bites and Stings, Stiffness, Lameness, Old Sores, Ulcers, Frostbites, Chilblains, Sore Nipples, Caked Breast, and indeed every form of external disease. It heals without scars.
For the BRUTE CREATION it cures
Sprains, Swinny, Stiff Joints, Founder, Harness Sores, Hoof Diseases, Foot Rot, Screw Worm, Scab, Hollow Horn, Scratches, Windgalls, Spavin, Thrush, Ringbone, Old Sores, Poll Evil, Film upon the Sight and every other ailment to which the occupants of the Stable and Stock Yard are liable.
The Mexican Mustang Liniment always cures and never disappoints; and it is, positively,

PROPRIETORS.

This RESTAURANT is the oldest and most extensive in its accommodations of any in the city.

The BAR is filled with the finest of all kinds of LIQUORS. The TABLES are covered with the best substantial food the markets afford, besides, at the earliest moment they can be procured in the different seasons, every variety of delicacy that land and water furnish, in

BIRDS, GAME, FISH, FRUITS & VEGETABLES.

Prices moderate. The crowds, which lunch and dine daily, attest public approbation of the superior management of the house.

It is a convenient place for travellers, who stop only a few hours or a day in the city, to get their meals. It is the popular resort of country gentle-men from the counties, particularly from Southern Maryland, being convenient to Railroads and Steamboats, and in the midst of the business portion of the city.

The Proprietors will be grateful for the continuance of the extensive patronage they now enjoy, and will do their best to give entire satisfaction to all visitors

FARMERS LOOK AT THIS!

A Fire Engine in Your Well!

The "Success" Pump is the best in the market.

A WOMAN AND CHILD Can Extinguish a Fire.

A Double-Acting, Anti-Freezing

Foree and Suction Pump Combined.

Can be used either as submerged or Suction Pump.

Adapted to any kind of Well.

Will raise water 400 feet if required

This Pump having two cylinders (Brass) and piston rods, each of which are double acting, enables it to throw twice the amount of water of any other pump,

For simplicity and durability it excels as a deep well pump. It is so constructed as to be operated by either hand or machine, making a perfect Wind Mill Pump.

Each pump is furnished with hose attachment, and is most effective in case of fire. Write for Circulars, giving prices, &c., to

WINSLOW ALLDERDICE,

jy1y

For sale by all first-class Druggists.

AGENTS OF BOTH SEXES WANTED.

THE BARB WIRE FENCE.

The great question among the farmers the world over is, "What makes the best and cheapest fence?" As far as the United States is concerned we may fairly consider the question answered in favor of "Barb Wire," as over fifty thousand miles of it were put up during the past year, and yet the business is just in its infancy, and there is no doubt in the minds of those conversant with the subject, that Barb Fence will soon be acknowledged as THE FENCE of the world.

We have a superior quality of this fence, and carry a larger stock than any house this side of New York. Although our wire is worth 25 per cent. more than any other make, it is sold as low as any in the market. Send for circulars or call upon.

> ED. C. LEGG. KENT ISLAND, MD.

To THOSE who take an interest in poultry, we would call their attention to

Condimental Spice Food

which, although well and favorably known, in and around its place of manufacture, is little heard of beyond that, simply for the reason that the margin of profit is too small to admit of indiscriminate advertising to make its merits of avail to the general public.

Its use will cure all the diseases that affect poultry and put them in a good, thriving condition, and an increase of forty per cent. in the yield of eggs, can almost with a certainty be guaranteed.

Poultry fanciers recommend it for Exhibition birds, as it gives them a glos-

sy plumage and healthy looking combs.
The Spice Food is put up in packets, and is for sale at many feed stores. Full instructions accompany each, and they are within the reach of every one as they only cost THREE CENTS a packet.

Items of Interest.

The American wheat acreage is spreading in advance of the rate of increase in population, hence larger quantities will be available year by year for export.

It is reported that the Lake Erie vineyards will produce a very small wine crop this year; not more than one-third the natural yield.

Jay Gould controls \$650,000,000, but he always thumps a watermelon before buying it and insists on down weight when purchasing a pound of sugar.

Speaking of the terrible drought, there was a tramp in town this morning soliciting "ten cents to buy something to eat," and when he was charged with imbibing too freely, he said he "hadn't drank a drop for six months." His nose looked like an over-ripe tomato, but a lon,; dry spell has that effect, we believe.—Nor. Herald.

There is not one millionaire in New York—not one who has not been offered the presidency of the World's Fair. As soon as the originators of the scheme come to understand that a man worth not more than fifty thousand can engineer a world's fair as successfully as a man who owns millions, the enterprise may assume a promising shape.

Dr. Gunther says there are seven thousand species of fish now known to men of science. When a man sits on the river bank half a day watching a cork idly floating on the stream, and comes home with a sun-burned nose and not a single specimen of these seven thousand species, he is inclined to think that Dr. Gunther is a patent medicine advertisement.—Nor. Herald.

It is said that, notwithstanding the frosts of the past season, Florida will send 50,000,000 oranges to market this year.

Both for its effect upon fattening and upon health, a small amount of leeched wood ashes should be given to swine. The food without this is rich in phosphoric acid, but has little lime, and the equivalent should be thus supplied.

The dependence of the farmer is to be more and more on stock. Stock itself and its products are more and more in demand, while the manure must be had to make farming successful. Success with stock, then, includes almost everything clse,

Such has been the recent damage to the British crops that the current wheat deficiency in the United Kingdom is estimated at 125,000,000 bushels.

We are told that Mr. Handy, of Cincinnati, made over two millions of dollars "in a wheat deal." That's a good deal—a great deal more than was ever made in a poker deal; and is not as wicked as the latter, though the parties who were "enriched" and lost the two millions must wish the "old de'il" had the winner of the deal.

CERMAN PEMEDY.

Meitami

Neuralgia, Sciatica, Lumbago,

Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains,

Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals St. Jacobs Oil as a safe, sure, simple and cheap External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

Directions in Eleven Languages.

SOLD BY ALL DRUGGISTS AND DEALERS IN MEDICINE.

A. VOGELER & CO., Builtmore, Ma., V. S. d.

For \$12.00 a Farmer can buy a formula (520 lb) of POWELL'S PREPARED CHEMICALS for WHEAT.

This, when mixed at home, makes ONE TON of SUPERIOR PHOSPHATE, which is equal in plant-life and as certain of successful crop production as many of the high-priced Phosphates.

No trouble to mix; no extra expense. Full directions.

Powell's Chemicals have been thoroughly tried, give universal satisfaction, and we offer leading farmers in every state as reference.

Send for Pamphlet. BEWARE OF IMITATIONS.

BROWN CHEMICAL CO., Baltimore, Md., Sole Proprietors.

Powell's Tip-Top Bone Fertilizer, price only \$30 a ton net cash.

MANUFACTURERS OF Pure Bone Meal, Pure Dissolved Bone, Potash, Ammonia, and all high-grade Fertilizing Materials.

Powell's Tip Top Bone Fertilizer.

Only one Price--\$30.00 a ton Cash. No Commissions to Agents.

SPECIAL NOTICE.

The "Tip Top bone fertilizer, as will be seen by analysis, is very rich in plant food. We put it on the Market as being much cheaper and equally as good as many of the higher priced brands that are now sold. The analysis of this fertilizer is guaranteed, and is in the best mechanical condition for drilling. There is not one pound of earth or foreign matter used in making the compound. These facts, with the high chemical value and low price of the "Tip Top," will make it fill a demand made by a great many farmers for a cheap and efficien-Fertilizer where they have not the time or means of manipulating chemicals successfully.

GIVE IT A TRIAL.

A pamphlet giving full description of our goods and testimonials from leading farmers as to their qualities, mailed to any address on application to

BROWN CHEMICAL CO., 29 S. Hanover St., Baltimore,

Febly

MRS. LYDIA E. PINKHAM, OF LYNN, MASS.,

LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

Is a Positive Cure

for all those Painful Complaints and Weaknesses so common to our best female population.

It will cure entirely the worst form of Female Complaints, all ovarian troubles, Inflammation and Ulceration, Falling and Displacements, and the consequent Spinal Weakness, and is particularly adapted to the Change of Life.

It will dissolve and expel tumors from the uterus in an early stage of development. The tendency to canserous humors there is checked very speedily by its use.

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times and under all circumstances act in harmony with the laws that govern the female system.

For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S VEGETABLE COM-POUND is prepared at 233 and 235 Western Avenue, Lynn, Mass. Price \$1. Six bottles for \$5. Sent by mail in the form of pills, also in the form of lozenges, on receipt of price, \$1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Send for pamph-Address as above. Mention this Paper.

Ne family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Sold by all Druggists.

I. L. CRAGIN & CO.,

No. 16 South Fourth Street, PHILADELPHIA, PA. Mayly

It makes smooth and even lumber, leaves no stubshot, and will cut any sized log up to four feet in diameter. It may be transported from one locality to another and re-erected ready for sawing in from two to three days, and can be made profitable in localities where there is not sufficient timber to justify the erection of a large mill. Send for descriptive circular, price, etc., to

Office, Factory and Warehouses all connected by Private Line of lelephone.

Endorsed and recommended by the medical profession, for Dyspepsia, General Debility, Female Diseases, Want of Vitality, Nervous Prostration, and Convalescence from Fevers, &c.

GENTLEMEN: I was suffering from general debitity to such an extent that my labor was exceedingly burdensome to me. A vacation of a month did not give me much relief, but on the contrary, was followed by increased prostration and sinking chills. At this time I began the use of your Iron Tonic, from which I realized almost immediate and wonderful results. The old energy returned and I found that my natural force was not permanently abated. I have used three bottles of the Tonic, Since using it have done twice the bort that I ever did in the same time during my illness, and with double the ease. With the tranquil nerve and vigor of body, has come also a clearness of thought never before enjoyed. If the Tonic has not done the work, I know not what. I give it the credit.

J. P. WATSON, Pastor Christian Church, Troy, O.

The Iron Tonic is a preparation of Protoxide of Iron, Peruvian Bark, and Phosphates, associated with the Vegetable Aromatics. It screes every purpose where a Tonic is necessary.

MANUFACTURED BY THE DR. HARTER LIEDICINE

The Sedgwick STEEL WIRE FENCE.

Is the only general purpose wire fence in use. ' eling a strong network without barbs'; it will turn does plags, poutry, as well as the most victious stock, without danger to either fence or stock. It is just the fence for 'stracts, gardeners, stockrasters and rail-roads, very desirab.' ol bwins, parks or cemeteries. As it is covered with trust-pro-, paint, it will last a life time. It is superior to boards in every respect, and far better than barbed wire. We ask for its a fair trial, knowing it will wear itself into favor. We also manufacture the Automatic or Self-opening Gate. The utility of self-orening gates are more and more appreciated. The Sedgwiok Gates, made o' wrought from and steel wire defy all competition in neatness, lightness trongth, and durability. Ask hardware dealers, or for price list, and particulars address. A TREATISE ON

THE HORSE

and His Diseases,

By B. J. KENDALL, M. D.

FULL OF VALUABLE AND PRAC-TICAL INFORMATION,

AND CONTAINING

An Index of Diseases,

WHICH GIVES the Symptoms, cause and the Best Treatment of each. A table giving all the principal drugs used for the Horse, with the ordinary dose, effects, and antidote when a poison. A table with an engraving of the Horse's teeth at different ages, with rules for telling the age of the Horse. 65 engravings showing the important points in the structure of the Horse, also illustrating positions assumed by sick horses in different diseases. A valuable collection of receipts, many of which would cost a horse-owner three to five dollars each.

EVERY FARMER SHOULD OWN THIS BOOK

Thousand who have seen it commend it, and many good horsemen have extolled it in the highest terms, even stating that they prefer it to books which cost \$5.00 to \$10.00.

BUY KENDALL'S TREATISE.

A book of 100 pages, in paper covers, giving you more practical information than is contained in some large volumes at far higher cost,

KENDALL'S SPAVIN CURE!

It cures Spavins, Splints, blistering. For man it is Ringbones, Curbs and all now known to be one of similar blemishes and rethe best if not the best linmoves the bunch without ment ever discovered.

THE MOST SUCCESSFIL REMEDY ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW.

KENDALL'S SPAVIN CURE

B. J. KENDALL & Co.,—Gents:—This is to ceatify than I have used Kendall's Spavin Cure and have found it to be all it is recommended to be, and in fact more too; I have removed by using the above, Callous, Bone Spavins, Ring Bones, Splints, and can cheerfully testify and recommend it to be the best thing for any bony substance 1 have ever used, and I have tried many, as I have made that my study for years. Respectfully yours, P. V. CRIST.

KENDALL'S SPAVIN CURE.

The following letter was written to our agent in Louisville, Kentucky, by the owner of the stage route from Lebanon, Ky., to Campbellsville, who is well known throughout the State,

CAMPBELLSVILLE, Ky., Jan. 30th, 1878.

J. W. Morrill & Co., Louisville, Ky.-Gents:-The Kendall's Spavin Cure you sent me some time ago has proved invaluable in all cases for which I used it: sprains, sore back, galled shoulders, windgalls and scratches. Fortunately, I did not have any stock with spavins at the time. Yours respectfully, GEORGE BORDERS.

KENDALL'S SPAVIN CURE.

SAVANNAH, GA., Dec. 23, 1880.

Dr. B. J. KENDALL & Co., -Gents: -Enclosed please find 25 cents for which send me one of your new horse books and oblige. I have tried your Kendall's Spavin Cure in a case of Rheumatic Gont and find it an excellent remedy. Yours, &c., &c., J. W. HUNT.

KENDALL'S SPAVIN CURE.

WILTON, MINN., Jan. 11th, 1881.

B. J. KENDALL & Co., -Gents: -Having got a horse book of you, by mail, a year ago, the contents of which persuaded me to try Kendall's Spavin Cure on the hind leg of one of my horses, which was badly swollen and could not be reduced by any other remedy. I got two bottles of Kendall's Spavin Cure, of Preston & Luddeth, druggists of Waseca, which completely cured my horse. About five years ago I had a three year old cold sweenied very bad, I used your remedy as given in your book, without rowelling, and I must say to your credit that the cost is entirely cured, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the trifling sum of 25 cents, and if I could not get another like it, I would not take twenty five dollars for it. Yours truly, GEO. MATHEWS.

KENDALL'S SPAVIN CURE ON HUMAN FLESH,

WEST ENOSBURGH, VT., Feb. 15th, 1881.

Dr. B. J. KENDALL & Co., -Gents: -Several months ago I injured my knee joint, which caused an enlargement to grow, the size of a large walnut, and caused me very severe pain all the time for four or five weeks, when I began to use Kendall's Spavin Cure, with the most satisfactory results. It has completely removed the enlargement and stopped the lameness and pain. I have long known it to be excellent for horses, but now I know it to be the best liniament for human flesh that I am ac-T. P. LAWRENCE. quainted with. Yours truly,

Send address for Illustrated Circular, which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price \$1 per bottle, or 6 bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, Dr. B. J. KENDALL & Co., Enosburgh Falls, Vt.

RIVER LINE, Pier 10 Light Street Wharf. R, FOSTER, General Manager,

TO WHEAT GROWERS!

The undersigned PIONEER, in the manufacture of Fertilizers in this city and Originator in 1858 of the formulas and processes of manufacture of

"Excelsior" and "Ammoniated Phosphate"

so well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers as MANUFACTURED BY HIM, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the Farmer—combining all the stimulating qualities of Peruvian Guano, and the ever-durable fertilizing properties of Bones, in fine, dry powder, prepared expressly for drilling, it is the universal opinion of the Farmers of Maryland and Virginia, after over twenty years experience in the use of the Excelsior manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for Manufacturing, I challenge competition with any Fertilizer sold in the United States in QUALITY,

MECHANICAL CONDITION and PRICE.

By strictly adhering to my Original Formulas, using only the most concentrated materials, and superintending in person their manufacture—as for the past twenty years,

UNIFORM QUALITY IS GUARANTEED.

Farmers to secure the ONLY GENUINE EXCELSIOR and PHOS-PHATE, prepared according to my original Formulas established in 1858, should see that every Bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

LAND PLASTER

Was introduced into the United States by Benjamin Franklin, aud first used by him in this country on his farm near Philadelphia. He divided a lot bordering on one of the principal thoroughfares leading from the city, into two sections, and the signs which he erected called the attention of the passers-by to the fact that "This part of the lot has been sown with Plaster of Paris," and "This part had not been sown." The effect of the plaster was remarkable, almost doubling the production of grass, and forthwith the demand for the new fertilizer became very great, and importations of it was the result.

Much might be written about its value to farmers, but they have

TESTED ITS MERITS

and they know, while other fertilizers have proved worthless,

PLASTER CONTINUES TO ENDURE THE TEST

and the steady increase in its sales is the best evidence of its growing popularity. It is doubtless the

Cheapest Fertilizer in Existence.

The analysis of this plaster is about 20 per cent. richer, in the essential element which makes the plaster of value for agricultural purposes, namely, Sulphate of Lime, than in plaster usually sold.

AGENT FOR CELENETIC CEMENT. This is next in strength to ENG. PORTLAND, and is being exensively used by the U. S. Govt. The Govt. test of tensiels strength is 455 lbs. to the sq. in., which is 321 lbs stronger than other american brands.

Save the Expense of Building a Brick Chimney

AND AND THE PERSON OF THE PERS

Our Fire Clay Chimney Pipe does not rust nor crack by heat nor crumble from frost. It has been used 10 years for Dwellings, Schools, Churches, &c. No danger from fire as it does not communicate heet to wood. Insurance Companies have decided it to be a safer Chimney than brick. It is equally as solid and no bricks nor bricklayer are required; any one can put it up. Each section is two feet long and rests in the bowl of the next. We show four forms of construction. A complete chimney to use in 2 stories can be furnished for about \$5.

TO COTTON GROWERS.

J. J. TURNER & CO., "EXCELSIOR,"

1858

1881

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvain Guano, and the ever durable fertilizing properties of Bones. In fine dry powder, prepared expressly for drilling.

After twenty-three Years' experience by the Planters of Maryland and Virginia in the use of "EX-CELSIOR." it is their unanimous opinion that an application of 100 pounds of "EXCELSIOR" is equal to from 200 to 300 pounds of any other fertilizer or guano, and, therefore, fully 100 per cent cheaper

Farmers should see that every bag is branded with the Analysis, and our name, in red letters, which we hope will prove sufficient protection against counterfeit articles. All further abuse of our name being disclaimed for the future. A large supply of Peruvain Guano for sale,

TO COTTON GROWERS. J. J. TURNER & CO.,

BONE SUPER PHOSPHATE,

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our "Excelsior," and is made with the same care and supervision; uniform quality guaranteed; in excellent order for drilling.

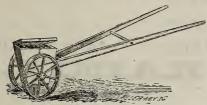

Farmers should see that every Bag is branded with the analysis and our name in red letters, which we hope will prove sufficient protection against conterfeit articles. ALL FURTHER ABUSE OF OUR NAME BEING DISCLAIMEL FOR THE FUTURE.

HALLOCK'S

IMPROVED

SEED DRILL.

This machine will sow in drills all kinds of seeds from beet down to the smallest seeds, without regard to weight, shape or size, with regularity, and without failure, as long as there is seed in the hopper, and will do the work with one man, that would take a half dozen men a given time. It can be sent anywhere by R. R. or Express, on receipt of the price, which is only \$5.00.

It is upon the principle of the old English hand

seed drills, with the revolving brush used for many

years in England. Address.

SUN MUTUAL AID SOCIETY,

OF BALTIMORE CITY.

-INCORPORATED 1880.-

COL. ED WIN WILMER, Manager.

Home Office, No. 11 S. Gay Street.

OFFICERS.

SAMUEL BLACK, - - - - President.
WOODWARD ABRAHAMS, - - - Vice-President.
R. W. L. RASIN, - - - Treasurer.
E. M. WILMER, - - - Secretary.

The Officers and References are gentlemen of well known business and professional standing and reputation.

THE OBJECT OF THE ASSOCIATION IS

1st. To secure to its members or their heirs a sum of money at a time when it is most needed. 2d. To insure such benefits at the lowest cost.

RELIABILITY.

The principles on which the Society is founded are as old as history, the funds are held by the members, themselves until needed to pay dues and benefits.

MEMBERSHIP.

Any person, MALE or FEMALE, in good health, between the ages of 20 and 60 may become members of the Association.

PRACTICAL WORKING.

The members agree to pay annual dues, (for current expenses) and assessments as rated, until such assessments shall exceed the amount required to pay a certificate in full; when they will be assessed only such a pro rata proportion as may be necessary to make up the sum needed. To pay a certificate, all the members will be assessed AS RATED in the tables, and cannot be assessed for more.

EXAMPLE.

Take an assessment on a certificate of \$1250; all who hold certificates for that amount will be assessed as rated, according to their ages. As for instance, persons from 30 to 40 would be assessed ONE DOLLAR Certificates of \$2500 would be assessed to meet a loss of \$1250, one-half the amount as rated; and certificates for \$5000, one-fourth their rated assessment. Thus the plan is purely mutual and strictly equitable.

PERMANENT DISABILITY.

In case a member should become permanently disabled, FIFTY PER CENT. of the value of their certificates will be paid to them then, and fifty per cent. more at maturity of years; or to their heirs at death. This is manifestly a most benevolent and desirable provision.

MATURITY OF YEARS.

Members who live to their years of expectancy, will be paid in their life-time the amount of their certificate, (old age, in a majority of cases, is a time of most need.

EXAMPLE.

Take a person 40 years of age at the time of joining. Their expectation of life, as per the Carlisle Tables, is 27 years. Should such a person live to be 67 years of age, he or she would then receive, IN CASH (in their life-time,) the amount of their certificate.

SPECIAL FEATURES.

The permanent disability provision and the payment to living members, of matured certificates, render membership in this Association MORE DESIRABLE than in Societies that pay benefits in case of death only.

WHO ARE SPECIALLY INTERESTED.

Every member has a personal interest in the growth and welfare of the Society, and should be active in inducing others to become members, as the larger the membership the LESS with be the assessments, and the GREATER the value of the certificates.

PROPRIETORS.

This RESTAURANT is the pldest and most ex tensive in its accommodations of any in the city.

The BAR is filled with the finest of all kinds of LIQUORS. The TABLES are covered with the best substantial food the markets afford, besides, at the earliest moment they can be procured in the different seasons, every variety of delicacy that land and water furnish, in

BIRDS, GAME, FISH, FRUITS & VEGETABLES.

Prices moderate. The crowds, which lunch and dine daily, attest public approbation of the superior management of the house.

It is a convenient place for travellers, who stop only a few hours or a day in the city, to get their meals. It is the popular resort of country gentlemen from the counties, particularly from Southern Maryland, being convenient to Railroads and Steamboats, and in the midst of the business portion of the city.

The Proprietors will be grateful for the continuance of the extensive patronage they now enjoy, and will do their best to give entire satisfaction to all visitors. ian-IV

AGENTS OF BOTH SEXES WANTED.

BARB THE FENCE. WIRE

The great question among the farmers the world over is, "What makes the best and cheapest fence?" As far as the United States is concerned we may fairly consider the question answered in favor of "Barb Wire," as over fifty thousand miles of it were put up during the past year, and yet the business is just in its infancy, and there is no doubt in the minds of those conversant with the subject, that Barb Fence will soon be acknowledged as THE FENCE of the world.

We have a superior quality of this fence, and carry a larger stock than any house this side of New York. Although our wire is worth 25 per cent. more than any other

make, it is sold as low as any in the market. Send for circulars or call upon.

ED. C. LEGG, KENT ISLAND, MD.

To THOSE who take an interest in poultry, we would call their attention to

Condimentall Spice Food

which, although well and favorably known, in and around its place of manufacture, is little heard of beyond that, simply for the reason that the margin of profit is too small to admit of indiscriminate advertising to make its merits of avail to the general public.

Its use will cure all the diseases that affect poultry and put them in a good, thriving condition, and an increase of forty per cent. in the yield of eggs, can almost with a certainty be guaranteed.

Poultry fanciers recommend it for Exhibition birds, as it gives them a glossy plumage and healthy looking combs.

The Spice Food is put up in packets, and is for sale at many feed stores. Full instructions accompany each, and they are within the reach of every one as they only cost THREE CENTS a packet.

THE CONDIMENTAL FOOD COMPANY,

130 N. Third Street, Phila.

Important to Grocers, Packers, Hucksters, and the General Public.

THE KING FORTUNE MAKER.

A New Process for Preserving all Perishable Articles, Animal and Vegetable, from Fermentation and Putrefaction, Retaining their odor and Flavor.

"OZONE-Purified air, active state of Oxygen."- Webster.

This Preservative is not a liquid, pickle, or any of the old and exploded processes, but is simply and purely OZONE, as produced and applied by an entirely new process. Ozone is the antiseptic principle of every substance, and possesses the power to preserve animal and vegetable structures from decay.

There is nothing on the face of the earth liable to decay or spoil which Ozone, the new Preservative, will not preserve for all time in a perfectly fresh and palatable condition.

The value of Ozone as a natural preserver has been known to our abler chemists for years, but, until now, no means of producing it in a practical, inexpensive, and simple manner have been discovered.

Microscopic observations prove that decay is due to septic matter or minute germs, that develop and feed upon animal and vegetable structures. Ozone, applied by the Prentiss method, seizes and destroys these germs at once, and thus preserves. At our offices in Cincinnati can be seen almost every article that can be thought of, preserved by this process, and every visitor is welcome to come in, taste, smell, take away with him, and test in every way the merits of Ozone as a preservative. We will also preserve, free of charge, any article that is brought or sent prepaid to us, and return it to the sender, for him to keep and

FRESH MEATS, such as beef, mutton, veal, pork, poultry game, fish, &c., preserved by this methed, can be shipped to Europe, subjected to atmospheric changes and return to this country in a state of perfect preservation.

EGGS can be treated at a cost of less than one dollar a thousand dozen, and be kept in an ordinary room six months or more, thoroughly preserved; the yolk held in its normal condition, and the eggs as fresh and perfect as on the day they were treated, and will sell as strictly "choice." The advantage in preserving eggs is readily seen; there are seasons when they can be bought for 8 or 10 cents a dozen, and by holding them, can be sold for an advance of from one hundred to three hundred per cent. One man, with this method, can preserve 5,000 dozen a day.

FRUITS may be permitted to ripen in their native climate, and can be transported to any part of the world.

The juice expressed from fruits can be held for an indefinite period without fermentation-hence the great value of this process for producing a temperance beverage. Cider can be held perfectly sweet for any length of time.

VEGETABLES can be kept for an indefinite period in their natural condition, retaining their odor and flavor, treated in their original packages, at a small expense. All grains, flour, meal, etc., are held in their normal condition.

BUTTER, after being treated by this process, will not become rancid.

Dead human bodies, treated before decomposition sets in, can be held in a natural condition for weeks, without puncturing the skin or mutilating the body in any way. Hence the great value of Ozone to undertakers.

There is no change in the slightest particular in the appearance of any article thus preserved, and no trace of any foreign or unnatural odor or taste.

The process is so simple that a child can operate it as well and as successfully as a man. There is no expensive apparatus or machinery required.

A room filled with different articles, such as eggs, meat, fish, etc., can be treated at one time, without additional trouble or expense.

In fact, there is nothing that Ozone will not preserve. Think of every thing you can that is liable to sour, decay, or spoil, and then remember that we guarantee that Ozone will presere it in exactly the condition you want it for any length of time. If you will remember this, it will save asking questions as to whether Ozonewill preserve this or that article-it will preserve anything and every

thing you can think of.

There is not a township in the United States in which a live man can not make any amount of money, from \$1,000 to 10,000 a year, that he pleases. We desire to get a live man interested in each county in the United States, in whose hands we can place this Preservative, and through him secure the business which every county ought to produce,

A FORTUNE Awaits any man who secures control of OZONE in any Township or County.

A. C. Bowen, Marion, Ohio, has cleared \$2,000 in two months. \$2 for a test package was his first invest-

Woods Brothers, Lebanon, Warren County, Ohio, made \$6,000 on eggs purchased in August and sold November 1st. \$2 for a test package was their first investment.

F. K. Raymond, Morristown, Belmont Co., Ohio, is clearing \$2,000 a month in handling and selling Ozone. \$2 for a test package was his first investment.

D. F. Webber, Charlotte, Eaton Co., Mich., has cleared \$1,000 a month since August. \$2 for a test package was his first investment.

J. B. Gaylord, 80 La Salle St., Chicago, is preserving egggs, fruit, etc., for the commission men of Chicago, charging 1%c. per dozen for eggs, and other articles in proportion. He is preserving 5,000 dozen eggs per day, and on his business is making \$3,000 a month clear. \$2 for a test package was his first investment.

The Cincinnati Feed Co., 498 West Seventh Street, is making \$5,000 a month in handling brewers' malt, preserving and shipping it as feed to all parts of the country. Malt unpreserved sours in 24 hours. Preserved by Ozone it keeps perfectly sweet for months.

These are instances which we have asked the privilege of publishing There are scores of others. Write to any of the above parties and get the evidence direct.

Now, to prove the absolute truth of every thing we have said in this paper, we propose to place in your hands the means of proving for yourself that we have not claimed half enough. To any person who doubts any of these statements, and who is interested sufficiently to make the trip, we will pay all traveling and hotel expenses for a visit to this city, if we fail to prove any statement that we have made.

How to secure a Fortune with Ozone

A test package of Ozone, containing a sufficient quantity to preserve one thousand dozen eggs, or other articles in proportion, will be sent to any applicant on receipt of \$2. This package will enable the applicant to pursue any line of tests and experiments he desires, and thus satisfy himself as to the extraordinary merits of Ozone as a preservative. After having thus satisfied himself, and had time to look the field over to determine what he wishes to do in the future-whether to sell the article to others, or to confine it to his own use, or any other line of policy which is best suited to him and to his township or county-we will enter into an arrangement with him that will make a forture for him and give us good profits. We will give exclusive township or county privileges to the first responsible applicant who orders a test package and desires to control the business in his locality. The man who secures control of Ozone for any special territory, will enjoy a monopoly which will surely enrich him.

Don't let a day pass until you have ordered a Test Package, and if your desire to secure an exclusive privilege we assure you that delay may deprive you of it, for the applications come in to us by scores every mail-many by telegraph, "First come first

served" is our rule.

If you do not care to send money in advance for the test package we will send it C. O. D., but this will put you to the expense of charges for return of money. Our correspondence is very large; we have all we can do to attend to the shipping of orders and giving attention to our working agents. Therefore,

we can not give any attention to letters which do not order Ozone. If you think of any article that you are doubtful about Ozone preserving, remember we guarantee that it will preserve it, no matter what it is.

REFERENCES:

We desire to call your attention to a class of references which no enterprise or firm based on anything but the soundest business success and highest commercial merit could secure.

We refer, by permission, as to our integrity, and to the value of the Prentiss Preservative, to the followlowing gentlemen: Edward C. Boyce, Member Board of Public Works; E. O. Eshelby, City Comptroller; Amor Smith, Jr., Collector Internal Revenue; Wuslin & Worthington, Attorneys; Martin H. Harrell and B. F. Hopkins, County Commissioners; W.S. Cappeller, County Auditor; all of Cincinnati, Hamilton County, Ohio. These gentlemen are each familiar with the merits of our Preservative, and know from actual observation that we have without ques-

The most Valuable Article in the World.

The \$2 you invest in a test package will surely lead you to secure a township or county, and then your way is absolutely clear to make from \$2,000 to \$10,000 a year.

Give your full address in every letter, and send your letter to
